

Harper College Transfer Planning Guide

Associate in Arts – Elementary Education Sample Plan

Transfer & Career Notes

All states require public elementary school teachers to be certified. Certification requirements vary by state, although generally they include a bachelor's degree from a four-year program and completion of an approved teacher education program. Almost all states require applicants for certification to be tested for competency in basic skills, teaching skills, or subject matter.

Admission requirements to schools of education are often higher than admission requirements to the university itself.

Prior to and during student teaching, students should have a variety of involvements with children and youth. Some of these experiences may be built into class time; others will need to be done by the student's initiative. Most teacher education programs require a student to have a minimum of 100 hours in laboratory and clinical experience before entering student teaching. Some schools will accept Harper's EDU 202 to satisfy part of this clinical experience requirement.

Suggested Courses

This sample transfer planning guide meets the requirements of the Fall 2016 AA degree. Transfer institution requirements may vary. Students should check individual college/university requirements before completing the sample plan as outlined. Baccalaureate admission may be competitive; completion of these courses alone does not guarantee admission.

Requirements for schools vary. Students should check the individual school requirements before completing the curriculum as outlined.
