ELECTRONICS ENGINEERING TECHNOLOGY

Electronics Certificate

This 16 credit-hour certificate program is designed to prepare students for careers in the field of electronics and other related technology industries. The curriculum is very flexible as it allows students to choose from a number of electronics courses in many diverse technology areas and is tailored to provide entry-level career training in a relatively short time. A broad range of electronics courses provides considerable emphasis on analysis, operation, application, installation and servicing. Because most courses have prerequisites, students should consult with the Program Coordinator prior to enrolling.

Students completing this program may find employment in various entry-level positions in technical sales, manufacturing and quality control, and customer service.

Students may also continue their education by pursuing an Associate in Applied Science degree. Students considering this option are encouraged to meet with the Program Coordinator and an academic advisor prior to beginning the program and also when planning their schedule each semester.

F = Fall only course S = Spring only course U = Summer only course

Electives: Choose any combination of 16 credit hours with Program Coordinator approval:

er	Course Title Cre	edits
101	DC Network Analysis (F)	4
102	AC Network Analysis (S)	4
110	Introductory Electronics	4
111	Semiconductor Devices and Circuits (S)	2
203	Digital Electronics (F)	4
207	Communications Systems (S)	4
215	Industrial Control Systems	4
218	Embedded Microcontroller/Processor Systems (S)	4
281	Topics in Electronics Engineering Technology	1-4
	101 102 110 111 203 207 215 218	er Course Title Cree 101 DC Network Analysis (F)
