

Palatine, Illinois

College Plan

2017-2018

MISSION

Harper College enriches its diverse communities by providing quality, affordable, and accessible education. Harper College, in collaboration with its partners, inspires the transformation of individual lives, the workforce, and society.

PHILOSOPHY STATEMENT

We, at Harper College, believe that our charge is to facilitate active learning and foster the knowledge, critical thinking and life/work skills required for participation in our global society. We work with our community partners to enrich the intellectual, cultural and economic fabric of our district. We believe that excellence in education must occur in an ethical climate of integrity and respect. We hold that the strength of our society is rooted in our diversity and that it is through synergy that we achieve excellence.

CORE VALUES

INTEGRITY

Result: An environment where relationships and practices are based on trust. Key Action: Be responsible and accountable for your own actions.

RESPECT

Result: Interactions which add dignity to ourselves, our relationships with others and our organization. Key Action: Value and celebrate the uniqueness of individuals.

EXCELLENCE

Result: Student, employee and organizational success through a creative and responsive work environment by exceeding the needs and expectations of all. Key Action: Effectively anticipate, identify and respond to learner, employee and organizational needs.

COLLABORATION

Result: Accomplishment of better results by working together than otherwise likely to occur by working alone. Key Action: Address issues as they arise and take necessary actions to productively resolve them.

THE GOVERNMENT FINANCE OFFICERS ASSOCIATION OF THE UNITED STATES AND CANADA (GFOA)

Presented a

DISTINGUISHED BUDGET PRESENTATION AWARD

To

WILLIAM RAINEY HARPER COLLEGE

District #512 Palatine, Illinois

For its Annual Budget For the fiscal year beginning July 1, 2016

In order to receive this award,
a government unit must publish a budget document
that meets program criteria
as a policy document,
as an operation guide,
as a financial plan,
and as a communications device.

This award is valid for a period of one year only. We believe our current budget continues to conform to program requirements, and we are submitting it to GFOA to determine its eligibility for another award.

GOVERNMENT FINANCE OFFICERS ASSOCIATION

Distinguished Budget Presentation Award

PRESENTED TO

William Rainey Harper College Illinois

For the Fiscal Year Beginning

July 1, 2016

Jeffry P. Ener

Executive Director

Kenneth L. Ender, Ph.D. President

1200 West Algonquin Road Palatine, Illinois 60067

Letter of Introduction from the President

Harper College has long distinguished itself through its efforts to serve students and emphasis on teaching and learning. Innovations in curriculum, teaching strategies and support services for students are hallmarks of the College. The College is committed to reducing student performance gaps and increasing the rate of program completion, transfer, and graduation. To assist in achieving these objectives, the College has a four year Strategic Plan focused on student completion and success. We continue to implement new initiatives aligned with the Strategic Plan that help students meet their educational goals. The College will complete its reaccreditation process which ensures institutional quality. As a result of our student success initiatives, a new position, academic advisor, is being operationalized in FY 2018. These advisors will join current faculty counselors in a case management approach that assigns students to a point person who will guide them to completion or achievement of their academic goals. An electronic educational plan will be required of all credential seeking students. This plan will be monitored by their academic advisors to ensure students remain on track. In addition, we will continue to build our capacity to use analytics that provide predictive data that inform the College as to how student support services, classroom experiences and other factors contribute to student success. This will allow the College to deploy resources accordingly.

The Promise Program, launched in FY 2016, will continue to be a major focus as the College prepares to welcome the first students who have met all the criteria and have earned their first semester of tuition-free programming at Harper. To date, \$8.6 million of the \$10 million required to sustain the program has been raised. The remaining \$1.4 million is anticipated to be raised during Harper's 50th Anniversary Gala. The Gala represents just one of a myriad of events that are planned to celebrate Harper's 50th year as a premier community college.

We continue to make significant progress with our Campus Master Plan. In FY 2018, we will complete major renovations to Building F, also known as the David K. Hill Family Library. In addition, significant renovations to Building M, which includes the Health and Recreation Center, will continue. This unique building represents collaboration between Harper, Northwest Community Healthcare, the Palatine Park District and Centers Management to create a new center focused on wellness and recreation. We have been waiting for State of Illinois funding to be released for the Canning Center renovations, as well as for our Hospitality Program facilities. These funds have now been appropriated by the State.

A major research project in FY 2018 will focus on student perceptions of Harper College with the administration of the Community College Survey of Student Engagement or CCSSE. The study, which will be administered during the spring, asks students about institutional practices and student behaviors that are highly correlated with learning and retention. This information will be used to further hone and refine our student success initiatives.

The College continues its focus on a four-year Strategic Plan that was approved in FY 2016 and includes five overall goals. Three of these goals were identified within the overarching theme of student success, which drives the strategic direction of the College. These goals include Curriculum and Instruction which focuses on teaching and learning within the classroom, Academic Planning and Pathways which assists students in understanding their academic area of interest, and Student Experience which reinforces a culture of care throughout the organization. These three goals are all supported by a fourth goal, Aligning Employee Skills which seeks to ensure faculty and staff participate in professional development activities that ensure the strategic goals are met. A fifth goal of Stewardship focuses on scaling promising practices.

Harper College must continue to change to meet the evolving needs of our community, students and the workforce. Today's new economy demands that our completers be technologically proficient, have communication and critical thinking skills and, most importantly, have access to training and credentialing to upgrade their skills over a lifetime of work. Harper is continually adapting to meet this new reality. While we continue to strive for strong enrollment, our goals are more closely aligned to increasing the number of students who are successful at Harper.

Kenneth L. Ender, Ph.D. President October, 2017

Introduction

Profile of William Rainey Harper College

William Rainey Harper College is a comprehensive community college located in Palatine, Illinois, 60 miles northwest of Chicago, serving High School Districts 211, 214, and Unit District 220. Established in 1966, Harper College serves more than 25,000 credit full-time equivalent students each year from 23 suburban communities. Harper is dedicated to student success initiatives focused on three strategic directions: Inclusion, Engagement and Achievement and is committed to its mission of enriching its diverse communities by providing quality, affordable, and accessible education. Harper College, in collaboration with its partners, inspires the transformation of individual lives, the workforce, and society. Harper College awards seven Associate degrees, transfer options in more than 50 programs, and a number of certificate programs to meet specific needs of the community and area industry.

More than 42% of Harper's students are Hispanic, Asian American, or African American. Nearly 23% of students receive Pell grants. Sixty-six percent of the student body enrolls on a part-time basis. Roughly 52% of students are between the ages of 19 and 24, and 53% intend to transfer to a 4-year college or university. Student success increases each year, currently with a 28% graduation rate and a 30% transfer rate.

Harper College is governed by a seven-member Board of Trustees, elected by the voters in its district, and one student representative, who has an advisory role and is elected by the student body. The College is regionally accredited by the Higher Learning Commission.

Harper's operating revenue comes from tuition and fees (43%), state subsidy (4%), local taxes (52%), and other sources (1%).

History

Named for the originator of the community college concept, William Rainey Harper College is a comprehensive, open door community college—one of 48 in the state that make up the Illinois Community College System. The College's District No. 512 was established by voter referendum in 1965, and Harper offered its first classes in 1967.

Throughout its history, Harper has had a record of monumental growth. The initial 1967 enrollment of 1,725 students jumped to 3,700 in one year, doubling projections. When the doors opened on Harper's newly acquired campus in 1969, 5,350 students were enrolled. Since then enrollment has grown to over 25,000 (credit) students. With a full-time equivalent (FTE) enrollment of approximately 9,700, as well as a full-time staff of 750 employees, including 228 full-time faculty, Harper is the third largest community college in the state.

Harper's President, Dr. Kenneth Ender, was appointed in July 2009 as the institution's fifth president. Dr. Ender and the College Board of Trustees set out to develop a new strategic plan to increase student success. The College is implementing its second strategic plan under the Ender presidency. The 2016-2019 plan commits the College to three strategic directions; Inclusion, Engagement and Achievement.

The Community

The Harper College District No. 512 includes portions of four counties: Cook (which makes up the majority of the area and population of Harper's district), Lake, Kane and McHenry. The communities include Arlington Heights, Barrington, Barrington Hills, Elk Grove Village, Hoffmann Estates, Inverness, Lake Barrington, Mount Prospect, North Barrington, Palatine, Prospect Heights, Rolling Meadows, Schaumburg, South Barrington, Tower Lakes, Wheeling and portions of Buffalo Grove, Carpentersville, Deer Park, Des Plaines, Fox River Grove, Hanover Park and Roselle. The municipalities that are located within Harper's district range in size from Tower Lake's 1,255 residents to Arlington Heights' 75,926 residents. An estimated 536,000 people live within the district. Of these, approximately 23% were age 17 and under, and 28% were age 55 and over. A majority of residents are Caucasian (66%). Of the remaining population, 16% are Hispanic, 14% are Asian, and 3% are African American.

Household incomes in Harper's district communities are striking in both their range and in the changes that have occurred between 2010 and 2015. In 2015, median household income varied from a low of \$56,110 in Wheeling to a high of \$173,650 in South Barrington. Median incomes in 16 of the 23 communities were above the Illinois median of \$57,574. However, incomes in all but seven of the communities decreased between 2010 and 2015, ranging from a decline of 1% to 25%. It is not clear whether these shifts were the result of the in-migration of lower-income families to more affluent communities or due to increased unemployment rates and reduced earnings. Regardless of the reason, these trends represent a drop in the amount of household income in the Harper district available for education.

Harper College and its community enjoy a fruitful and successful relationship. The College has achieved a 98% satisfaction rate from its graduates. In fall 2008, Harper College district voters passed a \$153.6 million capital bond referendum to support the facilities enhancements. In addition, the non-profit Harper College Educational Foundation actively raises funds for the College through individual, foundation, and corporate donors. The large number of manufacturing, financial services, and healthcare institutions in the district are among Harper's supporters.

Services Offered

William Rainey Harper College offers associate degrees, certificate programs, and the first two years of a baccalaureate degree.

The College offers seven associate degrees, five of which are designed for students who will transfer to a four-year college or university to complete a bachelor's degree. The five are the Associate in Arts (AA), the Associate in Science (AS), the Associate in Fine Arts—Art (AFA), the Associate in Fine Arts—Music (AFA) and the Associate in Engineering Science (AES) degrees, which comprise the first two years of study toward degrees in a broad range of arts-related or science-related disciplines. The sixth, the Associate in General Studies (AGS) degree program, is designed as an individualized program option meeting needs not met by other degree programs, or as a capstone for occupational certificate programs.

The seventh, the Associate in Applied Science (AAS) degree, is awarded upon completion of a two-year career program and is designed to prepare the graduate for immediate entry into a specific career field.

Harper also provides certificate programs, typically one year in length, that are designed with prescribed courses to meet specific needs of the community, including area businesses and industries. In addition, the College offers contract training to local industry employees through the Harper Business Solutions, provides non-credit learning opportunities for students of all ages through its Continuing Education Division, and supports students who need high school equivalency and ESL services through its Liberal Arts Division.

Because Harper is an open door, open enrollment learning institution, it provides an array of student services to meet student need, including access and disability services, multi-cultural enrichment and support services, summer bridge programming to prepare students for college-level rigor, student clubs and activities, sports and recreation teams, and many other opportunities.

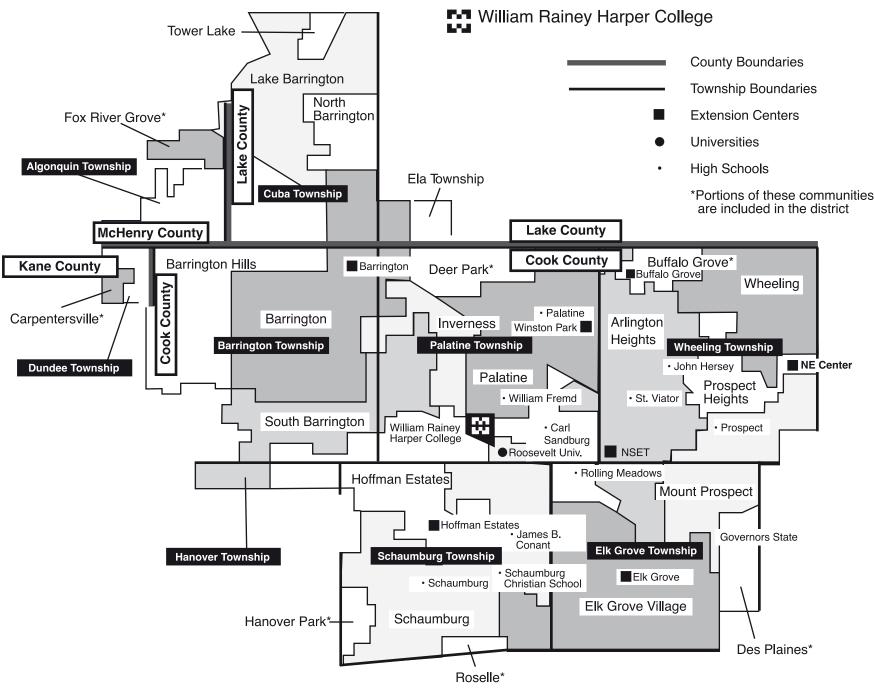

Facilities

William Rainey Harper College supports a wide range of programs with a 200-acre campus in Palatine and two satellite facilities: the Harper Professional Center in Schaumburg and the Learning and Career Center in Prospect Heights. The campus is comprised of 24 buildings and offers state-of-the art science and technology laboratories and classrooms, a comprehensive library and learning resources center, computer labs, lecture halls, theaters, a wellness and sports center and the Wojcik Conference Center.

Conclusion

Despite its historic and continuing success, Harper College must continue to change to meet the evolving needs of our community, students and the workforce. Today's new economy demands that our completers be technologically proficient, have communication and critical thinking skills and, most importantly, have access to training and credentialing to upgrade their skills over a lifetime of work. Harper is continually adapting to meet this new reality. While we continue to strive for strong enrollment, our goals are more closely aligned to increasing the number of students who are successful at Harper.

Community College District 512

Organized for Student Success

The College's organizational design authorizes the executive officers to lead and manage the daily operations of the College under the direction of the President. Enabling student success is the chief organizing theme. The executive staff of the College includes the Provost, Executive Vice President of Finance and Administration, Chief of Staff and Vice President of Institutional Planning and Strategic Alliances, Vice President and Chief Advancement Officer, Vice President of Workforce Solutions, and Special Assistant to the President for Diversity and Inclusion.

The goal of the organization's design is to integrate functions to improve efficiency and service levels. This structure consolidates Academic Affairs, Student Affairs and Enrollment Services under a single leader, the Provost. Likewise, one organizational structure exists for Finance and Administration, Information Technology, Human Resources and Facilities Management. Institutional coordination, workforce partnerships, strategic planning, institutional research, accreditation and outcomes assessment are included in the President's Office. All of the community relations and communication efforts including Marketing Services, the development efforts and grants are centralized into the Advancement Office.

Created in 2014 is the Office of Diversity and Inclusion. As Harper's community continues to grow in diversity, this will ensure that the College is intentional about diversity and inclusion. The primary responsibility of this area is to ensure that diversity and inclusion is promoted on campus in all areas. The organizational alignment combines functions that leverage resources in new ways and create efficiencies in the daily operation of the College. The administrative organization chart follows this section.

Provost's Area

Function

This area of the College, led by Dr. Judith Marwick, is responsible for the students from application to graduation. The area combines the functions of Academic Affairs, Student Affairs and Enrollment Management. This area has the primary responsibility for student success. Programs are managed and delivered via academic divisions including Math and Sciences, Liberal Arts, Business and Social Science, Career and Technical Programs, Health Careers, and Resources for Learning. This area also focuses on providing services, programs, and cocurricular opportunities and courses that enhance the learning environment as well as the whole person. Supporting departments include: Access and Disability Services, Student Involvement, Academic Advising and Counseling, Testing Center, Center for Multicultural Learning, Student Development, New Student Program, Recruitment and Outreach, Student Financial Assistance, One-Stop Center, Women's Program, Athletic and Fitness Programs, Events Management, Health Services and Enrollment Services. Enrollment Services provides outreach to credit students, processes applications, provides financial aid processing, completes the enrollment process and provides support to new students. The Provost's area also supports teaching and learning through the Academy for Teaching Excellence and Interdisciplinary Studies.

Budget

Total FY 2018 Provost Budget (All Funds) \$79,014,369

Direct Reports

Brian Knetl, Associate Provost, Interdisciplinary Student Success Maria Moten, Assistant Provost, Dean of Enrollment Services

Sheryl Otto, Assistant Provost, Dean of Student Development

Dr. Jennifer Berne, Dean, Liberal Arts

Dr. Kathy Bruce, Dean, Math and Sciences

Dr. Kimberly Chavis, Dean, Health Careers

Dr. Travaris Harris, Dean, Student Affairs

Dr. Mary Beth Ottinger, Dean, Career and Technical Programs

Kathryn Rogalski, Dean, Business/Social Science

FY2018 Priorities

- Expand First Year Seminar and other Start Smart options to provide all credential-seeking students with an academic plan during their first semester of attendance.
- Implement a plan to assure each degree seeking student is assigned a counselor or advisor for support and assistance throughout their enrollment at Harper College.
- Implement Areas of Interest (AoI) as a system to offer orientation sessions, First Year Seminar courses and academic advising.
- Develop the academic program website to clearly communicate program content related to AOI and schedule of courses, and employment and transfer opportunities.
- Ensure the quality of online courses and package online certificates and degrees.
- Implement a Level II adjunct faculty professional development program and expand Communities of Practice.
- Manage overall College enrollment.

Finance and Administrative Services

Function

This area of the College, led by Dr. Ronald Ally, provides services to Harper College administration, staff and faculty that enable them to better serve students. This area is responsible for Information Technology, Human Resources, Facilities Management including Maintenance and Risk Management, Financial Services including Purchasing and Retail Services (HarperStore, Dining Services, and Conference and Event Management), and the Harper College Police Department.

Budget

Total FY 2018 Finance and Administrative Services Budget (All Funds) \$38,665,260

Direct Reports

Patrick Bauer, Chief Information Officer Bret Bonnstetter, Controller Darryl Knight, Executive Director of Physical Plant Paul LeBreck, Chief of Police Roger Spayer, Chief Human Resources Officer

FY2018 Priorities

- Manage the College's financial results to meet stated goals.
- Complete construction of Building F and open for business.
- Continue construction of Building M.
- Begin construction of the Canning Center (subject to State approval).
- Monitor impact of State of Illinois pension cost shift.
- Monitor impact of and compliance with the Affordable Care Act.
- Implement a new Student Portal.
- Conduct an emergency exercise of the Emergency Operations Plan, as well as a campuswide tornado drill.

Institutional Planning and Strategic Alliances

Function

This area of the College, led by Dr. Maria Coons, provides oversight for institutional planning, accountability and research and includes the role of Chief of Staff and Board Liaison. This area is also involved with strategic external partnerships. Functions include institutional research, outcomes evaluation, and institutional effectiveness for the College. The relationship with the Higher Learning Commission (HLC) is managed through this area, as well. This unit produces the College Plan, Accountability Report, Fact Book and Student Success Report annually to guide the College's efforts and report to the community on its outcomes. It is also responsible for large-scale research projects which include the Community Survey, Environmental Scan, Community College Survey of Student Engagement, and Employee Climate Survey.

Budget

Total FY 2018 Planning and Strategic Alliances Budget (All Funds) \$1,439,913

Direct Reports

Darlene Schlenbecker, Executive Director for Planning, Research and Institutional Effectiveness

FY2018 Priorities

- Finalize the Higher Learning Commission (HLC) assurance argument.
- Coordinate the HLC visit.
- Submit HLC quality initiative.
- Support work of strategic planning goal teams.
- Conduct the Community College Survey of Student Engagement (CCSSE).
- Conduct the Community College Faculty Survey of Student Engagement (CCFSSE).
- Support the development of student analytic models.

Marketing, Communications, Advancement and Community Relations

Function

This area of the College, led by Laura Brown, is responsible for College Marketing, Communication, Community Relations and Fundraising. The fundraising is performed through the Educational Foundation which is a separate legal entity with its own governing board and more than \$16 million in assets. The Foundation focuses on securing corporate and private philanthropy. Foundation fundraising efforts support student success by direct scholarships to students and funding programs designed to improve student success. The Foundation accepts gifts in the forms of single donations, multi-year pledges, donated assets, gifts in kind and planned gifts. This unit also includes the Harper Alumni Program as well as the grant office, which pursues both public and private grant funds on behalf of the College.

Marketing, Communications and Community Relations functions ensure an integrated marketing and communication approach that creates a seamless experience for engagement of consumers, ranging from employees, students, community members and businesses.

Budget

Total FY 2018 College Advancement Budget (All Funds) \$4,539,571

Direct Reports

Mike Barzacchini, Director of Marketing Services Suzette Tolentino, Director of Advancement Services Heather Zoldak, Associate Executive Director for Major Gifts Allison Grippe, Director of Grants Brian Page, Director of Communications, Community Relations and Legislative Affairs

FY2018 Priorities

- Raise funds to support Harper Promise Program.
- Raise \$3 million in major gifts, planned gifts, and fundraising activities.
- Expand the College community engagement outreach.
- Implement the Legislative Affairs Plan.

Develop and implement marketing and communications strategies and tactics to help the College achieve its enrollment goals; focusing on new student enrollment and supporting retention.

Workforce Solutions

Function

This area of the College, led by Michelé Smith, provides oversight for workforce partnerships and adult accelerated learning. The division includes Continuing Education, Harper Business Solutions, the Illinois Small Business Development Center located at the Harper Professional Center, Workforce Board Support, the Job Placement Resource Center, Fast Track and youth programming. It currently manages a Department of Labor TAACCCT grant to increase the number of credential holders in manufacturing and supply chain management and supports apprenticeship programs at Harper College. Executive Oversight for the operation of the Harper Promise Scholarship Program also falls under the purview of this area. Finally, this area provides direction for the College's work in the area of diversity and inclusion.

Budget

Total FY 2018 Workforce Solutions Budget (All Funds) \$10,762,928

Direct Reports

Dr. Mark Mrozinski, Assistant Vice President of Workforce Development and Executive Dean of Community Education

Dr. Pearl Ratunil, Special Assistant to the President for Diversity and Inclusion

FY2018 Priorities

- Collaborate with Institutional Research and the campus community to review the Cultural Values Assessment results and develop an action plan for moving the campus toward the desired culture.
- Complete a program review for the Office of Diversity and Inclusion which provides succession plans for the next Special Assistant to the President for Diversity and Inclusion.
- Implement College-wide diversity and inclusion dialogue and education workshops for full-time regular employees in partnership with Kaleidoscope group.
- Develop (in collaboration with Human Resources, the Academy for Teaching Excellence and the Office of Student Involvement) a comprehensive 3-year diversity and inclusion campus Master Plan that fosters opportunities for meaningful programming and cross-cultural dialogues.

Analysis of Harper's Environment

As with the past plans, Harper College continues to study its environment and outcomes to identify issues to be responded to by the Strategic Plan. The next section contains an analysis of Harper College and its community, conducted in 2016.

Demographic changes in Illinois affect the Harper College district and are permeating each and every neighborhood. Birth rates are declining, young couples are waiting longer to have children, recovery from the 2008 recession has yet to return to pre-recession levels, and the housing industry still struggles to recover. As a result, school enrollments are declining while the student body becomes more diverse thus presenting new educational challenges. Funding for public schools and higher education is being reduced and threatened with further cuts, though additional services will be needed to meet the demands of the changing diversity. Yet performance indicators for sender high schools have been higher than the statewide averages. And, low income for school-aged children is estimated at 25%, which is only half of the statewide figure.

The district is losing residents from the white community but gaining residents from the Hispanic community. Foreclosures have returned to an even lower rate than was experienced before the recession thereby allowing neighborhoods to return to more stable investments. Unemployment has returned to healthy levels, but the labor force participation rate remains on the decline. The baby boomer generation lost considerable savings for retirement in the recession, so they are remaining in the workforce longer and this makes it more difficult for new graduates to find entry level positions. Unemployment remains higher than 10% for those without at least a high school diploma, and for those without any higher educational experience, unemployment is over 7%. The critical importance of higher education is that it provides much better job security.

Earnings in Cook County have been improving for all industries except for educational services, arts, entertainment, and recreation. From 2010-2014, the largest industries that made great strides in the improvement of earnings include manufacturing, professional and technical services, and finance and insurance. Healthcare practitioners and technicians is an occupational class that is paying higher annual wage levels while at the same time expanding, thereby providing promising job opportunities for new graduates in these areas.

There is no doubt that much of the economy hangs in the balance as the current recovery has been slow in comparison with previous recoveries or in comparison to other regions of the country. Maintaining a focus on where the Harper district will be in the next ten years will be crucial in responding to the needs and demands of incoming enrollees to ensure a return on their investment on their futures.

Illinois and the nation have experienced dramatic changes in the past decade. These include the aging and diversification of the population and workforce, increasing globalization and unprecedented technological advancement, and heightened concerns over terrorism and security both domestically and internationally. In addition, the impacts of economic recession of 2008-2009 continue to linger as many households and businesses remain cautious. While there are signs of improvement, the slow economic growth has hampered their ability to spend, borrow and invest as they did prior to the recession.

Economic indicators such as unemployment rates, housing values, wages, and many others, suggest that the resources needed to invest in postsecondary education have been directly impacted. This is a critical consideration for institutional planning. Campaign rhetoric in 2016 discussed the feasibility of offering students the first two years of community college for free. This would represent a potential game-changer for postsecondary education. However, funding concerns are likely to stall or prevent implementation, if even considered by the President. Other economic, demographic, workforce, technological, and political trends are important to consider as they all shape the opportunities and challenges before Harper Community College.

This environmental scan is intended to provide a baseline of information for Harper College's next strategic planning process. Understanding the current operating environment and future trends at the local, state, national and global levels will assist Harper's leaders and stakeholders in choosing the best course of action.

Primary data sources used for this scan included public agencies such as the Illinois Department of Employment Security, Illinois State Board of Education, U.S. Bureau of Labor Statistics, U.S. Census Bureau, the National Center for Education Statistics, and the Illinois Department of Revenue. Additional resources also came from private institutions providing freely accessible data, such as the Woodstock Institute research on foreclosures. Several subscription-based data resources were from private vendors such as EASI Analytics and Labor Insight's Burning Glass. An additional data source is the Society for College and University Planning (SCUP).

Key Trends and Considerations

Economic Trends

Trend #1: Economic conditions in the country have shown signs of recovery. However, in Illinois the recovery has been slower than that of other states.

The loss of net worth has hit primarily middle class families, affecting their ability to pay for their children's higher education.

Likelihood that the Trend Will Continue Over the Next 3 to 5 Years: High

Supporting Rationale:

- Nationally middle class households have lost nearly \$63,000 in median net worth after adjusting for inflation from 2007 to 2013.
- The past years of underfunding the Illinois pension system continues to plague Illinois recovery and budget impasse.
- Illinois bond ratings continue to be downgraded which will increase the costs to the state to operate.
- Higher education funding will be negatively impacted until Illinois is back on stable financial grounds.
- The higher state income tax rate was allowed to sunset further complicating Illinois finances.

Sources:

- Pew Research Center, 2015.
- Illinois Department of Employment Security, 2015.
- Illinois Comptroller's Office, 2016.
- State Higher Education Executive Officers, 2015.

Housing Trends

Trend #2: Foreclosures in the Harper district have been on the decline.

The effects of the economic recession in 2008 is still having impacts on housing in the Harper district.

Likelihood that the Trend Will Continue Over the Next 3 to 5 Years: Moderate

Supporting Rationale:

- Only two, out of 23 municipalities, have foreclosure rates greater than 1%.
- The overall foreclosure rate for all municipalities that overlap the Harper district is 0.54%, still slightly higher than the state and national rates, but a strong improvement.

Sources:

- Woodstock Institute, 2015.
- US Census Bureau.

Trend #3: While real estate sales improve, perceptions of housing values still low.

Home ownership is critical to the Harper district due to the revenue generation through property taxes. Low home values and many homes being vacated or rented can be indicators of some communities becoming destabilized that could lead to property tax reductions.

Likelihood that the Trend Will Continue Over the Next 3 to 5 Years: Low

Supporting Rationale:

- Harper residents in municipalities reported having much lower perceived home value than may be reality.
- Median sales prices have steadily increased from 2010 to 2016.
- Owner occupancy rates are still lower in 2015 than in 2010 due to more transitioning into rentals or vacancies.
- Vacancy rates steadily improve except for three municipalities that remain much higher than the statewide average.

Sources:

- US Census Bureau, American Community Survey.
- Illinois Realtor's Association

Population Trends

Trend #4: The Harper district population is becoming more diverse in race and ethnicity. The country is becoming more diverse.

Likelihood that the Trend Will Continue Over the Next 3 to 5 Years: High

Supporting Rationale:

- Minorities represent 33.8% of the Harper population in 2015 compared to 30.7% in 2010.
- The Asian population has grown by an additional 11,341 residents from 2010 to 2015 primarily concentrated in the Schaumburg and Hoffman Estates areas.
- The Hispanic population has also increased by 5,642 residents from 2010 to 2015 primarily concentrating on the district boundary.
- The White Non-Hispanic population decreased by 10,866 residents.

Sources:

• US Census Bureau, American Community Survey.

Trend #5: The Harper district is attracting those that speak languages other than English and/or are born in other countries.

Immigrants tend to move to urban centers, and Harper is poised to attract new immigrants and foreign-born residents due to its geographic location close to Chicago.

Likelihood that the Trend Will Continue Over the Next 3 to 5 Years: High

Supporting Rationale:

- Township HSD 211 is experiencing a drastic increase in other languages being spoken other than Spanish, from 2,000 to almost 21,000 residents. Slight increases in the other two districts.
- The population of residents over five years of age has increased, but the number of residents that speak only English have decreased.
- Those speaking Asian and Pacific Islander languages have increased from 29,000 to 38,000 since 2010 due to the influx of new Asian residents.
- Foreign born residents are primarily from Mexico (33.0%), India (14.6%) and Poland (9.5%).

Source:

US Census Bureau, American Community Survey.

Trend #6: Birth rates have been declining for many years.

Due to the economic recession in 2008 and couples waiting until they are older to have children, is being seen in decreased enrollment in the lower grades of the public schools.

Likelihood that the Trend Will Continue Over the Next 3 to 5 Years: Moderate

Supporting Rationale:

- Median age of the district population is increasing due to the lack of younger children to offset the Baby Boomer generation.
- The greatest number of youths range in age from 10 to 14 years old in 2015. The subsequent five-year cohorts have decreased in number.
- Enrollments in 1st grade are the lowest among all grades in schools located in Harper's district.

Sources:

- US Census Bureau, American Community Survey.
- Illinois State Board of Education.

Trend #7: Performance in the three sender districts to Harper remain high.

While the high schools have undergone changes in college readiness exam methodologies, the overall performance remains high compared to the statewide averages.

Likelihood that the Trend Will Continue Over the Next 3 to 5 Years: High

Supporting Rationale:

- The average four-year graduation rate for district public high schools was 93.5%, much higher than Illinois' 86.0%.
- Low income eligibility in the Harper district has increased in the last few years, but is still much lower than the statewide average.
- Only three high schools have a mobility rate greater than the statewide average as an indicator of community stability.
- The district high school dropout rates are much lower than the statewide average.
- The four-year graduation rates are higher than the statewide average for every district, some significantly.

Sources:

Illinois State Board of Education, Report Card Data, Accessed Online.

Workforce Trends

Trend #8: Despite signs of economic recovery and falling unemployment rates, many employers are reluctant to hire new employees or rehire laid-off workers.

While unemployment rates have fallen substantially over the past seven years since the last recession ended, labor force participation among key working aged populations continues to decline and the numbers of discouraged workers is growing.

Likelihood that the Trend Will Continue Over the Next 3 to 5 Years: High

Supporting Rationale:

• Even though unemployment rates continue to decline, much of this can be attributed to falling labor force participation. Although labor force participation has been declining

- nationwide since the mid-1990s, it has declined sharply since the past recession. The slow pace of the recovery has led many of the long-term unemployed to drop out of the labor force.
- The Economic Policy Institute estimates that as many as 2.3 million individuals of working age nationwide were unemployed and have given up on searching for a job, as of 2016.
- Important industry sectors in the Chicago metro area such as Construction, Manufacturing, Finance, Insurance and Real Estate were deeply impacted by the last recession and continue to suffer job losses since then. In addition, many losing jobs in those industries have skill-sets that are not readily transferable to growth industries like Healthcare, Education, and Business and Professional Services making it more challenging to get dislocated workers back into gainful employment.

Sources:

- Illinois Department of Employment Security.
- Economic Policy Institute.

Trend #9: Wage and Income growth continues to struggle, threatening economic growth.

While the Harper district encompasses one of the more affluent parts of the Chicago metropolitan area, wage and income have stagnated or fallen in many communities. This creates a drag on the overall economy, pushing many in lower skilled occupations into the social safety net when the higher costs of living are taken into consideration.

Likelihood that the Trend Will Continue Over the Next 3 to 5 Years: High

Supporting Rationale:

- Median household income declined in 16 of the 23 communities in the Harper district between 2010 and 2015. Eight communities experienced a greater decline than the State average of -5.2%.
- Median family income declined in 14 of the 23 communities in the Harper district between 2010 and 2015. Ten communities experienced a greater decline than the State average of -3.8%.

Source:

• American Community Survey, U.S. Census Bureau.

Postsecondary Trends

Trend #10: Return on Investment for a Harper education. Study shows a Harper education has a high return on the investment in comparison to those not pursuing higher education at all.

Likelihood that the Trend Will Continue Over the Next 3 to 5 Years: High

Supporting Rationale:

• Increased earnings over time after graduation show, on average, an accumulated total of almost \$500,000 difference between a Harper degree and not having any higher education degree.

 Despite the decrease in grants available for two-year programs, the value of a Harper education is strong.

Sources:

- Illinois Student Assistance Commission
- Northern Illinois University, Center for Governmental Studies

Meeting the Needs of Business and Industry

Trend #11. Post-Recession Job Growth has been slow and some key industry sectors continue to struggle. The Healthcare, Education and Business and Professional Services sectors have enjoyed substantial job growth over the past five years, boosting overall employment in the Chicago metro area. However, other important sectors such as Construction, Manufacturing, Finance, Insurance and Real Estate are continuing to suffer job losses.

Likelihood that the Trend Will Continue Over the Next 3 to 5 Years: High

Supporting Rationale:

- Although local factors can play a significant role in job gains and losses, it appears that
 changes in the global economy, technology and industry restructuring are having a
 greater influence.
- Because many of the jobs being created or lost between these industries require vastly different skill-sets, the demand for education and training for dislocated workers should be strong.

Sources:

- Illinois Department of Employment Security.
- EASI Analytics, Inc.

Trend #12. Most of the demand for workers over the next decade will stem from the need to fill existing positions rather than from new jobs.

As the population continues to age and employers face a wave of retirements the demand for workers to replace them will grow. Job openings from existing positions will outpace new job openings.

Likelihood that the Trend Will Continue Over the Next 3 to 5 Years: High

Supporting Rationale:

- With two-thirds of projected jobs requiring only a high school degree or less, Harper can play a role in helping students plan careers that begin with an entry-level job but grow into careers with expanded earnings potential.
- Manufacturing remains an industry sector of great strategic importance despite its loss of jobs over the last five years.

- Health care and social assistance, educational services, management of companies and enterprises, and accommodation and food services also offer significant employment opportunities.
- As Harper continues to partner with area employers and offer quality education and training programs for its students, a major challenge will be to help connect students with local employers and actual job opportunities.

• Illinois Department of Employment Security.

SWOT Analysis

In preparation for the development of the 2016-2019 Strategic Plan, Harper College invested significant time and energy in conducting an assessment of internal Strengths and Weaknesses as well as an external review of Opportunities and Threats – a SWOT Analysis. The SWOT Analysis provides an evaluation that can focus institutional attention and inform planning processes. The analysis began with the identification and critical review of key institutional data. These key data sources included:

- College Plan
- Accountability Report
- Fact Book
- Student Success Report
- Environmental Scan
- Community Survey
- Sightlines Facilities Benchmarking
- Community College Survey of Student Engagement (CCSSE) results
- National Community College Benchmark Project (NCCBP)
- Personal Assessment of the College Environment (PACE) results
- Graduate employment data
- Recent task force reports

As a result of the review of these documents the College's strengths, weaknesses, opportunities and threats began to surface. The analysis identified the current state of affairs, while highlighting areas in which Harper is strong as well as those that need our focused attention. Further research was conducted to gather additional data on external forces influencing Harper as opportunities or threats. Items that surfaced were evaluated using three criteria:

- Institutional Level The item is at the institutional level, not one relating solely to a particular division, department or program.
- Data Driven Once the institutional criterion was met, the item was reviewed to determine if its data are documentable and measurable.
- Peer Review If applicable, the data was reviewed to see how Harper compares to similar institutions.

An initial draft document was created and reviewed by the Strategic Planning and Accountability (SPA) Committee. The second draft was presented to the campus community as part of the fall 2014 Friday Dialogue Sessions during which faculty and staff had the opportunity to provide additional feedback.

The weaknesses identified in the SWOT Analysis are included on the next page, along with how they are being addressed. The full SWOT Analysis is included in the Appendix.

Institutional Effectiveness and Accountability for Continuous Improvement

Accountability at Harper College reflects a commitment to the continuous improvement of all aspects of our mission and values. To illustrate our commitment to accountability and transparency, this accountability section provides outcomes on three areas of accountability: Institutional Effectiveness Measures (IEMs); Strategic Plan; and Operational Plan. During FY2017, the College monitored targets for the IEMs and Strategic Goals. Progress against these targets, as well as outcomes on the Operational Plan targets, are conveyed in this section. Three examples of the use of the results from this assessment are offered at the conclusion of this section.

College Accountability Structure

The College's integrated accountability structure is represented by the chart below. This accountability structure represents three key components.

| | Component 1 Institutional Effectiveness Measures | Component 2 College Strategic Plan | Component 3 College Operational Plan |
|-------------|--|---|--|
| Cycle | Ongoing | 4 year | Annual |
| | | | |
| Contents | Set of measures and related indicators | Strategic Directions Goals | Goal Category Goal |
| | | | |
| Reporting | Annual | Annual | Annual |
| | | | |
| Description | Measures of effectiveness that are key to the College's mission; benchmarkable with other community colleges and provides targets for performance. | Sets the College's direction and delineates goals that will move the College's agenda forward. Requires College-wide commitment and typically cannot be accomplished by a single organizational unit. | Lists the institutional-level goals to be completed each year including performance targets. |

Results from FY2017 are summarized below.

Component 1: Institutional Effectiveness Measures

Institutional effectiveness is a process that involves the entire institution in the assessment of the College's performance on key indicators, called Institutional Effectiveness Measures (IEMs). These measures align with the mission and vision of Harper College as well as the needs and expectations of the College's internal and external stakeholders.

The Board of Trustees first approved and adopted IEMs for Harper College in FY2011. In FY2012 constituents from across the College joined in a campus conversation to recommend long-term IEM targets to be achieved in 2016. In order to select recommended targets for the IEMs, historical and comparison data were examined. Current institutional priorities and initiatives also guided the development of these targets. The recommended targets were approved by the Board of Trustees in May 2012. These targets fell into three categories:

- Expected If we continue on our current path, this target represents the expected outcome.
- Improvement A challenging, yet attainable target that can be achieved through increased effort
- Stretch The measure is prioritized and institutional focus is placed on dramatic improvement.

The IEMs detail the College's progress in academic as well as non-academic areas. There are five measures in each category and within each measure are specific indicators that are monitored. Those in the academic areas are referred to as Student Success Measures and the non-academic areas are clustered in the Institutional Effectiveness Measures.

Overall, 64.3% (9/14) of student success indicator targets were met in FY 2017. Among the student success indicators, 66.7% of expected targets were met (4/6), 100.0% of improvement targets were met (2/2) and 50.0% of stretch targets were met (3/6).

Overall, 38.5% (5/13) of institutional success indicator targets were met. Among the institutional success indicators, 37.5% of expected targets were met (3/8), 66.7% of improvement targets were met (2/3) and 0.0% of stretch targets were met (0/2).

The charts below summarize the measures and indicators, and also illustrate whether or not targets were achieved.

Student Success IEMs

The student success IEMs detail the academic achievement of Harper College students. The student success measures are developmental education success, success in gateway courses, advancement, student persistence and annual completions.

Below is a representation of the final status of the student success IEMs. Data on the indicators for each measure are provided in the following pages. Overall, 64.3% (9/14) of student success indicator targets were met. Among the student success indicators, 66.7% of expected targets were met (4/6), 100.0% of improvement targets were met (2/2) and 50.0% of stretch targets were met (3/6). Click the measure and indicator names for the final 2016 target results.

| Measure | Indicator | Target Not Achieved | Target Achieved |
|----------------------------|--------------------------------------|------------------------|--------------------|
| Developmental | Developmental Math Success | | |
| Education Success | Developmental Reading Success | | |
| | Developmental Writing Success | | |
| Success in Gateway | Gateway Math Success | | |
| Courses | Gateway English Success | | |
| | Success in 0 to 15 Courses | | |
| Advancement | Graduation Rate | | |
| | Transfer Rate | | |
| | Still Enrolled | | |
| | Advancement Rate | | |
| Student Persistence | Persistence Rate: Fall to Fall | | |
| | Persistence Rate: Fall to Spring | | |
| Annual Completions | Credentials Conferred | | |
| | Completers | | |

Institutional Success IEMs

The institutional success IEMs detail the College's progress in non-academic areas. The measures of institutional success are employee diversity, high school market penetration, facilities, instructional cost and information technology.

Below is a representation of final status of the institutional success IEMs. Data on the indicators for each measure are provided in the following pages. Overall, 38.5% (5/13) of institutional success indicator targets were met. Among the institutional success indicators, 37.5% of expected targets were met (3/8), 66.7% of improvement targets were met (2/3) and 0.0% of stretch targets were met (0/2). Click the measure and indicator names for the final 2016 target results.

| Measure | Indicator | Target Not Achieved | Target Achieved |
|-----------------------------------|--|------------------------|--------------------|
| Employee Diversity | Diverse New Hires | | |
| | Underrepresented Employee Separations | | |
| High School Market Penetration | Dual/Concurrent Credit Penetration Rate | | |
| | Post-High School Penetration Rate | | |
| | New in College Penetration Rate | | |
| Facilities | Major Capital Expenditures | | |
| | Major Preventative Maintenance Expenditures | | |
| | Energy Consumption | | |
| Instructional Cost | Cost Per Credit Hour | | |
| | Cost Per Full-Time Equivalent (FTE) Student | | |
| Information | Student Success Technologies | | |
| Technology | E-learning Technologies | | |
| | Classroom Technologies | | |

Component 2: College Strategic Plan Goal Team Progress to Targets

The College maintains a Strategic Plan dashboard to ensure the transparency and detail the progress being made toward achieving the goals of the Strategic Plan. Each Strategic Goal is represented along with the progress that has been made toward meeting each goal's defined targets. Progress on the goal targets is identified as:

- **In Progress Needs Attention**: Indicates that additional attention and effort is needed if the 2019 target is to be achieved.
- In Progress On Target: Indicates that this is an annual target that has been met for the current fiscal year OR that current activities are resulting in significant progress on this target and it is projected that the 2019 target will be achieved.
- **Target Achieved**: Indicates that the initiative(s) associated with this target has been institutionalized OR that this is a one-time target and has been achieved.

| Goal | Target | In Progress Needs Attention | In Progress On Target | Target Achieved |
|----------------------------|---|--------------------------------|--------------------------|--------------------|
| Academic | Areas of Interest | | | |
| Planning and | Undecided at Application | | | |
| Pathways | Undecided at Registration | | | |
| | Barriers to Professional Development | | | |
| Alignment | Process of Scaling Up | | | |
| of Employee Skills | Climate of Professional Development | | | |
| | Professional Development Dashboard | | | |
| | Online/Blended Courses | | | |
| Curriculum and Instruction | Student Course Retention | | | |
| Thisti detion | High-Impact Teaching Practices | | | |
| C4amandahin | Cost Impact Rubric | | | |
| Stewardship | Initiative Cost Analysis | | | |
| | Channels of Communication | | | |
| Student Experience | Culture of Care | | | |
| | Visual RoadMap | | | |

Component 3: College Operational Plan (SMARTER Goals)

The College's Operational Plan delineates the goals that address the College priorities as well as the activities that support the Strategic Plan. Each goal includes an identified Executive Council leader and administrative leader(s). Performance targets are identified for each goal, and performance is tied to the evaluation of the administrator.

The Operational Goal categories for the FY2017 plan include:

Accountability, Institutional Effectiveness, Transparency and Governance:

Foster a culture of data informed decision-making and accountability by creating a system of effectiveness measures, outcomes assessment, strategic planning, evaluation and shared governance.

Communications and Community Relations:

Build awareness of and community support for the College while enhancing its reputation through quality communications.

Diversity:

Create a campus climate that is supportive of cultural differences and respectful of all constituents.

Employee Relations:

Ensure employee recruitment, development and retention through appropriate processes.

Enrollment and Financial Aid:

Develop and implement a cohesive set of strategies inclusive of recruitment, enrollment and retention to support enrollment goals for credit and non-credit programs; and provide financial aid to all eligible students.

Facilities:

Ensure appropriate facilities to meet the instructional and non-instructional needs of the College community.

Financial:

Effectively develop, plan and manage our financial resources.

Safety:

Ensure the safety of the Harper Community.

Student Success:

Operationalize student success initiatives.

Technology:

Support and enhance technology to meet the instructional and administrative needs of the College community.

Workforce Development/Economic Development:

Ensure Harper College provides workforce and entrepreneurial training and education and supports the region's economic health.

Overall accomplishments in FY2017 as a result of the College Operational Plan include the following:

- Surpassed the 2020 goal of conferring 10,604 additional degrees and certificates, three years ahead of schedule (conferred 10,984).
- Achieved a graduation rate of 28.41%, an 8% increase since 2012 and the highest rate in Harper's recorded history.
- Reaffirmed Harper's Aaa Moody credit rating.
- Registered 5,587 district freshmen as the second cohort of Promise Scholars, with 2,574 sophomores continuing to meet Promise criteria.
- Recognized by the ICCTA with the Equity and Diversity Award for achieving diversity, equity and inclusion in the College's education programs.
- Awarded a Gates Foundation Frontier Set Grant designed to bring about dramatic improvements in completion and equity.

The following items were not completed in FY2017:

- Secure \$2,000,000 in Promise Scholarship support. Secured \$360,452 (will surpass Promise goal with Gala).
- Secure \$3,657,500 in overall fundraising support. Secured \$2.9 million.
- Propose financial incentives for students to achieve key progress points along their educational path. Conducted research related to financial incentives. Determined financial incentives would not be proposed based on results of research and state budget uncertainty.
- Begin construction on Canning Center pending release of state funds. Funds not released.
- Pilot a Start Smart section that includes four weeks of guided practice in the ALEKS remediation. Despite recruitment efforts, lack of enrollment resulted in cancellation of the section.

More information on the results of the FY2017 Operational Plan can be found in the <u>Institutional Accountability Report</u>.

Use of Results for Continuous Improvement

As a result of the College's institutional effectiveness assessment processes, budgetary and programmatic changes were made and are reflected in the FY2018 budget. Below is a summary of the modifications.

Reorganization

The College's organizational structure was reviewed to shift funding to support a new case management advisor/counselor model. As a result, the Academic Enrichment and Engagement (AEE) Division was consolidated into the Liberal Arts Division of the College. AEE was charged with developing and delivering curricula focused on literacy and developmental education in reading and writing. These functions complemented the work of the Liberal Arts Division. As a result, an administrative dean's position was eliminated and office staff was consolidated.

Impact on the College's finances: savings of \$915,929

Case Management Advisor/Counselor Model

In response to the changing demographics outlined in the Environmental Scan which revealed that there has been a significant increase in the number of first-generation college students attending Harper, a goal was established to develop a system where all students are assigned to a student advocate who will assist them in navigating their experience at Harper.

Students frequently do not know where to turn if they have questions. Sadly, they also do not know what to do when faced with challenges while attending Harper. Often, they just stop attending when the situation could have been addressed. That is why it is imperative that all students be assigned to an advocate who can help them navigate these situations. Currently, Harper has a complex method of onboarding and advising students with many staff members involved. This causes confusion as to who to turn to with questions or concerns. Thus, developing a system where students are assigned to one student advocate who can handle routine issues is a major goal that will be pursued over the next three years. At times, student issues are complex and may require specific expertise. It is then, that the student advocate will refer the student to a counselor who is equipped to handle these complex situations.

Cost of the Case Management Advisor/Counselor Model: 19 exiting positions were reassigned to serve as student advisors and 8 new positions were added at a cost of \$456,000.

Elimination/Consolidation/Modification of Academic Programs

The Operational Plan includes a goal to complete reviews of programs. As a result, the following academic programs were eliminated, consolidated or modified. All actions were taken through the College's shared governance system via the Curriculum Committee.

| Eliminated Programs (due to low enrollment/workforce mismatch) | Modified Programs (curricula refreshed/updated) | Consolidated Programs (separate programs combined) |
|--|---|--|
| Sign Language Interpreting | Computers in Business | Web Development |
| Data Base Management | Network Support Tech | |
| Secondary Mathematics Teaching | | |
| E-Commerce | | |
| Software Development | | |

Strategic Planning Process Background

William Rainey Harper College utilizes a broad, collaborative, community-based strategic planning process to ensure the College continues to meet the changing needs of our students and community. Harper College engages in frequent assessment of the students and the community we serve. Prior to development of the Strategic Plan, an Environmental Scan was completed. The results of this scan highlighted the demographic changes occurring in our district. In recent years, the district experienced a sizable decrease in household income and a notable increase in historically underrepresented populations. Additionally, these district changes were happening during a time of decreased state funding, local property tax caps and shrinking high school graduation class sizes. It became clear that the College needed to engage in an extensive evaluation to inform development of Strategic Plan that addressed a major change agenda. This would enable the College to produce higher levels of student achievement and increase student support, all while reprioritizing current resources.

The College utilized the following process to develop its community-based Strategic Plan with the guidance of the Strategic Planning and Accountability Committee (SPA), a shared governance committee. The process included:

- A broad-based assessment of the progress made and the challenges encountered in the previous Strategic Plan and a review of community and student data.
- Four dialogue sessions to invite broad-based campus discussion on the issues facing the Institution. The dialogue sessions included presentations from industry experts, as well as expert panelists of Harper faculty and staff. Employee feedback was a critical component of these sessions and included discussion, input groups and survey opportunities. The four sessions included Harper's Changing District; Strengths, Weaknesses, Opportunities, and Threats (SWOT); Approaches to the Adult Market; and Student Engagement.
- A strategic planning conference for internal and external stakeholders with a goal of producing strategic directions and goal themes for the new strategic plan. The conference brought together educators, community and business leaders, and other strategic thinkers to help us define broad directions for the College and ensure alignment with community partners. Resource materials were provided for all conference attendees to ensure an understanding of the issues facing Harper College and its students. These resources highlighted best practices in higher education and community colleges as well as documented the results from the four dialogue sessions. Three Strategic Directions and five goal themes were identified during the conference.
- The three Strategic Directions and five goal themes were developed into statements and supporting paragraphs by the SPA Committee and its ad hoc work groups, after additional discourse with internal and external stakeholders.
- In fall 2015, the new Strategic Plan was approved by the Board of Trustees and implemented by the College.

Strategic Planning Management Structure

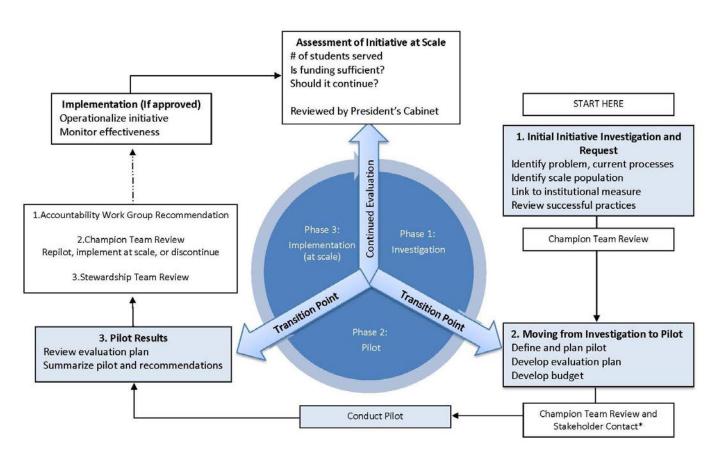

The FY2016-2019 Strategic Plan has several groups assigned to be responsible for advancing various planning elements. The roles and their functions are described below:

- Champion Team: Provides oversight for implementation of the Strategic Plan. The team is comprised of three administrative leaders and three faculty members. This team recommends actions to the College President, works to make certain that efforts across the plan are aligned, communicates planning information, sets outcomes, approves strategic planning initiatives and associated budgets, and reviews evaluation of initiatives to determine next steps.
- Goal Team Leaders: Provide oversight on all initiatives under a goal. Goal teams are co-led by an administrator and a faculty member. Their charge is to develop and meet specific outcomes utilizing proven policies and practices to ensure progress is being made against the strategic goals. Responsibilities include planning, evaluation and budgeting. Goal Leaders also coordinate efforts across initiatives. Some of these teams provide college-wide coordination of activities, while other teams produce the goal outcomes through strategic initiatives. In some cases, the goal team can be responsible for both. Each team's goal statement, supporting paragraph, targets, and plans for FY2018 are listed on the pages that follow.
- Strategic Initiatives Coordinating Council: Responsible for College-wide coordination of
 initiatives. This council is charged with ensuring wide-reaching collaboration across the College
 in pursuit of its institutional initiatives and includes leadership from the Strategic Plan, Title III
 grant, Higher Learning Commission accreditation steering committee, Frontier Set Grant, and the
 College's Enrollment Management Task Force. These leaders work together to ensure broad
 communication and alignment of initiatives.

Strategic Planning Student-Based Initiatives Model

Student success initiatives will be incorporated within this structure and follow a three-step process, represented in the following diagram:

Three-Phase Innovation Process 2016-2019

^{*}NOTE: Although the Champion Team will contact stakeholders as part of this review, the team may engage Shared Governance committees or other stakeholders at any point in the process, as appropriate.

Each initiative will have an evaluation plan to address the outcomes, criteria for success and results. The evaluation plan will be approved by both the Accountability Work Group and Champion Team prior to approval to pilot or process implementation. The evaluation plan will include the assessment measures and data that will be utilized to measure the initiative's effectiveness.

Strategic Directions

The Strategic Directions and Supporting Paragraphs resulting from the Strategic Planning Conference and subsequent planning sessions are as follows:

Inclusion

Foster an environment that values and respects each member of Harper's diverse community and actively encourages cross-cultural engagement.

Supporting Paragraph:

Harper is committed to a culturally responsive environment that makes all members of our community feel confident that the full extent of their humanity and contributions are recognized and honored. An environment that welcomes, values and respects all members of the college's diverse community—across the spectrums of ability, academic preparedness, age, ethnicity, faith, gender expression, identities, race, and more—fosters a culture where all feel safe to participate, in open and respectful discourse, without fear of discrimination or marginalization.

Engagement

Foster and support a culture of engagement throughout the College.

Supporting Paragraph:

Engagement refers to students' active participation in and out of the classroom and collective ownership of the learning process by students, faculty, staff, community partners, and residents. A "culture of engagement" expects and empowers everyone to take responsibility for building and maintaining positive connections throughout the Harper community. Harper College aims to achieve equity in engagement across all student groups according to their needs.

Achievement

Enhance and support the academic environment in ways that lead to increased student achievement and facilitate greater equity of student success across demographic groups.

Supporting Paragraph:

Achievement comes in many forms (academic and personal) and directly refers to supporting an academic environment that leads to greater equity. The ultimate objective of the direction is to provide the type of academic environment that leads to student success and improves academic achievement across diverse communities of students. Diverse communities are defined in the Inclusion Strategic Direction and include spectrums of ability, academic preparedness, age, ethnicity, faith, gender expression, identities, race, and more.

Strategic Goals

The Strategic Goals and Supporting Paragraphs resulting from the Strategic Planning Conference and subsequent planning sessions are as follows:

Achieving Educational Goals: Academic Planning and Pathways

Establish practices that empower and support students in exploring and identifying academic options for effective planning and progress toward achieving their educational goals.

Supporting Paragraph:

At Harper College, this refers to developing and providing our students with forms of communication, information and guidance to support them in effectively identifying and completing their educational goals. The intent of this goal is not to limit the educational options of our students, but to provide resources that contribute to students' progress toward their goals.

Alignment of Employee Skills with Strategic Directions

Expand and support professional development opportunities to enhance employee knowledge and skills with respect to the strategic directions and goals.

Supporting Paragraph:

The enrichment of skills extends to all employees and includes the ability to pursue appropriate forms of relevant professional development. This goal places emphasis on inclusion for all employees, while promoting the acquisition of the knowledge and skills needed to support the College's strategic plan. There should be consideration for allocating sufficient financial resources in order to afford a variety of learning opportunities to engage in relevant professional development, and it should be recognized that Harper College is indeed fortunate to include unique employees with unique needs.

Curriculum & Instruction

Evaluate curriculum and assess outcomes to provide optimal and diverse educational opportunities for Harper students.

Supporting Paragraph:

Faculty-directed curriculum development and evaluation provide Harper College with enriching courses and programs of study. Continual evaluation at course and program levels maintains curriculum currency and relevance. Curriculum will continue to be evaluated with deliberation, care, and collaboration to ensure that it meets intended outcomes and evolving student, community, transfer, workforce, and global needs. Various forms of discipline-specific assessment at Harper College encourage reflection, responsiveness, and adjustment, toward helping all students master the knowledge and skills needed to achieve their educational goals.

Stewardship

Dedicate resources, both human and financial, to optimize student success, while remaining responsive to external trends and issues that have documented effects on the College.

Supporting Paragraph:

Harper's core mission is to responsibly serve students and the Harper community. Stewardship focuses on the dedication and allocation of resources that ensure Harper optimizes strategies that lead to student success while responding to external factors including but not limited to economic, regulatory, social, competitive and technological, that have documented impact on the College. Resources are both human and financial and are dedicated by the College and external entities partnered or affiliated with the College.

Student Experience

Provide experiences that support the ongoing needs of our diverse student community through purposeful interactions and college-wide responsiveness to meet student goals.

Supporting Paragraph:

This goal encompasses the entire experience, from first contact to completion of goals, for all Harper College students. Regardless of their reasons for attending, all students will receive equitable and responsive support, both in and out of the classroom. All Harper College employees will provide experiences college-wide that engage all students as active partners in their success.

Goal: Achieving Educational Goals: Academic Planning and Pathways

Establish practices that empower and support students in exploring and identifying academic options for effective planning and progress toward achieving their educational goals.

| Target | In Progress Needs Attention | In Progress On Target | Target Achieved |
|--|-----------------------------|--------------------------|--------------------|
| Implement Areas of Interest by August 2017. | | | |
| Reduce the number of "undecided" students at time of application from 25% to 15% by fall 2018. | | | |
| Reduce the number of "undecided" students at time of registration from 8% to 5% by fall 2018. | | | |

In FY2018 the Academic Planning and Pathways team plans to:

- Implement additional web page changes including new imaging, workforce information, and transfer information for each Area of Interest.
- Develop Area of Interest teams.
- Develop and implement internal marketing campaign highlighting Areas of Interest.
- Collaborate with other campus teams regarding redesign of application, onboarding, student portal, catalog, and First Year Seminars to reflect Areas of Interest.
- Collaborate on the implementation of a new advising model, designed around Areas of Interest leading to every degree seeking student having a point person on campus.

| Goal: Alignment of Employee Skills wit Expand and support professional developm with respect to the strategic directions and | nent opportunities to e | | nowledge and skills |
|--|-----------------------------|--------------------------|---------------------|
| Target | In Progress Needs Attention | In Progress On Target | Target Achieved |
| Identify barriers to employee participation in professional development. | | | |
| Implement a process for scaling up employee skills in relation to other teams' initiatives by fall 2017. | | | |
| Increase the percent of employees who are satisfied with support, recognition and value of professional development at Harper College by 5% from fall 2016 to fall 2019 (as measured by Personal Assessment of the College Environment (PACE) survey items). | | | |
| Design an online dashboard to communicate professional development opportunities. | | | |

In FY2018 the Alignment of Employee Skills with Strategic Directions team plans to:

- Administer survey to identify Harper employees' barriers to participation in professional development.
- Implement process to assist other goal teams in providing professional development related to their strategic goals.
- Implement Professional Development Dashboard to consolidate all professional development training for easy reference by employees and supervisors.

Goal: Curriculum and Instruction

Evaluate curriculum and assess outcomes to provide optimal and diverse educational opportunities for Harper students.

| Target | In Progress Needs Attention | In Progress On Target | Target Achieved |
|--|-----------------------------|--------------------------|--------------------|
| Implement a process for quality assurance in online/blended courses. | | | |
| Provide a program to support faculty intervention in student course retention. | | | |
| Identify 2-3 high-impact teaching practices effective across disciplines. | | | |

In FY2018 the Curriculum and Instruction team plans to:

- Continue implementation of quality assurance in online courses, including support of online course review process and building expectations of best practices in use of Blackboard.
- Lead a course retention initiative with ten adjunct faculty members designed to educate and capitalize on best practices.
- Assess effects of high impact practices that were implemented in 0-15 courses.
- Develop professional development models for implementing discipline-specific high impact practices.

Goal: Stewardship Dedicate resources, both human and financial, to optimize student success, while remaining responsive to external trends and issues that have documented effects on the College. In Progress In Progress Target Target Needs Attention On Target Achieved Develop a rubric to analyze the cost impacts of Strategic Plan initiatives. Analyze the impact of Strategic Plan initiatives based on cost per successful credit hour. In FY2018 the Stewardship team plans to:

Evaluate the impact of Strategic Plan initiatives as they are forwarded to the Stewardship Team for

analysis.

Goal: Student Experience

Provide experiences that support the ongoing needs of our diverse student community through purposeful interactions and college-wide responsiveness to meet student goals.

| Target | In Progress Needs Attention | In Progress On Target | Target Achieved |
|---|-----------------------------|--------------------------|--------------------|
| Identify technology to streamline, prioritize and redesign communication channels and centralize student engagement touchpoints by June 2017. | | | |
| Identify a Culture of Care Model for the College by December 2017. | | | |
| Create a visual RoadMap for all degree- and certificate-seeking students noting key student touchpoints with the institution from Day 1 through the end of the first term by June 2018. | | | |

In FY2018 the Student Experience team plans to:

- Continue research and gap analysis related to potential implementation of a Customer Relationship Management (CRM) system.
- Identify, model and develop a Culture of Care Model project plan with specific budget costs.
- Investigate partnering with an outside consultant to assist in bringing the Culture of Care Model to scale.
- Support continued implementation of unified texting platform.

Harper College Operational Plan for FY2018 (SMARTER Goals)

The College's Operational Plan delineates the operational goals to be completed in FY2018. Each goal has an identified performance target, Executive Council lead, institutional lead, Priority/strategic plan/Title III/IEM/risk category, and fund in which its support activities are budgeted.

The Operational Goal categories for the FY2018 plan include:

Accountability, Institutional Effectiveness, Transparency and Governance:

Foster a culture of data informed decision-making and accountability by creating a system of effectiveness measures, outcomes assessment, strategic planning, evaluation and shared governance.

Communications, Community Relations and Foundation:

Build awareness of and community support for the College while enhancing its reputation through quality communications.

Diversity:

Create a campus climate that is supportive of cultural differences and respectful of all constituents.

Employee Relations:

Ensure employee recruitment, development and retention through appropriate processes.

Enrollment and Financial Assistance:

Develop and implement a cohesive set of strategies inclusive of recruitment, enrollment and retention to support enrollment goals for credit and non-credit programs; and provide financial aid to all eligible students.

Facilities:

Ensure appropriate facilities to meet the instructional and non-instructional needs of the College community.

Financial:

Effectively develop, plan and manage our financial resources.

Safety:

Ensure the safety of the Harper Community.

Student Success:

Operationalize student success initiatives.

Technology:

Support and enhance technology to meet the instructional and administrative needs of the College community.

Workforce Development/Economic Development:

Ensure Harper College provides workforce and entrepreneurial training and education and supports the region's economic health.

Accountability, Institutional Effectiveness, Transparency and Governance:
Foster a culture of data informed decision-making and accountability by creating a system of effectiveness measures, outcomes assessment, strategic planning, evaluation, and shared governance.

| Goal | Target | Executive Council Lead | Institutional Lead | Priority Strategic Plan Title III IEM/Risk | Budgeted In |
|--|---|------------------------------|---|--|----------------|
| Ensure requirements of Higher Learning Commission (HLC) accreditation are met. | Develop campus education and engagement plan by August 2017. Facilitate education and engagement activities by March 2018. Review updated Assurance Argument draft with campus community by November 2017. Collect and refine evidence for assurance argument by December 2017. Conduct mock site visit by December 2017. Prepare campus for site visit by February 2018. Submit Assurance Argument, Evidence File and Federal Compliance requirements by February 1, 2018. | Maria Coons | Darlene Schlenbecker Julie Ellefson- Kuehn | Strategic Plan: Engagement, Inclusion, Achievement, Academic Planning & Pathways, Stewardship, Alignment of Employee Skills, Curriculum & Instruction, Student Experience Risk: Graduation Rate/Outcomes Assessment/HLC | Education Fund |

Basis of Accounting and Budgeting, and Fund Descriptions

The accounting policies of William Rainey Harper College – Community District No. 512 (the College) conform to generally accepted accounting principles applicable to Government units and Illinois Community Colleges. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing accounting and financial reporting principles. Financial statements are prepared on an accrual basis of accounting, which means that revenues are recorded when earned and expenditures when a liability is created, regardless of the accounting period in which cash payment is actually made.

The College budgets on the same basis as its financial reporting with the exception of depreciation. All capital asset purchases are budgeted as expenses, instead of budgeting for annual depreciation on those assets.

The College records budgets and corresponding transactions in the following funds:

- The Education, Operations and Maintenance Audit and Liability, Protection and Settlement Funds are considered the general operating funds of the College. These are funds that are tax-capped, for which local property taxes can be levied but are subject to the Property Tax Extension Limitation Law. By law, taxes in the Audit Fund are restricted only for the payment of auditing expenditures, and the Liability, Protections and Settlement Fund is restricted only for the payment of tort liability, unemployment insurance, and workers' compensation insurance and claims.
- The Auxiliary Enterprises Fund is an enterprise fund, used to account for operations that are financed and operated in a manner similar to private business enterprise.
 Examples recorded under this fund would be the Harper Store, Dining and Conference Services, and Continuing Education.
- The Restricted Purposes Fund is a special revenue fund, used to account for the proceeds of specific revenue sources that are restricted to expenditures for specific purposes. The majority of this fund accounts for grants and financial aid.
- The Bond and Interest Fund is a debt service fund, restricted to account for the accumulation of resources for and the payment of principal, interest and related costs.
- The Operations and Maintenance (Restricted) Fund is a capital projects fund, used to account for financial resources to be used for the acquisition or construction of major capital facilities.
- The Working Cash Fund is a permanent fund, of which only the accumulated earned interest may be transferred to other funds to meet one-time needs.

BUDGET PREPARATION PROCESS

Board Financial Guidelines and Policies

Balanced Budget

The Board shall strive to maintain a balanced budget in the Tax-Capped Funds, which consist of the Education Fund, Operations and Maintenance Fund, Audit Fund, and Liability, Protection and Settlement Fund. The term *balanced budget* shall apply only to the Tax-Capped Funds in the aggregate.

The other funds often support projects where revenue is generated (i.e. bond sales) in one year and spent in succeeding years. Accumulated fund balances can be designated, when the need arises, for special one-time uses such as construction expenses, projects or special equipment purchases. This is considered good planning and the budget shall still be considered balanced.

Unbalanced shall mean that the revenue coming into the fund is insufficient to pay all of the *operational or ongoing* expense of that year.

Asset Inventory and Appraisal

The assets of the College are inventoried and/or appraised on a 5 year cycle. This includes the condition and value of the buildings and contents. The result of this work, in conjunction with the Campus Master Plan, provides the basis for approval by the Board and submission to the State for funding through the Resource Allocation Management Program (RAMP) process.

Revenue Diversification

The Board shall continue to maximize its three major sources of revenue: local government, tuition and fees, and state appropriations. The Boards most direct control is over tuition and fee revenue. The College shall continue to develop other revenue streams from bookstore, food service, continuing education, grants and other creative sources within the mission of the College to support the basic mission of the College.

Tuition and Fees

Tuition and Per Credit Hour Fees

Tuition is set by the Board. In December, 2015 the Board policy was amended to limit the annual tuition and per credit hour fee increases to 5% of total tuition and fees or the Illinois statute limitation using the Higher Education Cost Adjustment (HECA) rate change as a guideline, as appropriate, to promote a balanced budget for Harper College and financial consistency for Harper students.

Board policy 07.01.04 Revised 12/16/15

Fees

The College charges other fees to support a variety of services and activities including student activities, registration fees, application fees, and distance learning fees. Course fees may be assessed as needed to offset the cost of specialized course materials or experiences that are consumed during the semester.

Use of One Time Revenue

The Board shall not use one time revenues for ongoing expenditures, but rather target these funds for one time expenditures.

Use of Unpredictable Revenue

The College shall use the Auxiliary Fund to record revenue and expense from activities that are expected to break even or better and/or have unpredictable sources of revenue.

Expenses should be of a flexible nature and designed to rise and fall with the revenues. Programs or services that no longer break even must be restructured or discontinued.

Debt

The College will not exceed the debt limits set by state statute (2.875% of EAV) nor exceed bonding authority within the limits of the tax cap. See the other funds section of this document for more detail on debt and its limits in Illinois.

Fund Balance Definition and Target

Fund balance will be defined as the dollars left in a fund at the end of a fiscal year. The College will support quality teaching and learning through sound financial practices consistent with maintaining a Aaa bond rating. This includes maintaining a fund balance in the Tax-Capped Funds between 40% and 60% of the budgeted annual expenditures.

Board policy 07.01.04 Revised 6/20/12

Accountability

The Board of Trustees shall receive a monthly report of the actual expenditures compared to the budget for each Tax-Capped Fund. The Board of Trustees shall also receive a monthly report of investments. The Board of Trustees shall maintain state required levels of Treasurer's Bonds.

Board policy 07.01.05

Budget Planning Calendar & Process

One of the first steps in the development of the budget is for the Budget Office, under the direction of the Executive Vice President of Finance and Administrative Services, to develop a planning calendar. The Executive Vice President is responsible for directing the budget process through the adoption of the legal budget. Target dates are established for the completion of major tasks that will result in the adoption of the legal budget document. Each member of the Executive Council is asked for their input in setting these target dates and commitment from their respective areas to meet these deadlines.

In November, before the calendar has even been finalized, a preliminary five-year financial plan, with updated revenue and expenditure assumptions, is evaluated at executive meetings. In addition, priorities are set for spending in the areas of capital, technology, and personnel.

In February, decisions regarding the major revenue sources of property taxes and tuition and fees are made. Enrollment projections using the model from the Office of Institutional Research are discussed. The budget intranet portal page is updated with the calendar, instructions, and any related forms for requesting funds in the areas of facilities, furniture, computer needs, personnel, and other needs of a permanent or temporary nature.

The process of building the salary and benefits budget for permanent full and part-time positions begins in late February. An extract of current personnel is used as a starting point and placeholders are entered for any vacant positions. By the end of March estimated changes for salary and benefits are entered, pending board approval. A target expenditure budget is then established for each area, and is closely monitored by the Budget Office throughout the budget development process. Within each area, decisions are made as to how to allocate the available resources in their respective target budget. Any deviations from the target budget must be explained and approved.

Because the individual departments are allowed access to the budget module at certain levels, it is necessary to provide instructions as to which areas are pre-determined (such as full-time and permanent part-time salaries and benefits) and which they have the flexibility to change. Budget information sessions are held in January to review the budget instructions and the forms available for new requests, and to discuss changes for the new budget year. Starting in April, the Budget Office conducts new-user and refresher training sessions on inputting the budget into the accounting system.

The budget module is opened the first week of April for input by the departments for a period of approximately four weeks. After this time it is closed for further input except by the Budget Office. By the first week of May, any additional approved changes are completed and the Budget Office prepares the preliminary legal budget to go to the Board.

Following is a summary of the key budget process activities by month.

| November | Budget process begins with the development of the Five-Year Financial Plan Course fee changes are reviewed Facility remodeling and furniture requests are submitted |
|-----------|---|
| December | Five-Year Financial Plan presented to Board Final course fee requests submitted to Provost Facility remodeling and furniture requests closed for submission |
| January | Final CPI-U rate for calculating tuition increase and estimated property taxes is published |
| February | Tuition and fee rates approved by Board |
| March | Budget requests due to Executive Council members |
| April | Oracle Budget opened for department input Executive Council reviews all budget requests, facility and furniture requests |
| May | Oracle Budget closed for input and all approved requests entered All funds summary of preliminary budgeted created |
| June | Preliminary budget adopted at June Board meeting |
| July | College Plan documentation finalized |
| August | Budget adopted at August Board meeting |
| September | Budget is submitted to Illinois Community College Board (ICCB), counties and Government Finance Officers Association (GFOA) |

Adopting the Budget

The preliminary legal budget is approved at the June Board meeting, after which it is posted for public view. In August or September, a public hearing takes place where the Board adopts the legal budget, which is then submitted to the Illinois Community College Board (ICCB).

Budget Amendment

An amendment to the budget is required when transfers between programs or object groups within a fund exceed 10% of the fund's total budget. For example, if the Education Fund's budgeted expenditures are \$92 million, the limit for transfers is \$9.2 million for that fund. Transfers between funds after the budget is approved are also subject to this 10% limit.

A two-thirds vote of all the members of the Board is required to amend the budget. A process similar to adopting the original budget must be followed to pass an amendment to the annual budget. It begins with the Board adopting an additional or supplemental preliminary budget. This supplemental budget is then posted for public view for at least thirty days. After a two-thirds vote by the Board, the amendment is passed. The last step is to submit the amended budget to ICCB and the counties.

Fiscal Year 2018 Budget Summary

Each year the budget is guided by the Five-Year Financial Plan, which was presented to the Board of Trustees for fiscal years 2018-2022 in December 2016. Preliminary estimates are used in the financial plan for revenue and expenditure lines, based on various assumptions over that five year period. To develop the current year's budget, the College uses historical trend analysis, known external factors, conservative estimates, and assumptions based on current economic conditions.

FY 2018 was the third consecutive year the College underwent budget cuts to maintain a balanced budget. Over the last three years \$8.6 million has been removed from the expenditure budget, the latest cuts occurring in FY 2018 with close to \$1.9 million cut between salary lines tied to enrollment and supplies and materials.

Enrollment declines and the uncertainty around State of Illinois funding have continued to challenge the College's finances. The College has taken action to reduce its reliance on State funding by budgeting in FY 2018 only 50% of the last full year allocation. Plans are to continue reducing the operating budgets' reliance on the State in the coming years until it is zero. The lack of stability in State funding has placed pressure on the other revenue sources of property taxes and tuition and fees, however caps on property taxes limit the ability to raise additional funds from that source, and Board Policy and state statute limit tuition and per credit hour fee rate increases. This has led to the further reduction in expenditures, and the College continues to look for ways to contain costs to maintain a balanced budget.

The following comments refer to the combined Tax-Capped Funds budgets, which are the main operating funds for the College.

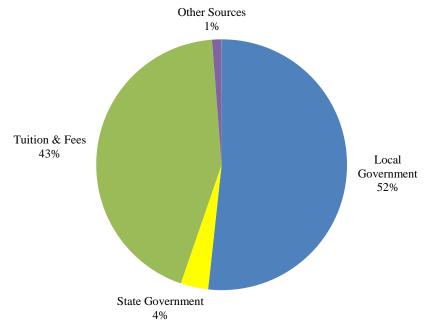

Revenues

The Tax-Capped Funds have three major sources of revenue: local government, tuition and fees, and state government. Budgeted revenues for FY 2018 are \$112,665,068 compared to a budget of \$112,333,758 for FY 2017. This represents an increase of \$331,310, or 0.3%. Budgeted increases for local government and tuition and fees were offset by decreases in state government.

Expenditures

Building the expenditure side of a budget is a coordinated process across all College departments. The Tax-Capped Funds have budgeted expenditures of \$110,024,091, and \$2,470,977 of planned operating transfers, for a slightly better than balanced budget in FY 2018. Compared to the expenditure budget of \$109,821,865 for FY 2017, this represents an increase of \$202,226, or 0.2%. Reductions in the personnel and supply expenditure budget categories were made to provide for an excess of revenue over expenditures of \$170,000 in the Tax-Capped Funds.

Tax-Capped Funds FY 2018 Budgeted Revenues

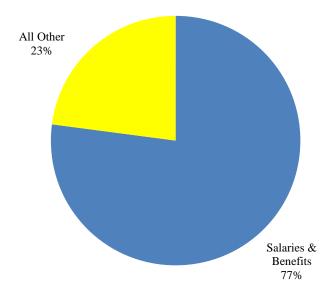

Local government represents 52% of the total budgeted revenues for the Tax-Capped Funds. The majority of this is property tax revenue, which is capped at 5% of the prior year tax extension, or the Consumer Price Index-Urban (CPI-U), whichever is less, plus any new property coming onto the tax rolls. Overall local revenues will increase from \$57,167,546 in FY 2017 to \$58,264,216 in FY 2018, or 1.9%.

Tuition and fees make up 43% of total budgeted revenues. In February 2017, an in-district tuition increase of \$5.75 per credit hour was approved effective Summer 2017, from \$119.25 to \$125.00. Enrollment is budgeted to decrease 1.8% in FY 2018. Budgeted tuition and fees for the Tax-Capped Funds will increase from \$48,189,772 in FY 2017 to \$48,996,762 in FY 2018, or 1.7%.

State funding represents only 4% of total revenues. Due to the uncertainty of State funding, the College is reducing its reliance on State funding to provide a balanced or better budget, with only 50% of the last full year allocation budgeted in FY 2018, driving a 30.0% decrease from the \$5,735,000 budgeted in FY 2017 to \$4,015,000 in FY 2018.

Other sources make up 1.0% of total revenues. This category includes investment revenue which, with yields increasing slightly, accounts for the increase from \$1,241,440 budgeted in FY 2017 to \$1,389,090 in FY 2018, or 11.9%.

Tax-Capped Funds FY 2018 Budgeted Expenditures

Salaries and benefits represent 77% of the College's expenditures. Approximately 65% of the College's salary and benefit expenditures are covered by collective bargaining agreements. The College has estimated the calendar year 2018 medical insurance rates to increase 8%. Combined salaries and benefits have decreased from \$85,028,074 in FY 2017 to \$84,808,691 in FY 2018, or about 0.3%, due to personnel cost reductions related to continuing enrollment declines.

All other expenditures, which include contractual services, materials and supplies, travel and meeting, fixed charges, utilities, capital outlay, contingency, and other combined for an increase from the prior year of \$421,609, or 1.7%. These expenditures represent 23% of the budget.

Note:

All decreases in fund balance were planned and the money was reserved in prior years. The following footnotes indicate the use of the money in the current year.

Operations and Maintenance: Planned use of fund balance

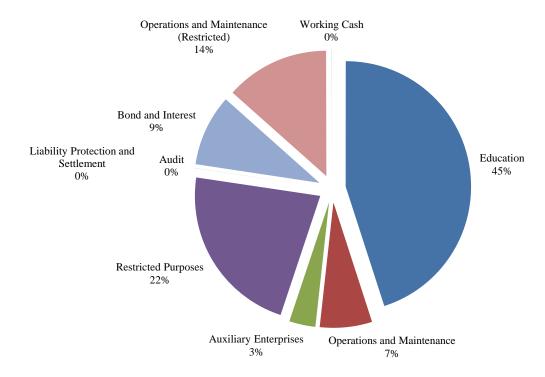

Auxiliary Enterprises: Planned use of fund balance

Restricted Purposes: Planned use of fund balance for strategic initiatives, academic capital equipment, technology and ERP projects, and projects budgeted in prior year

but not expended

Operations and Maintenance (Restricted): Planned use for capital projects

Tax-Capped Funds Descriptions

Funds for which local property taxes can be levied, subject to the Illinois Property Tax Extension Limitation Law

Education Fund (0001)

The Education Fund is established by Section 103-1 of the Illinois Public Community College Act. The statutory maximum tax rate for the Education Fund is 75 cents per \$100 of equalized assessed valuation for community college districts in cities with less than 500,000 inhabitants.

The Education Fund is used to account for the revenues and expenditures of the academic and service programs of the College. It includes the cost of instructional, administrative and professional salaries; supplies and equipment; library books and materials; maintenance of instructional and administrative equipment; and other costs pertaining to the educational program of the College. (See Sections 103-20.3 and 107-18 of the Illinois Public Community College Act.)

The local Board of Trustees may make a determination within the budget for the distribution of unrestricted revenues other than local property taxes among the operating funds, i.e., the Education Fund, the Operations and Maintenance Fund, and the Public building Commission Operation and Maintenance Fund.

Operations and Maintenance Fund (0002)

The Operations and Maintenance Fund is established by Section 103-1 and Section 103-20.3 of the Illinois Public Community College Act. The statutory maximum tax rate is set at 10 cents per \$100 equalized assessed valuation for community college districts in cities with less than 500,000 inhabitants.

This fund is used to account for expenditures for the improvement, maintenance, repair, or benefit of buildings and property, including the cost of interior decorating and the installation, improvement, or repair, replacement, and maintenance of building fixtures; rental of buildings and property for community college purposes; payment of all premiums for insurance upon buildings and building fixtures; salaries of janitors, engineers, or other custodial employees; all costs of fuel, lights, gas, water, telephone service, custodial supplies, and equipment; and professional surveys of the condition of College buildings. (See Section 103-20.3 of the Illinois Public Community College Act.) The local Board of Trustees of any district may make a determination within the budget for the distribution of unrestricted revenues other than local property taxes among the operating funds, i.e., the Education Fund or the Operations and Maintenance Fund.

Audit Fund (0011)

The Audit Fund is established by Chapter 85, Section 709 of the Illinois revised Statutes for recording the payment or auditing expenses. The audit tax levy should be used only for the payment of auditing expenses.

Liability, Protection and Settlement Fund (0012)

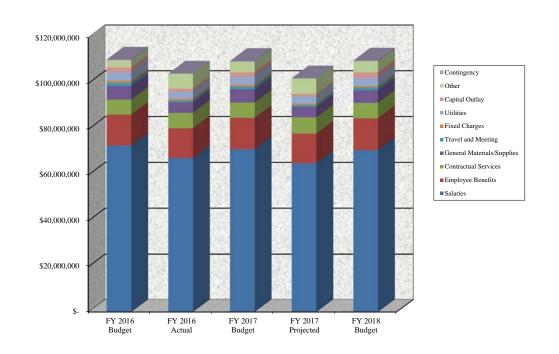

This fund is established by Chapter 85, Section 9-107 of Illinois Revised Statutes. The tort liability, unemployment insurance and worker's compensation levy should be recorded in this fund. The monies in this fund, including interest earned on the assets of this fund, should be used only for the purposes authorized under Section 9-107, i.e., the payment of tort liability, unemployment or workers' compensation insurance or claims.

^{*} Benefits consist of workers compensation and unemployment insurance

Other Funds

Auxiliary Enterprises Fund (0005)

The Auxiliary Enterprises Fund is established by Section 103-31.1 of the Illinois Public Community College Act and accounts for College services where a fee is charged to students or staff. Each enterprise/service should be accounted for separately using a group of self-balancing accounts within the fund. Examples of accounts in this fund include food services, student stores, and Corporate Services.

Only monies over which the institution has complete control should be included in this fund. Subsidies for auxiliary services by the Education Fund should be shown as transfers to the appropriate account.

Restricted Purposes Fund (0006)

The Restricted Purposes Fund, established by ICCB Rules 1501.508 and 1501.509, is for the purpose of accounting for monies that have restrictions regarding their use. Each specific project should be accounted for separately using a complete group of self-balancing accounts within the Restricted Purposes Fund. Care should be taken in establishing each group of self-balancing accounts so that the accounting and reporting requirements of the grantor are met. If the grantor provides an accounting manual, it should be followed for the group of self-balancing accounts.

Working Cash Fund (0007)

The Working Cash Fund is established by Chapter 110, Act 805, Section 3-33.1 of the Illinois Compiled Statutes. This fund is first established without voter approval by resolution of the local Board of Trustees for the purpose of enabling the district to have on hand at all times sufficient cash to meet the demands for ordinary and necessary expenditures. Additional bonds may not be issued without voter approval.

This fund is used to account for the proceeds of working cash bonds. By making temporary transfers, the fund is used as a source of working capital by other funds. Such temporary transfers assist operating funds in meeting the demands for ordinary and necessary expenditures during periods of temporary low cash balances.

Payments for the principal or interest of Working Cash Bonds should be made from within the Bond and Interest Fund.

Bond and Interest Fund (0004)

The Bond and Interest Fund is established by Section 103A-1 of the Illinois Public Community College Act. This fund is used to account for payment of principal, interest, and related charges on any outstanding bonds. Debt service for each bond must be accounted for separately using a group of self-balancing accounts within the fund.

Operations and Maintenance Fund (Restricted) (0003)

Sections 103-14 of the Illinois Public Community College Act allows the local board of trustees to establish this fund by permitting an accumulation of funds for building purposes and the site acquisition not to exceed an amount equal to five percent of the district's equalized assessed valuation. Monies in this fund cannot be permanently transferred or loaned to any other fund or used for any other purpose.

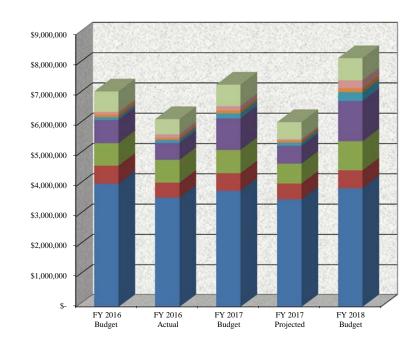

It is suggested that Protection, Health, and Safety levies, Building Bond Proceeds, Repair and Renovation Grants, and accumulation monies restricted from the Operations and Maintenance levy for building purposes be accounted for in a series of self-balancing accounts in this fund.

Debt Obligations

In the tax-capped portions of Illinois, the only bonded debt that can be incurred without voter approval are alternative revenue bonds and the bonding authority available within the debt service extension base. The tax cap laws limit debt to 1994 levels (when tax caps were applied), unless a referendum is approved by the voters. Starting in 2009, the law was amended to allow a CPI factor to be applied to the debt service extension base. For tax levy year 2016 the College's debt service extension base is \$2,387,354, based on the December 2015 CPI of 0.7%. The College has a long term financial plan which includes utilizing these funds for necessary expenditures. Limited bonds of \$4.7 million were sold in FY 2017 under the debt service extension base to help fund capital projects identified in the campus master plan.

Two successful referendums, an \$88.8 million referendum in November of 2000 and \$153.6 million in November, 2008 account for 96% of the outstanding debt. In 2015 the 2005A and 2006 series bonds were refunded through December 2020, resulting in interest savings of \$1.7 million. These referendums have provided a funding stream for building, and the repair and replacement of physical plant assets that will continue for the next several years.

The College's debt is modest compared to limits set by the state statute. The debt limit set by law is \$543.8 million based on 2.875% of the 2016 equalized assessed valuation of \$18.9 billion. The College's outstanding principal is \$153.3 million, well below the statutory limitation. A schedule of debt maturities follows on the next page.

Principal and interest payments on debt are paid from the Bond and Interest Fund. A financial summary of that fund follows the debt maturities schedule.

The College continues to have an outstanding financial reputation as evidenced by its Aaa bond rating issued by Moody's, which is the highest rating it awards. At the time the rating was originally issued in 2001, the College was one of only three community colleges in the United States, and the only one in Illinois, to be granted the Aaa rating. This rating has been maintained and was most recently reaffirmed by Moody's in the spring of 2017, although with a negative outlook due to the State's fiscal challenges. Moody's has issued credit ratings for approximately 140 community colleges nationwide.

The College's credit rating should result in lower interest rates on the College's future bond issuances. The Aaa credit rating is especially important to the taxpayers of the district at this time of financial uncertainty. Districts that have lower ratings will not only pay more interest, but it inhibits their ability to attract buyers for their bonds, because the insurance used to provide coverage for poorer ratings is either no longer available or is considered suspect by bond buyers.

Moody's is a credit-rating service that renders opinions on the ability of a bond-issuer to repay its debt obligations. The criterion that go into analyzing a community college's debt focus on the college's role in providing educational services to its market, the level of financial stability provided by its reserves, its relative debt burden, and its ability to generate consistent operating results.

Master Planning and Capital Projects

In the fall of 2008, Harper College's district passed a \$153.6 million capital bond referendum. The 2010 Campus Master Plan provided the vision to utilize these funds to update the College's physical plant through 2020. Every five years the Master Plan is updated, with the latest being finalized in February 2017 looking forward to 2020 and beyond. The updated Master Plan identified several common themes: continuing to work towards creating a welcoming campus, supporting growth of academic programs, flexibility for changing programs, and creating 21st century learning environments built around cost-effectiveness and sustainability. Current Master Plan projects provided for in the capital budget are renovations and additions for the Canning Center, Building F, and Building M. These projects, along with planned infrastructure projects, are projected to exhaust the remaining referendum funds over the next few years.

Other sources of funding for capital projects include non-referendum limited obligation bonds issued every two years yielding around \$5 million, operating surpluses, and an annual small project operating budget of \$250,000 used for projects under \$25,000.

The capital projects budget is provided for in the Operations and Maintenance (Restricted) Fund. The budget for FY 2018 includes planned infrastructure projects of \$11.3 million.

| | Project Estimated Cost | FY18 Budget Request |

| Program Support | 140,919,513 | 77,210,984 |
| Safety and Statutory | 4,405,708 | 3,664,146 |
| System Reliability | 17,590,950 | 8,242,258 |
| Contingency | | 1,000,000 |
| Total Capital Projects | \$ 164,439,725 | \$ 91,165,921 |

As the table above shows, \$77 million is estimated for projects that support academic programs. Two of those projects, which are described below, are part of the State's Resource Allocation Management Program (RAMP). These projects were included in the recently passed State budget, and are expected to resume in FY 2018.

- Construction of the new Canning Center Prior to the State hold, the construction documents were completed and the project had been ready for bidding. The FY 2018 budgeted project cost is \$19.3 million. The total estimated project cost is \$61.7 million, which includes a state contribution of \$40.7 million.
- Funds to address the Hospitality program facilities. The FY 2018 budgeted project cost is \$1.8 million. The total estimated project cost is \$5.3 million, which includes a state contribution of \$3.9 million.

The College has set aside the required matching funds for these projects. These projects will position the College to better serve our students with excellent facilities and accommodate new programs.

Other state funding for capital renewal totaling \$1.3 million is budgeted for reconstruction of parking lots at the Harper Professional Center in Schaumburg, and the Harper Learning and Career Center in Prospect Heights. This project is on hold until further notice from the State.

Other major multi-year projects included in this budget are \$35.2 million for Building M and \$17.8 million for Building F.

Many of the projects scheduled to be completed in FY 2018 are remodeling projects that do not impact the operating budget.

Maintenance projects, such as maintenance of HVAC systems, parking lot and concrete repairs, and utility tunnel repairs do not have an immediate savings, but prevent more costly replacements due to shortened useful life.

Replacement projects for windows, doors, and roofs and installation of lighting controls and building automation systems serve to reduce energy costs.

This budget includes a project for utility sub-metering to enable the College to better measure and control its utility usage and support green initiatives on campus.

Other projects that will impact operating costs are those that will add square footage to the campus. The College currently has two projects underway that will impact future expenditures.

Increased operating costs for the Building M project are expected to be partially offset by increased per credit hour fees starting in spring 2018.

The State-run Canning Center project is expected to add additional costs from the 66,400 square foot addition for utilities, contractual services, and materials. The earliest operating budget impact would be FY 2020.

The current five-year financial plan has provided for incremental increases in the Operations and Maintenance Fund to provide for the additional costs. The impact on the operating budget will be monitored and adjusted on an annual basis.

A financial summary of the Operations and Maintenance (Restricted) Fund and detailed list of all budgeted capital projects follows.

Operations and Maintenance (Restricted) Fund Revenues and Expenditures

| | FY 2016 Budget | FY 2016 Actual | FY 2017 Budget | FY 2017 Projected | FY 2018 Budget | FY 2018 Percent to Total | Budget % Change FY 2017 to FY 2018 |

Financial Forecasting and Long Range Financial Planning

The College devotes considerable time and resources to long range strategic and operational planning as described in the planning section of this document. The College is equally committed to long range financial planning. Each fall the Five-Year Financial Plan is updated, forecasting financial trends into the future.

The Five-Year Financial Plan contains the following:

- Executive Summary and Financial Policies and Guidelines
- Historical Information
- Five-Year Projections by Fund and Fund Groupings
- Financial Plan Alternatives

The purpose of the Five-Year Financial Plan is to create a framework which allows the College and the Board of Trustees to examine the long range financial implications of the many major financial decisions that are made. The Five-Year Financial Plan is not intended to be a detailed line item budget for five years, but rather, it is intended to provide a "broad brush" overview of the financial position and the resulting impact of the financial decisions that must be made. The Five-Year Financial Plan is also intended to look prospectively at expenditures, the means of financing those expenditures, and the financial position over a longer period of time than the traditional one-year budget. Excerpts from the December 2016 financial plan follow.

Financial Guidelines

- Continue the current practice of maintaining a balanced budget across the tax-capped funds, which include the Education, Operations and Maintenance, Audit, and Liability, Protection, and Settlement Funds.
- Limit annual tuition and per credit hour fee increases to 5% of total tuition and fees or the Illinois statute limitation using the Higher Education Cost Adjustment (HECA) rate change as a guideline, as appropriate, to promote a balanced budget for Harper College and financial consistency for Harper students.
- Maintain current practice of increasing and/or adding fees to make up for shortfalls in other revenue sources including state funding and property tax reductions due to successful Property Tax Appeal Board appeals.
- Continue the board policy of maintaining a fund balance in the combined Tax Capped Funds (Education, Operations and Maintenance, Audit, and Liability, Protection, and Settlement Funds) between 40% and 60% of the budgeted annual expenditures.
- Support quality teaching and learning through sound financial practices consistent with maintaining a Aaa bond rating.

Assumptions:

- High school class sizes will decrease slightly over the next couple of years and then level off.
- The 21+ enrollment of students taking less than 6 hours will continue to decrease at a steady rate.
- The 21+ enrollment of students taking 6 11 hours will bottom out at 2008 levels.
- The 21+ enrollment of students taking 12 or more hours will bottom out at 1997-2001 levels.

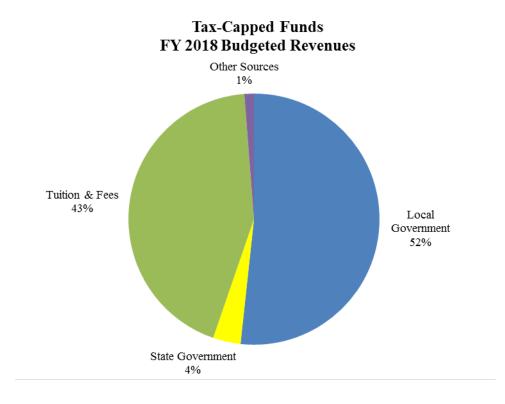

Overview of Revenues and Expenditures – Budget Assumptions and Historical Trends

The Five-Year Financial Plan lays the groundwork for the many financial decisions to be made, as the initial step in building the next year's budget. Preliminary estimates are used in the financial plan for revenue and expenditure lines, and assumptions could change for the next budget year, as more information becomes available in areas such as property taxes, enrollment, and state funding.

The following narrative refers to the combined Tax Capped Funds, which include the Education, Operations and Maintenance, Audit, and Liability, Protection and Settlement Funds, and are considered the main operating funds of the College. These are the funds for which local property taxes can be levied, and that are subject to the Property Tax Extension Limitation Law. The discussion includes historical information, as well as assumptions for Fiscal Year 2018's budget.

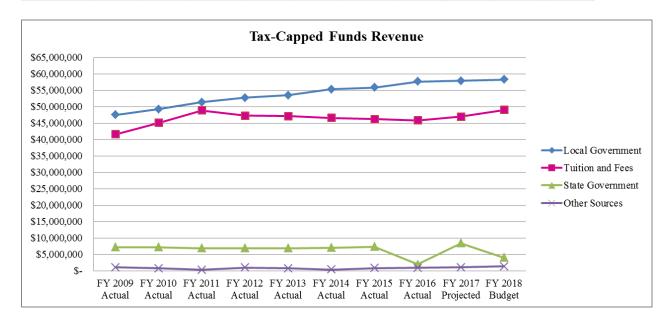

Revenue

The Tax Capped Funds have three major sources of revenue: local government, tuition and fees, and state government. Budgeted revenues for FY 2018 are \$112,333,758 compared to a budget of \$112,665,068 for FY 2017. This represents a decrease of \$331,310, or 0.3%, due to the uncertainty of State funding.

The following table and graph show revenues for the previous nine years, as well as the budgeted revenues for FY 2018. The graph below shows the dependence on local government revenues in the last several years as the other sources of revenue decline or remain relatively flat.

| State Government | 7,215,056 | 7,187,128 | 6,887,420 | 6,904,640 | 6,938,432 | 7,035,549 | 7,359,309 | 1,992,338 | 8,418,809 | 4,015,000 | | | | | |
| Other Sources | 1,074,272 | 745,048 | 299,456 | 1,037,698 | 749,459 | 365,421 | 818,947 | 957,857 | 1,051,078 | 1,389,090 | | | | | |
| Total Revenues | \$97,371,540 | \$ 102,253,701 | \$ 107,464,774 | \$ 107,984,357 | \$ 108,279,248 | \$ 109,295,655 | \$110,195,339 | \$ 106,428,545 | \$114,322,721 | \$112,665,068 | | | | | |

Local Government

Local government represents 52% of the total budgeted revenues for the Tax Capped Funds. The majority of this is property tax revenue. Overall budgeted local revenues will increase from \$57,167,546 in FY 2017 to \$58,264,216 in FY 2018, or 1.9%.

Property Taxes

The Consumer Price Index for All Urban Consumers (CPI-U), which is the primary driver of property tax revenue increases, is released in mid-January, for the previous calendar year. The CPI-U for 2016 was 2.1%, which will affect the 2017 tax levy and approximately half of the tax revenues budgeted for FY 2018.

Public Act 89-1 made Cook County taxing districts subject to the Property Tax Extension Limitation Law (PTELL), beginning with the 1994 levy year (taxes payable in calendar year 1995). That legislation limits the increase in tax extensions to the lesser of 5% or the change in the consumer price index for all urban consumers (CPI-U). The table below shows the percentage increase limit for each tax year, which is set at the CPI-U level. In addition, the law provides for increases in tax extensions due to new property growth. Excluded are existing resolutions on file for debt retirement, and any subsequent bond sales or tax rate referenda that require taxpayer approval.

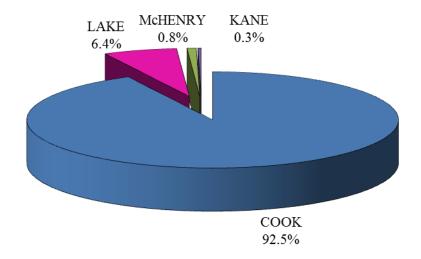

| Tax Year | 2009 | 2010 | 2011 | 2012 | 2013 | 2014 | 2015 | 2016 | 2017 |
|----------|------|------|------|------|------|------|------|------|------|
| CPI | 0.1% | 2.7% | 1.5% | 3.0% | 1.7% | 1.5% | 0.8% | 0.7% | 2.1% |

The 2016 CPI-U increase of 2.1% will provide a modest increase in property tax revenue, however there remains downward pressure on this major revenue source due to property tax refunds from successful assessment appeals. Refunds paid in FY 2017, which are deducted from current year tax distributions, totaled \$2.7 million.

Real estate property values, as determined by the County Assessors' offices, are the basis upon which local taxing bodies obtain their annual tax revenues. Under state law, the College may levy an annual tax upon the taxable real estate within its jurisdiction. The amount of the levy is divided by the equalized assessed value (EAV) of the real estate to determine the tax rate. The rate as calculated may not exceed the district's maximum legal rate. Further restrictions may apply based upon the tax cap legislation.

Harper assesses its levy upon real estate within four counties as follows:

| 2016 TAX YEAR VALU | JAT | TONS | | | | |
|------------------------------|-----|----------------|---------------|----------------|------------|----------------------|
| | | <u>COOK</u> | LAKE | <u>McHENRY</u> | KANE | TOTAL |
| EAV for 2016 levy | \$ | 17,500,911,186 | 1,217,833,770 | 149,732,654 | 48,066,575 | \$ 18,916,544,185 |
| Final EAV for 2015 tax year | \$ | 15,129,929,247 | 1,158,275,559 | 140,663,043 | 41,085,134 | \$ 16,469,952,983 |
| Change from prior year | | 15.7% | 5.1% | 6.4% | 17.0% | 14.9% |
| Percentage of total 2016 EAV | | | | | | |
| by county | | 92.5% | 6.4% | 0.8% | 0.3% | 100.00% |

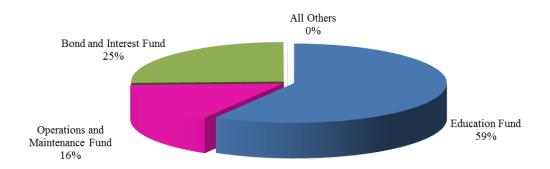

Tax rates and extensions are determined by each individual county. Cook County uses prior year EAV for determining the maximum allowable levy, whereas the other district counties use the current year EAV for both levy and rate determination. This process causes rates to vary by county.

Below are the blended extensions and rates by fund for all counties in the district, of which Cook County represents 92.5%.

| 2016 TAX RATES BY FUND | | | | | | | | | | | | | |
|---------------------------|---------------|--------------|-----------|---------------|--------------|-----------|-----------|-----------|--|--|--|--|--|
| | | | | | | | | | | | | | |

| Audit | 17,735 | 0.0% | 0.0001 | 16,469 | 0.0% | 0.0001 | 0.0050 | 7.69% | | | | | |
| Subtotal Tax-Capped Funds | \$ 58,437,474 | 74.5% | 0.3089 | \$ 57,562,482 | 75.6% | 0.3495 | | 1.52% | | | | | |
| Bond and Interest | 20,006,430 | 25.5% | 0.1058 | 18,555,731 | 24.4% | 0.1127 | none | 7.82% | | | | | |
| Total | \$ 78,443,904 | 100.0% | 0.4147 | \$ 76,118,213 | 100.0% | 0.4622 | | 3.06% | | | | | |

Distribution of each 2016 Tax Dollar

2016 Levy as Extended by Fund

Illinois community colleges are on a June 30 fiscal year, with fiscal year 2018 covering the period between July 1, 2017 and June 30, 2018. County assessments and tax levies are based on a calendar year. Because of this, tax levies and related collections affect two budget years. For fiscal year 2018, approximately ½ of the property tax revenue is from the calendar year 2016 levy, and ½ from the 2017 estimated levy.

The 2017 real estate levy must be filed with the County Clerk's office during December, 2017 and applies to the property values as of December 31, 2017. Those property values will be determined during calendar year 2017, with first installment tax bills mailed by the counties during spring 2018. Each county allows installment payments, with 50% due in the spring, and 50% due in late summer or early fall of 2017. Only Cook County follows the practice of issuing estimated tax bills for the first installment, based on 55% of the previous year's tax bill. The final and actual tax bill is sent out by Cook County between July and August.

Recognition of real estate taxes in local government revenue are determined and affected by collections during the fiscal and year-end audit adjustments, based upon the information released by the counties prior to the audit cut-off. It is not unusual for actual real estate tax revenues to deviate from the budget due to the annual fluctuation in Cook County's issuance of tax rates, variances between budgeted collection rates and actual collections, and volume of property tax refunds.

Below is the anticipated tax revenue to be received in fiscal year 2018, net of projected refunds.

2016 Calendar Year Levy by Fund and Amounts Anticipated for Fiscal Year 2018

| | 2016 Adopted Levy | 2016 Final Extension | FY 18 Anticipated Revenue from 2016 Levy | FY 18 Anticipated Revenue from 2017 Levy | | |
|-------------------------------------|----------------------|-------------------------|--|--|--|--|
| Education | \$ 46,050,000 | \$ 45,920,503 | \$ 21,755,000 | \$ 23,350,000 | | |
| Operation and Maintenance | 12,500,000 | 12,481,501 | 5,930,236 | 6,338,802 | | |
| Liability Protection and Settlement | 20,000 | 17,735 | 7,196 | 7,893 | | |
| Audit | 20,000 | 17,735 | 7,196 | 7,893 | | |
| Subtotal Tax-Capped Funds | 58,590,000 | 58,437,474 | 27,699,628 | 29,704,588 | | |
| Bond and Interest | 19,108,213 | 20,006,430 | 9,468,530 | 10,482,745 | | |
| Total | \$ 77,698,213 | \$ 78,443,904 | \$ 37,168,158 | \$ 40,187,333 | | |

Following is a nine-year history and FY 2018 budget of property tax revenues in the tax-capped funds and percentage changes.

| | FY 2009 | FY 2010 | FY 2011 | FY 2012 | FY 2013 | FY 2014 | FY 2015 | FY 2016 | FY 2017 | FY 2018 |
|----------|--------------|--------------|--------------|--------------|--------------|--------------|--------------|--------------|---------------|--------------|
| | Actual | Projected | Budget |
| | \$46,430,214 | \$48,194,092 | \$50,118,717 | \$51,557,775 | \$52,250,963 | \$54,184,718 | \$54,669,281 | \$56,622,586 | \$ 56,765,994 | \$57,404,216 |
| % Change | | 3.8% | 4.0% | 2.9% | 1.3% | 3.7% | 0.9% | 3.6% | 0.3% | 1.1% |

Enrollment and Tuition and Fees

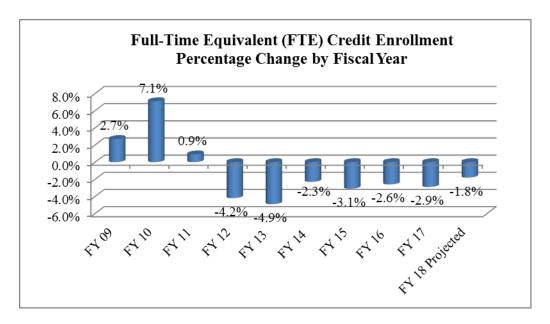

Tuition and fees account for 43% of total budgeted revenues. The tuition board policy limits the annual tuition and per credit hour fee increases to 5% of total tuition and fees or the Illinois statute limitation using the Higher Education Cost Adjustment (HECA) rate change as a guideline, as appropriate, to promote a balanced budget for Harper College and financial consistency for Harper students. HECA is an inflationary index developed by the State Higher Education Executive Officers Association. The index is used to estimate inflation in the costs paid by colleges and universities, which are primarily personnel. It is constructed from two federally maintained price indices, the Employment Costs Index (ECI) which makes up 75% of the HECA rate, and the Gross Domestic Product Implicit Price Deflator (GDP-IPD) which makes up 25% of the rate. These percentages mirror the breakdown of college and university costs, 75% for salaries and benefits, and 25% for all other. The ECI tracks employer compensation costs including salaries and benefits, while the GDP IPD tracks general price inflation in the U.S. economy.

Decisions are made each February regarding tuition and fee rates for the following fiscal year. In February 2017 the Board of Trustees approved an in-district tuition increase of \$5.75 per credit hour, from \$119.25 to \$125.00, effective summer 2017. This is a 4.3% increase over the combined FY 2017 tuition and fee rate of \$135.25 (tuition rate of \$119.25 plus per credit hour fees of \$16.00).

Enrollment projections begin with a model maintained by the Institutional Research department, which looks at trends and projects future enrollments.

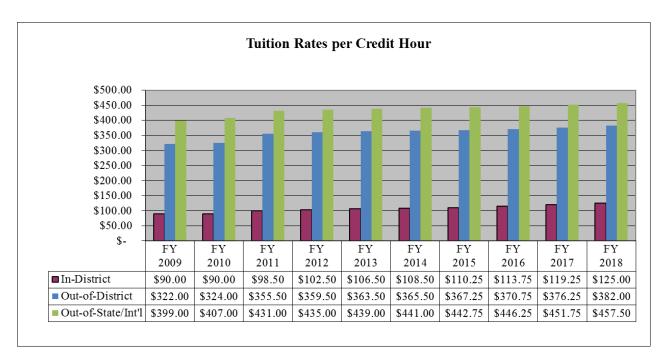

The College utilizes this model as a guide for beginning the process of estimating full-time equivalent (FTE) credit enrollment for budgeting purposes. Other external factors within the first time in college, young adult, and adult market segments are then considered when estimating enrollment, as well as the impact of any program changes. The tables below provide a history of FTE counts and percentage changes by year. Enrollments continue to decline with FY 2018 projected to decrease 1.8%.

Budgeted tuition and fees for the Tax Capped Funds will increase from \$48,189,772 in FY 2017 to \$48,996,762 in FY 2018, or 1.7%.

| | FTE History | | | | | | | | | | | | |
|---------|-------------|---------|---------|---------|---------|---------|---------|---------|---------|---------|--|--|--|
| | | | | | | | | | | FY 2018 | | | |
| FY 2008 | FY 2009 | FY 2010 | FY 2011 | FY 2012 | FY 2013 | FY 2014 | FY 2015 | FY 2016 | FY 2017 | Budget | | | |
| 10,692 | 10,980 | 11,758 | 11,859 | 11,361 | 10,808 | 10,560 | 10,229 | 9,961 | 9,676 | 9,502 | | | |

The following charts show the tuition rates per credit hour, changes of in-district rates, and history and FY 2018 budget for tuition and fee revenues.

| | In-District Rate Dollar and Percentage Change | | | | | | | | | | | | |
|---------|---|---------|---------|---------|---------|---------|---------|---------|---------|--|--|--|--|
| FY 2009 | FY 2010 | FY 2011 | FY 2012 | FY 2013 | FY 2014 | FY 2015 | FY 2016 | FY 2017 | FY 2018 | | | | |

State Funding

State funding as a percentage of per capita costs continues to decline and is estimated in FY 2017 to be 4.8%. As a percentage of total Tax-Capped funds revenue, it is estimated to be around 7.4% for FY 2017. The original concept of state funding for community colleges was that the State would fund one-third of the costs, with tuition and local sources funding the other two-thirds. That balance has not been achieved since 1981.

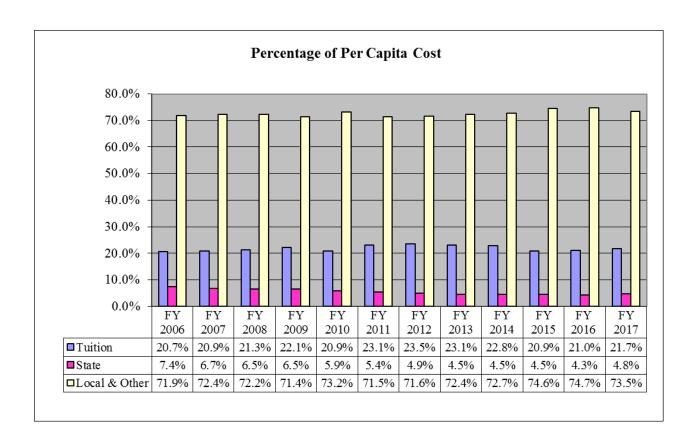

The unrestricted funding from the State, of which the base operating grant is the primary source, is budgeted at 50% of the last full year allocation. The College is reducing its reliance on State funding because of the uncertainties surrounding the finances of the State of Illinois. The budget has been reduced from \$5,735,000 in FY 2017 to \$4,015,000 in FY 2018. It is expected that this operating budget line will continue to be reduced in the coming years until it is zero.

In addition to uncertainty in funding for the base operating grant, the College will be expected to absorb the unfunded Illinois Veterans' grants, which are estimated to be approximately \$300,000.

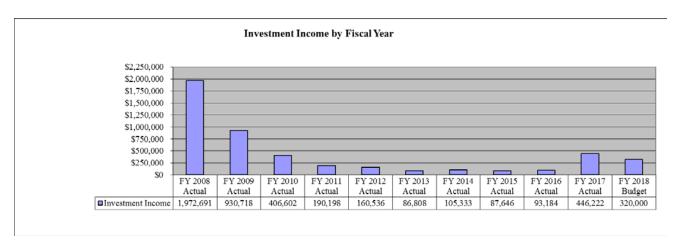

The tables below show the history and budget of the unrestricted State funding, percentage of total revenues and change, and percentage of per capita cost for each source of revenues.

| | State Funding Percentage of Revenues and Change | | | | | | | | | | | | | |
|------------------------------|---|-------|-------|-------|-------|-------|-------|-------|-------|-------|-------|--------|--------|--------|
| | | | | | | | | | | | | | | |
| | | | | | | | | | | | | | | FY 18 |
| | FY 05 | FY 06 | FY 07 | FY 08 | FY 09 | FY 10 | FY 11 | FY 12 | FY 13 | FY 14 | FY 15 | FY 16 | FY 17 | Budget |
| Percentage of Total Revenues | 9.2% | 8.4% | 7.7% | 7.6% | 7.4% | 7.0% | 6.4% | 6.4% | 6.4% | 6.4% | 6.7% | 1.9% | 7.4% | 3.6% |
| Percentage change | -7.3% | -1.0% | -1.5% | 3.3% | 1.2% | -0.4% | -4.2% | 0.3% | 0.5% | 1.4% | 4.6% | -72.9% | 322.6% | -52.3% |

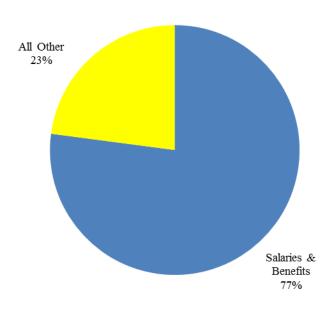

All other revenue sources make up 1.0% of total revenues. Yields on typical quality investments remain low, but with recent interest rate hikes investment income is showing signs of improvement. Investment income in the past year has increased to levels not seen since FY 2010, but remains well below the FY 2008 level of \$2 million, as shown by the chart below.

Expenditures

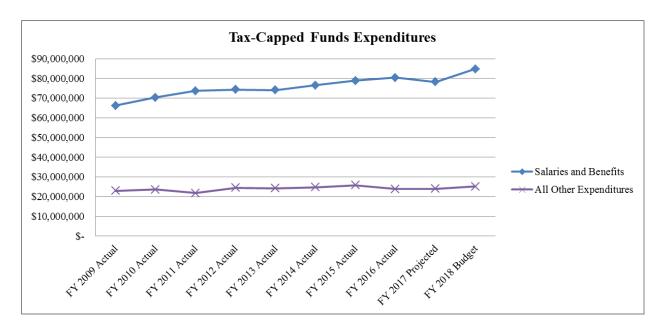

Building the expenditure side of the budget is a coordinated process across all College departments. Reallocation of existing budgets is always considered before funding any new budget requests. The Tax Capped Funds budgeted expenditures for FY 2018 are \$110,024,091 compared to \$109,821,865 for FY 2017. This represents an increase of \$202,226, or 0.2%. Budget reductions were made in the personnel costs tied to enrollment and supply expenditure categories.

The following table and graph show historical expenditures, exclusive of fund transfers, for the previous nine years, as well as the budgeted expenditures for FY 2018.

| | Tax-Capped Funds Expenditures- History and FY 2018 Budget | | | | | | | | | | | | | |
|------------------------|---|---------------|---------------|---------------|---------------|----------------|----------------|----------------|----------------|---------------|--|--|--|--|
| | WW | **** | **** | ***** | **** | **** | | **** | | **** | | | | |
| | FY 2009 | FY 2010 | FY 2011 | FY 2012 | FY 2013 | FY 2014 | FY 2015 | FY 2016 | FY 2017 | FY 2018 | | | | |
| | Actual | Actual | Actual | Actual | Actual | Actual | Actual | Actual | Projected | Budget | | | | |
| Salaries and Benefits | \$66,237,138 | \$ 70,330,649 | \$ 73,715,166 | \$ 74,431,168 | \$ 74,161,710 | \$ 76,569,300 | \$ 78,919,149 | \$ 80,481,863 | \$ 78,189,574 | \$ 84,808,691 | | | | |
| All Other Expenditures | 23,044,013 | 23,644,930 | 21,819,976 | 24,551,626 | 24,224,513 | 24,821,933 | 25,788,327 | 23,846,403 | 24,060,263 | 25,215,400 | | | | |
| Total Expenditures | \$89,281,151 | \$ 93,975,579 | \$ 95,535,142 | \$ 98,982,794 | \$ 98,386,223 | \$ 101,391,233 | \$ 104,707,476 | \$ 104,328,266 | \$ 102,249,837 | \$110,024,091 | | | | |

Salaries and Benefits

Salaries and benefits represent 77% of the College's expenditures. Approximately 65% of the College's salaries and benefits are driven by collective bargaining agreements making the budget process relatively straightforward in most years. Four of the College's five unionized groups have settled contracts through at least FY 2018. Under negotiations is the full-time police contract which ended in FY 2017. Vacant positions are budgeted at the expected annual salary needed to fill the position.

Health insurance benefits for employees are budgeted based on current benefit elections and any expected change in the benefit rates. The College has estimated the calendar year 2018 medical insurance rates to increase 8%.

Combined salaries and benefits have decreased from \$85,028,074 in FY 2017 to \$84,808,691 in FY 2018, or about 0.3%, due to personnel cost reductions related to continuing enrollment declines.

The following table is a summary of the detailed personnel headcount schedule located in the Appendix section.

| Personnel I | Headcount Su | mmary | | |
|------------------------------------|--------------|---------|---------|---------|
| | FY 2015 | FY 2016 | FY 2017 | FY 2018 |
| Employee Group | Actual | Actual | Actual | Budget |
| Faculty - Full-Time | 238 | 238 | 233 | 228 |
| Administrators - Full-Time | 51 | 51 | 43 | 41 |
| Professional/Technical - Full-Time | 131 | 138 | 142 | 151 |
| Professional/Technical - Part-Time | 47 | 45 | 39 | 34 |
| Supervisory/Management - Full-Time | 96 | 94 | 99 | 101 |
| Supervisory/Management - Part-Time | 2 | 2 | 2 | 2 |
| Classified - Full-Time | 131 | 136 | 127 | 127 |
| Classified - Part-Time | 126 | 111 | 89 | 86 |
| Security - Full-Time | 18 | 18 | 18 | 18 |
| Security - Part-Time | 17 | 17 | 15 | 15 |
| Custodial/Maintenance - Full-Time | 93 | 93 | 84 | 84 |
| Custodial/Maintenance - Part-Time | 5 | 5 | 4 | 4 |
| Totals - Permanent Employees | 955 | 948 | 895 | 891 |
| Instructional Adjunct Faculty | 785 | 759 | 695 | 657 |
| Non-Instructional Adjunct Faculty | 50 | 34 | 28 | 21 |
| Continuing Education Instructors | 442 | 339 | 322 | 428 |
| Totals - Adjunct employees | 1,277 | 1,132 | 1,045 | 1,106 |
| Grand Totals | 2,232 | 2,080 | 1,940 | 1,997 |

All other expenditures, which include contractual services, materials and supplies, travel and meeting, fixed charges, utilities, capital outlay, contingency, and other combined for an increase from the prior year of \$421,609 or 1.7%. These expenditures represent 23% of the budget.

SWOT Analysis

In preparation for the development of the 2016-2019 Strategic Plan, Harper College invested significant time and energy in conducting an assessment of internal Strengths and Weaknesses as well as an external review of Opportunities and Threats – a SWOT Analysis. The SWOT Analysis provides an evaluation that can focus institutional attention and inform planning processes. The analysis began with the identification and critical review of key institutional data. These key data sources included:

- College Plan
- Accountability Report
- Fact Book
- Student Success Report
- Environmental Scan
- Community Survey
- Sightlines Facilities Benchmarking
- Community College Survey of Student Engagement (CCSSE) results
- National Community College Benchmark Project (NCCBP)
- Personal Assessment of the College Environment (PACE) results
- Graduate employment data
- Recent task force reports

As a result of the review of these documents the College's strengths, weaknesses, opportunities and threats began to surface. The analysis identified the current state of affairs, while highlighting areas in which Harper is strong as well as those that need our focused attention. Further research was conducted to gather additional data on external forces influencing Harper as opportunities or threats. Items that surfaced were evaluated using three criteria:

- Institutional Level The item is at the institutional level, not one relating solely to a particular division, department or program.
- Data Driven Once the institutional criterion was met, the item was reviewed to determine if its data are documentable and measurable.
- Peer Review If applicable, the data was reviewed to see how Harper compares to similar institutions.

An initial draft document was created and reviewed by the Strategic Planning and Accountability (SPA) Committee. The second draft was presented to the campus community as part of the fall 2014 Friday Dialogue Sessions during which faculty and staff had the opportunity to provide additional feedback. The final SWOT Analysis begins on the next page.

STRENGTHS

(A strength is a positive internal institutional attribute.)

Strength 1: Increasing Levels of Student Degree Completion/Credentials Earned

Item Description:

Completion rates and credentials awarded have been increasing since the implementation of strategies associated with the 2010-2015 Strategic Plan. While the current rate itself has not reached the desired level the dramatic growth in both overall graduation rate and number of credentials conferred are positive outcomes and a strength of the College.

Supporting Comments:

The College's three-year Integrated Postsecondary Education Data System (IPEDS) graduation rate has increased by 10.22% over the last four years. Harper's graduation rate was well above the peer group average for 2011 and 2012. The peer group average has ranged from 15.40% to 16.90%. While many colleges in the peer group have seen increases in graduation rates, the rate of increase is higher for Harper than for the peers.

| Graduation Rate* | | | | | | | |
|------------------|--------|--------|--------|-------------------|--|--|--|
| Year | 2013 | | | | | | |
| Harper | 13.90% | 19.00% | 20.40% | 24.12% | | | |
| Peer Average | 15.40% | 15.80% | 16.90% | Not yet available | | | |

^{*}Graduation rate as measured by IPEDS is the percent of full-time, first-time, degree/certificate-seeking students who completed a degree or certificate within three years of initial enrollment.

President Obama has challenged community colleges to produce five million additional completions by 2020. Additionally, the Association for Community College Trustees (ACCT), the Center for Community College Student Engagement (CCCSE), the League for Innovation in the Community College, the National Institute for Staff and Organizational Development (NISOD), and the Phi Theta Kappa Honor Society set as their goal to confer 50% more high-quality degrees and certificates by 2020. ¹ In support of this national initiative, Harper has committed to realizing 10,604 additional degrees and/or certificates earned by 2020. At the end of FY2014 the College is well ahead of schedule; 67% to the 2020 goal of 10,604 additional degrees and certificates.

| Harper Degrees and Certificates Awarded | | | | | | |
|---|-------|-------|-------|--|--|--|
| 2010 2011 2012 2013 2014 | | | | | | |
| 2,552 | 3,838 | 3,930 | 3,743 | | | |

Strategies to increase the number of completions have impacted the growth in graduation rate and completions.

• Implemented a "completion pledge" in partnership with Phi Theta Kappa, which students sign indicating their commitment to working toward completing a Harper credential, and outlining the College's pledge of its own efforts to help them succeed.

¹ McPhail, C. J. (2011). The completion agenda: A call to action. American Association of Community Colleges p. 2 http://www.aacc.nche.edu/Publications/Reports/Documents/CompletionAgenda_report.pdf

- Increased focus on dual degree agreements that not only allow students to transfer from the two-year institution to a four-year, but also facilitate the exchange of student data in both directions, as a result, students who transfer prior to completing a Harper credential can reverse their credits back to Harper to finish here, as well.
- Updated the College website to allow students to self-audit progress toward a credential each term and connect them more easily with resources to help them finish.
- Created a completion concierge position which is responsible for:
 - o Identifying students who are close to completing degree requirements
 - o Organizing the preparation of information needed for graduation evaluations
 - O Utilizing the degree audit module and communicating results with the student population
 - Tracking student progress as they continue through successful completion of a degree or certificate program
 - o Working with academic counselors to ensure proper course placement.

Strength 2: National Model for Addressing Workforce Gaps

Item Description:

Harper is focused on building new partnerships as a strategic direction in the current strategic plan. Its first major partnership to develop from this focus was the statewide manufacturing alliance of community colleges to address the shortage of manufacturing technicians in the state. Harper College's ability to develop and sustain this type of model serves the institution and the region.

Supporting Comments:

The revitalized manufacturing program is a statewide program that has been regarded as a national model by the Department of Labor, the White House and the Manufacturing Institute. This partnership model is currently being replicated in Minnesota, Michigan and Ohio. There are four primary advantages with this type of model.

- Strong statewide higher education collaboration
 - o Harper College led a consortium of 21 geographically-dispersed Illinois community colleges called the Illinois Network for Advanced Manufacturing (INAM).
 - O INAM has created a project with an overarching goal to "Expand and improve the delivery of education and career training programs leading to industry-recognized certificates or associate degrees that can be completed in two years or less and prepare Trade Adjustment Assistance (TAA)-eligible and other workers for employment in highwage, high-skill advanced manufacturing occupations." 2
- Development of a replicable model
 - O Specific target population The project, Earn and Learn Advanced Manufacturing Career Lattice Program, specifically targets TAA workers, veterans, incumbent workers, the unemployed and others who seek additional training to secure and/or maintain employment within the manufacturing sector.

² INAM, 2014. Mission. http://inam.net/

- O Credential realignment The Earn and Learn Program allows participants to earn stackable, portable certificates and degrees that lead to high paying jobs within advanced manufacturing while simultaneously working in the industry. These industry-recognized credentials obtained through the Manufacturing Skills Standards Council (MSSC), the National Institute for Metalworking Skills (NIMS) and American Welding Society (AWS); provide quality assurance that employees possess the necessary skills and competencies to pursue various positions within advanced manufacturing. This partnership received a \$13 million Trade Adjustment Assistance Community College and Career Training (TAACCCT) grant from the Department of Labor.
- Functional business partnerships
 - o This partnership also includes 75 local manufacturers offering paid internships.
 - O Additionally, the College is beginning a partnership in the supply chain industry through another TAACCCT grant from the Department of Labor.
- National model recognition
 - Harper was select by Secretary of Commerce Penny Pritzker and the White House to represent community colleges in the national Advanced Manufacturing Partnership (AMP) as one of only two community colleges in the country. The group is comprised of university and college presidents, chief executive officers from the nation's most successful manufacturing firms, labor leaders and policymakers across the federal government.
 - The Aspen Institute is featuring this model in their workforce partnership section of their upcoming community college Best Practices Guide publication.³ The partnership has also been designated by the Manufacturing Institute as an M-List School. The M-List recognizes high schools, community colleges, technical schools, and universities that are teaching manufacturing students to industry standards.⁴ Only 79 institutions achieved this national standing.⁵

Strength 3: Partnerships with Sender High Schools

Item Description:

Harper College has created a nationally recognized model for high school community college partnerships that includes program alignment, increased college readiness, integrated college credit and the ability to earn college scholarships.

Supporting Comments:

The Northwest Educational Council for Student Success (NECSS) is a partnership between Harper and our sender high schools. This unique partnership focuses on student success and was developed based on the approval of the Harper Board as well as the boards of our three sender high school districts. The purpose of NECSS is to "develop programs, share talent and data, and leverage joint resources to ensure that every elementary, high school and college graduate will have the opportunity to be prepared for a global society, 21^{st} century careers, and postsecondary readiness/success."

⁴ http://blog.stemconnector.org/manufacturing-institute-launches-m-list-one-source-skills

³ Aspen, 2014 – Planned Publication Early 2015

⁵ Manufacturing Institute, 2013 http://www.themanufacturinginstitute.org/Skills-Certification/M-List/M-List.aspx

⁶ Guiding Document for NECSS, p. 2, http://www.necsspartnership.com/wp-content/uploads/Guiding_Document.pdf

The NECSS organizational structure contains five committees, one Council and one Board, each with the authority to create initiative, project, and/or program subcommittees. The five committees can request funds to explore, plan and implement initiatives, projects, and/or programs from the Council. The Council can also request funds from the Board for activities they would like to pursue. The Board will approve the activity and the funding. Activities should specifically address student learning and support efforts that increase college and career readiness and decrease the number of students placing into developmental education. Activities include those that:

- Increase the number of first-generation students who aspire to achieve postsecondary degrees:
- Increase the number of students of color who aspire to and achieve postsecondary degrees;
- Increase the number of males who achieve postsecondary degrees;
- Increase overall graduation rates and reduce attrition;
- Decrease student achievement gaps. ⁷

An example of an initiative of NECSS is found in the cross-district approach to increasing college readiness in math. The partners are currently:

- Testing high school juniors using the COMPASS test.
- Promoting high school seniors to take math their senior year (Illinois only requires three years of math).
- Offering a new Algebra 3 course that is the equivalent to Harper's MTH080. High school students in this course, who meet the threshold of the commonly developed (high school and college faculty) final exam, are deemed college ready in math and do not need to retest.
- For those high school students who are college ready and do not want to pursue the calculus track, we offer a dual credit College statistics course at the high schools.

This program has been offered to over 2,000 high school students and has resulted in a 21% increase in the percentage of recent high school graduates beginning in college math. 8 NECSS is also in the process of developing an English alignment program, a Promise Program, and the Power of 15 Program.

The Daily Herald, in its editorial of October 10, 2010, called this partnership a "groundbreaking" alliance". The partnership was also highlighted in a spotlight session at the American Association of Community Colleges Annual conference as an exemplary partnership. ¹⁰ The Illinois Board of Higher Education and the Illinois P-20 Council requested a presentation on NECSS and concluded it was a model for the state. 11 The Aspen Institute has identified this partnership to be featured in the high school partnership section of their upcoming community college Best Practices Guide publication. 12

⁷ Guiding Document for NECSS, p. 2, http://www.necsspartnership.com/wp-content/uploads/Guiding_Document.pdf

⁹ Daily Herald, October 10, 2010, p. 14

¹⁰ AACC 2014 Conference Program guide Spotlight Session

¹¹ IBHE, combined Board Meeting – P-20 Council Meeting, July 25, 2012

¹² Aspen, 2014 – Planned Publication Early 2015

The NECSS model is being replicated in New Mexico and at Illinois Valley Community College in Illinois. The New Mexico project is being highlighted at the 2014 American Community College Trustees Association Conference. The College has been asked to present this model by the American Association of Community Colleges, American Community College Trustees Association, the School Superintendents Association and Achieving the Dream. The model was also noted by the White House in the publications that resulted from the White House Summit on Community Colleges. ¹³

Strength 4: Support for Professional Development

Item Description:

Harper College provides employees with institutional support and encouragement to pursue opportunities for professional development. The support, both monetary and programmatic, for professional development provided by the College is a strength of the institution.

Supporting Comments:

Employees across the College have professional development and training opportunities; this is an essential component of employee and program evaluation.

- Expended \$550 per FTE employee in FY2012, ranking above the 75th percentile among 171 public community colleges as reported in the 2013 National Community College Benchmark Project (NCCBP). ¹⁴
- Expended over \$548,000 in employee professional development in FY2014.
- Provided professional development workshops to further develop faculty teaching skills.
 In FY2014, 83 workshops on 67 different topics were offered with a total enrollment of 1,287.
- Expanded employee technical skills with training provided by Information Technology. In FY2014, 194 technical skills training classes were held with 397 employees attending.
- Established the Harper Leadership Institute, which is designed to enhance professional effectiveness and provide a pathway to future leadership opportunities. The first cohort comprised of 29 employees representing diverse employee groups and varying levels of leadership completed the year-long program in FY2014. A total of 30 employees were selected to participate in the second-year of the program.
- Created the Center for Adjunct Faculty Engagement which promotes student success by providing instructional support, resources, and professional development for adjunct faculty.
- Instituted the Academy for Teaching Excellence which takes an integrated approach to
 faculty development that aligns with the College goals and strategic initiatives. The
 Academy develops original professional development opportunities and forms
 partnerships with all areas of the campus that provide professional development in order
 to create one clearinghouse for all faculty professional development.

144

¹³ The White House. Commitments to Action on College Opportunity. January 2014. p. 25 http://www.whitehouse.gov/sites/default/files/docs/college_opportunity_commitments_1-16-2014_final.pdf
¹⁴ 2013 National Community College Benchmark Project, Report of National Aggregate Data

- Established the Harper Academy for Research and Teaching Excellence (HARTE) Fellowship. The HARTE Fellowship was designed to provide faculty and staff with an opportunity to engage in scholarly research to inform the planning and implementation of the College's strategic initiatives by providing an opportunity for doctoral study. Fellows will research topics directly related to the strategic goals and share their research with the College to inform our practice.
- Created the Staff Professional Enrichment Training Series. The goal of the training is to combine the managers "needs" for specific skills for their staff with the training "wants" of employees. The program offers a series of three and a half hour long courses offered through Development Dimensions International. Participation rates in 2013 included 74 supervisors/managers and 122 staff.

Strength 5: Community Awareness/Participation

Item Description:

District residents have a high awareness of Harper College as their community college and high rates of participation in both credit coursework and cultural activities.

Supporting Comments:

Community survey results continue to demonstrate that awareness of Harper is an institutional strength. Results of the most recent community surveys, conducted in 2010 and 2013, indicate that Harper had the highest unaided recall (first mention) with the residents in the district. According to the survey administrators, the most accurate assessment of awareness is an assessment of unaided recall.¹⁵

- In 2010 and 2013, 33% of the district residents mentioned Harper College first when inquiring about local area colleges. This awareness rate is approximately 10% higher than the rate for other colleges of similar size. ¹⁶
- Harper, with an unaided awareness rate of 33%, is well above the other 2013 responses:
 14% Northwestern University; 7% University of Illinois; 6% Northern Illinois
 University; 5% Oakton Community College; 5% University of Chicago; 4% Elgin
 Community College; 4% DePaul University; 4% Roosevelt University; 3% College of
 DuPage; and 2% Loyola University.
- In the 2013 responses, Harper College was the most frequently recalled college or university with 58% of survey respondents mentioning Harper when asked about local area colleges. ¹⁸
- In 2013, Harper has high overall familiarity rates with 69% recognizing Harper as their community college. ¹⁹

¹⁵ Community Survey 2013, p. 7

¹⁶ Clarus email, September 2014

¹⁷ Community Survey 2013, p. 8

¹⁸ Community Survey 2013, p. 10

¹⁹ Community Survey 2013, p. 13

Harper College ranks high in community participation, according to data from the National Community College Benchmark Project (NCCBP), as compared to over 200 other community colleges.²⁰²¹

- Community participation in cultural activities was at the 94th percentile in 2012 and 92nd percentile in 2013.
- Students from our district high schools attend Harper at high rates. Harper was at the 90th percentile for high school penetration rate in 2012 and the 78th percentile in 2013.
- Overall credit student penetration rate is high compared to our peers; at the 82nd percentile in 2012 and the 81st percentile in 2013.

Learning Resources Network (LERN) is the premier association in continuing education and lifelong learning. 22

- For academic year 2014-15, Harper College's Continuing education program is one of the top five online providers in the LERN association.
- Harper College has been LERN Certified since 2003 and at the time of certification we had earned the highest rating of any program in the nation.

WEAKNESSES

(A weakness is an institutional attribute requiring improvement.)

Weakness 1: Stagnant Student Persistence Rates

Item Description:

Although both the graduation rate and the number of credentials conferred are increasing, Harper College is experiencing a decline in student persistence rates. Due largely to lack of persistence, the student advancement rate which represents the percentage of students who graduate, transfer or continue to enroll at the College within three years of initial enrollment is not showing progress. Despite efforts to improve student success and overall student progress, student persistence and the advancement rate are not steadily increasing.

Supporting Comments:

Student persistence rates have declined in recent years. Although efforts to increase the persistence of Harper students have been implemented, the fall to spring and fall to fall persistence rates are not improving. While persistence rates remain above the peer group average, the decrease in rates in conjunction with the increased efforts to retain students is an area of weakness for the College.

| Persistence Rate: Fall to Spring ²³ | | | | | | |
|--|--------|--------|--------|--------|--|--|
| 2010 2011 2012 2013 2014 | | | | | | |
| 70.48% | 76.23% | 76.96% | 73.46% | 73.94% | | |

| Persistence Rate: Fall to Fall ²⁴ | | | | | | |
|--|--------|--------|--------|--------|--|--|
| 2010 2011 2012 2013 2014 | | | | | | |
| 49.88% | 50.77% | 57.78% | 53.16% | 49.84% | | |

Student advancement rate is a comprehensive measure of student progress. Harper's student advancement rate decreased steadily from 2010 to 2012 and increased slightly in 2013. The student advancement rate is well below the Harper target rate of 77-78%.

| Student Advancement Rate ²⁵ | | | | | | |
|--|--------|--------|--------|----------------------|--|--|
| Year 2010 2011 2012 2013 | | | | | | |
| Harper | 69.86% | 65.43% | 62.92% | 65.01% | | |
| Peer Average | 68.32% | 61.42% | 63.20% | Not yet available | | |

Weakness 2: Insufficient Employee Diversity

<u>Item Description:</u>

The ethnic diversity of the Harper College faculty and staff is not representative of the community it serves. While attention has been placed on increasing the diversity of both faculty and staff, Harper College is struggling to achieve a level of employee diversity that reflects the increasingly diverse student body and district populations.

²³ Harper College *Institutional Accountability Report*, 2013-14. p. 7

²⁴ Harper College *Institutional Accountability Report*, 2013-14. p. 8

²⁵ Harper College *Institutional Accountability Report*, 2013-14. p. 9

Supporting Comments:

A racially and culturally diverse faculty and staff offer significant advantages to community college students and to the College as a whole. A diverse employee base increases the likelihood of students having a successful experience while in school.²⁶

Recent studies of institutions of higher education have concluded that minority students can benefit from faculty and staff who can serve as personal mentors and role models, and all students benefit from faculty who can offer diverse backgrounds and perspectives.²⁷

There are numerous sources that highlight the need to improve Harper's employee diversity. The most recent Institutional Effectiveness Measures (IEMs) show that district diversity has increased from 31.4% in 2010 to 32.4% in 2013, while the percentage of diverse new hires has decreased from 29.85% in 2010 to 21.82% in 2013. Additionally, the underrepresented employee separation rate has increased from 7.48% in 2010 to 9.44% in 2013. Data shared by the Task Force on Diversity and Inclusion show the percentage of full-time diverse employees by Equal Employment Opportunity Commission (EEOC) group in 2013:

Percentage of Full-Time Diverse Employees, Fall 2013

| | Total Harper ²⁸ | Harper District (2010) 29 |
|------------------|----------------------------|---------------------------|
| African American | 2.9% | 2.4% |
| Asian | 4.6% | 12.1% |
| Hispanic | 5.3% | 16.3% |

Percentage Diverse Faculty to Students, Fall 2013

| | Harper Faculty ³⁰ | Harper Credit Students ³¹ |
|------------------|------------------------------|--------------------------------------|
| African American | 1.6% | 4.6% |
| Asian | 3.7% | 10.3% |
| Hispanic | 2.8% | 20.1% |

As indicated by the data above, a large gap exists between the diversity of our employee population and that of those we serve.

Weakness 3: Inadequate Levels of Student Engagement

Item Description:

Student engagement with the learning process is directly related to student persistence in higher education. ³² Harper College uses the Community College Survey of Student Engagement

Cole, Darnell, "Do Interracial Interactions Matter? An Examination of Student-Faculty Contact and Intellectual Self-Concept," Journal of Higher Education, Vol 78, No. 3, May-June 2007, p. 249-281

³² Tinto, V. (1993). Leaving college: Rethinking the causes and cures of student attrition, 2nd edition. Chicago: University of Chicago Press

(*CCSSE*) to assess student engagement as a key indicator of learning and engagement. The survey is comprised of items that assess institutional practices and student behaviors that are highly correlated with student learning and student retention.

Supporting Comments:

In 2012, 2013 and 2014 approximately 438,756 students at 684 colleges in 48 states, the District of Columbia, three Canadian provinces, plus Bermuda, Micronesia, and the Northern Marianas participated in CCSSE.³³ Based on these survey results, the Center for Community College Student Engagement (CCCSE) determined that student engagement is critical to student success and noted that "Promoting student engagement is the overarching feature of successful program design, and all other features support it. In design and implementation of the collegiate experience, colleges must make engagement inescapable for their students."³⁴

CCSSE has been conducted at Harper every three years since 2006. Harper College has consistently scored below or at average with most of the CCSSE defined benchmarks tracking student academic engagement. In addition, according to the most recent administration, Harper College student scores have fallen at or below the 25th percentile for three of the five benchmarks. Finally, percentile ranks for four out of five benchmarks have decreased from the 2008-09 administration to the 2011-12 administration.³⁵

| | 2008-0 | 9 Admir | istration | 2011-12 Administration | | | Change |
|---|--------|---------|-----------|------------------------|------|--------|------------|
| CCSSE Benchmarks \ Definitions | Score | Rank | Median | Score | Rank | Median | in Rank |
| Active & Collaborative Learning | 46.2 | 16% | 49.6 | 45.6 | 10% | 49.2 | -6% |
| The extent to which students participate in class, interact with other students, and extend learning outside of the classroom. | | | | | | | |
| Student Effort | 48.4 | 32% | 50.0 | 47.6 | 27% | 49.8 | -5% |
| Time on task, preparation, and use of student services. | | | | | | | |
| Academic Challenge | 50.3 | 62% | 49.7 | 49.6 | 50% | 49.6 | -12% |
| The extent to which students engage in challenging mental activities, such as evaluation and synthesis, as well as the quantity and rigor of their academic work. | | | | | | | |
| Student-Faculty Interaction | 47.9 | 16% | 50.8 | 48.0 | 17% | 50.2 | 1% |
| The extent to which students and faculty communicate about academic performance, career plans, and course content, etc. | | | | | | | |
| Support for Learners | 49.2 | 43% | 49.5 | 47.7 | 24% | 50.1 | -19% |
| Students' perceptions of their college and their use of advising and counseling services. | | | | | | | |

Weakness 4: Student Achievement Gaps

Item Description:

Although Harper College has increased success and completion rates for many students, that success is not shared equally across student groups. Some demographic groups continue to underperform when compared with their peers. These student achievement gaps are an area of concern for the College, independent of similar gaps that may be seen within peer institutions. Continued efforts to decrease gaps based on race/ethnicity, gender and age are essential to providing equitable opportunities for students.

Supporting Comments:

Student achievement gaps exist in the areas of persistence, developmental course success, college-level course success, and completion and transfer:

Persistence: Black and Hispanic students and students age 20 and over persist at rates below the College's overall persistence rates.

- In the 2011 cohort, black student fall to fall persistence (28.7%) and Hispanic student fall to fall persistence (52.8%) were below the overall Harper persistence rate (56.9%). 36
- Students age 20 and over had average fall to fall persistence rates 14.7-16.6% lower than the overall Harper persistence rate.³⁷

Developmental courses: Black students and male students do not perform as well as their peers in developmental math, reading, and English.

- Black student developmental course completion falls approximately 20% below the Harper average in all three subjects. ³⁸
- Male students consistently underperform in developmental courses in comparison to females, with success rates 2.4-6.1% below the college average for the 2010 cohort.

College-level courses: Black, Hispanic, and male students also underperform in relation to their peers in gatekeeper courses.

- Success rates for black students ranged from 8.7% (math) to 13.0% (English) below the Harper average for the 2010 cohort. Hispanic students consistently performed below the Harper average in gatekeeper English (3.0%) for the 2010 cohort.
- Males also consistently underperform in gatekeeper courses, with rates 3.5-5.7% lower than the Harper average for the 2010 cohort. 41

Completion and Transfer: Completion rates remain low for male, black, and Hispanic students, in addition to students age 20-24. Additionally, Hispanic students and students age 25 and over tend to have low transfer rates in comparison to their peers.

³⁶ Harper College Student Success Report, 2013-14, p. 36

³⁷ Harper College *Student Success Report*, 2013-14, p. 39

³⁸ Harper College Student Success Report, 2013-14, p. 43, 49, 55

³⁹ Harper College Student Success Report, 2013-14, p. 42, 48, 54

⁴⁰ Harper College Student Success Report, 2013-14, p. 91, 98

⁴¹ Harper College Student Success Report, 2013-14, p. 90, 97

- Male students complete credentials at lower rates relative to female students. For the 2010 cohort, the male completion rate (15.3%) was 11.5% lower than the female completion rate (26.8%). 42
- Although the overall Harper completion rate was 21.2% for the 2010 AtD cohort, black students completed at a rate of 14.2% and Hispanic students completed at a rate of 18.2%. Additionally, the Hispanic transfer rate (28.7%) was 7.4% below the Harper average (36.1%). 43
- Students age 30 and over outperform their peers in completion (26.1%), but students age 20-24 complete at lower rates than any other age group (16.5%). For the 2010 cohort, the overall Harper transfer rate was 36.1% but students age 25-29 transferred at 28.5% and students age 30 and over transferred at 20.9%.

Weakness 5: Employee Climate Concerns Regarding Communication and Advancement

Item Description:

Although the results of the Personal Assessment of the College Environment (PACE) revealed that "the overall results from the 2013 administration of the PACE instrument indicate a healthy campus climate, yielding an overall 3.78 mean score or high Consultative System," two areas have been identified as needing improvement: internal communication and a supportive environment with opportunities for advancement. The results of the Harper Cultural Values Assessment are consistent with these concerns. 46

Supporting Comments:

From the 2011 and 2013 administrations of the PACE instrument, the following items were rated the lowest across the majority of employee groups surveyed:

- Internal Communication
 - o Information is shared within the institution.
 - o Open and ethical communication is practiced at this institution.
 - o My work is guided by clearly defined administrative processes.
- Supportive Environment with Opportunities for Advancement
 - o Decisions are made at the appropriate level at this institution.
 - o I am able to appropriately influence the direction of this institution.
 - o This institution has been successful in positively motivating my performance.
 - o A spirit of cooperation exists at this institution.
 - o This institution is appropriately organized.
 - o I have the opportunity for advancement within this institution.

From the spring 2013 Harper Cultural Values Assessment the following issues were revealed:

- Internal Communication
 - o There is a lack of clear and open communication, and people may feel as if they are working against one another at times.

⁴² Harper College *Student Success Report*, 2013-14, p. 125

⁴³ Harper College *Student Success Report*, 2013-14, p. 126, 134

⁴⁴ Harper College *Student Success Report*, 2013-14, p. 129, 136

⁴⁵ Personal Assessment of College Environment. Harper College Results Report. October 2013, p. 2

⁴⁶ Harper College Cultural Values Assessment, February, 2013

- Supportive Environment with Opportunities for Advancement
 - o Participants are feeling overworked and faced with navigating rigid internal structures, systems and processes in their efforts to get the job done.
 - o Budget restrictions may be compromising quality or sustainability, and causing employees to be concerned for their future employment.
 - o There may be a lack of empowerment and hesitation to embrace new ideas.
 - o Some people may be given unfair advantage while others may be made to feel inadequate or criticized.

Weakness 6: Physical Plant and Infrastructure

Item Description:

Although Harper College is outperforming its peers in many aspects of its physical environment, the current age of many campus buildings remains an institutional concern.

Supporting Comments:

The following factors make the current state of the physical plant a College concern:

- Fifty-five percent of Harper's campus is between 25-50 years of age. According to Sightlines, "The balanced campus profile will see a shift in the next 5-7 years into higher risk categories, requiring strategic investments into new and old space with different operational demands." Ensuring renovations in line with the Master Plan (including Buildings M, F, A, D and H) will move the College to a more balanced age profile by FY2018, with 26% of space between 25-50 years of age. 47
- Although the College has made improvements in planned maintenance (PM) to preserve the quality of campus space, the College lags behind best practices in this area. According to Sightlines, "Best practice institutions invest 10-12% of their budget on PM; Harper is investing 5%."48
- Harper College has 4.5% of its space dedicated to study space, which is lower than local peers: College of Lake County (6.9%), Oakton Community College (6.2%), College of DuPage (6.1%) and Elgin Community College (5.9%).⁴⁹

⁻ Total Net Assignable Square Footage by Room Use Classification

OPPORTUNITIES

(An opportunity is an external situation outside of Harper's control that has no negative impact if not acted upon.)

Opportunity 1: Alternate Methods for Earning College Credit

Item Description:

In many accredited public and private universities across the United States, credit may be given for adequately documented and validated experiential equivalent learning of a postsecondary nature. Examples are: credit for business experience, achievements in a related profession, competency-based learning, military training or other postsecondary-level equivalent experience.

Supporting Comments:

Providing alternative means for students to earn college credit would make enrollment at Harper College advantageous over other programs in the area and decrease both the cost and time for obtaining a degree or certificate.

Credit for prior learning is the granting of college credit for what an individual has learned through life or work experiences. 50

- According to the National Center for Education Statistics, the number of colleges that award credit for life experience has increased 35% from 2004 to 2010 to more than 2,000 schools.⁵¹
- Students are finding that many higher education institutions are open to granting college credit for documented life and work experiences. In 2006, the Council on Adult Experiential Learning (CAEL) conducted a study on the assessment of prior learning as a means of earning college credit. Results indicated that 70% of responding institutions accepted credit for corporate or military training, and 66% developed provisions for faculty evaluation of student portfolios indicative of prior learning (Klein-Collins & Hein, 2009). 52

Competency-based learning provides a method for earning college credit in an adaptive way, allowing the student to progress as mastery of learning is demonstrated.

- Competency-based learning often incorporates credit for prior experience by granting students the opportunity to demonstrate knowledge or skill acquired through these prior experiences.
- In addition to increasing efficiency and reducing cost, "competency-based systems also create multiple pathways to graduation, make better use of technology, support new staffing patterns that utilize teacher skills and interests differently, take advantage of learning opportunities outside of school hours and walls, and help identify opportunities to target interventions to meet the specific learning needs of students". 53

• Competency-based learning is an unexplored methodology at Harper College.

Opportunity 2: Workforce Partnerships with Business and Industry

<u>Item Description</u>:

The White House, the Department of Labor, the Department of Education, the American Association of Community Colleges, and The Aspen Institute have all focused on the importance of community colleges and business and industry partnerships over the last several years. Grant money, excellence awards and white papers have all documented the importance and impact of integrated workforce systems that include community colleges, regional employers and workforce systems.

Supporting Comments:

In 2010, the White House published a report calling on business leaders and community college boards to focus on community partnerships to increase opportunity for individuals and grow local economies. This report identifies steps that employers, business leaders and community college boards can take to promote community colleges as a way to raise the level of skill in the American workforce, including partnering in the development of curriculum and training programs. The report notes that "as employers and business leaders get more involved in workforce development, they must link with strong faculty and administrators to build effective partnerships with community colleges. Community college boards must stand fully behind this important work. The board must create the conditions in which partnerships can thrive." 55

The Aspen Institute notes that "for millions of Americans, community colleges provide an essential pathway to well-paying jobs and continuing higher education. The Aspen Prize for Community College Excellence honors institutions that strive for and achieve exceptional levels of success for all students, while they are in college and after they graduate." The measures for the prize include both student success and workforce outcomes.

Federal grants are increasingly addressing workforce-based educational opportunities and partnerships, giving priority to projects that include business partners – if not outright requiring them. The White House and federal agencies are promoting the inclusion of workforce outcomes in the growing performance-based funding movement for community colleges. The White House report encouraged community college boards to "Advocate at the state level for aggressive performance funding that offers incentives for workforce and job placement outcomes—not funding based solely on number of enrollments." ⁵⁷

⁵⁷ White House Summit on Community Colleges: A Call to Action for Employers and Community College Boards: How to Create High-Impact Partnerships for Jobs & Economic Vitality in the U.S. 2010, p. 12

Opportunity 3: Underserved District Populations

<u>Item Description</u>:

Student demographics suggest that segments of the district population are currently underserved by Harper College. These underserved populations are adult students age 25 and over, first-generation immigrants, and commuters who live outside of the district but work within district boundaries. Opportunities exist for the College to focus greater attention on these markets, which would allow Harper to increase enrollment and enhance service to community members and local businesses.

Supporting Comments:

Adult residents, first-generation immigrants, and individuals who commute to the Harper district for employment are areas of potential market growth. Harper has the opportunity to fully develop these student pipelines to increase enrollment and provide better service to the community.

• Adult students: Approximately 46% of district residents over the age of 25 have less than an associate's degree. In contrast, since fall 2009 only 38% of credit enrollments were attributed to adult students ages 25 and over indicating that there is a large population of adults in the district that might benefit from enrolling at the College. Nationally, 38% of those enrolled in higher education are over the age of 25, and 25% are over the age of 30. The share of all students who are over age 25 is projected to increase another 23% by 2019. ⁵⁸

| Educational Attainment ⁵⁹ | 18-24 | 25-34 | 35-44 | 45-64 | 65+ | Total |
|---|-------|--------|--------|--------|--------|---------|
| Less than 9th grade | 0.07% | 0.55% | 0.92% | 1.26% | 1.30% | 4.10% |
| 9th to 12th grade, no diploma | 0.77% | 0.67% | 0.58% | 0.86% | 1.38% | 4.25% |
| High school graduate, GED, or alternative | 2.19% | 2.52% | 3.15% | 8.33% | 7.19% | 23.37% |
| Some college, no degree | 3.57% | 2.77% | 2.91% | 7.47% | 4.05% | 20.76% |
| Associate's degree | 0.65% | 1.16% | 1.47% | 3.51% | 0.94% | 7.74% |
| Bachelor's degree | 1.75% | 6.28% | 5.79% | 10.14% | 2.75% | 26.71% |
| Graduate or professional degree | 0.18% | 3.19% | 3.18% | 5.20% | 1.31% | 13.07% |
| Total | 9.17% | 17.14% | 18.00% | 36.76% | 18.92% | 100.00% |

Source: American Community Survey, 2012

- First-generation immigrants: First-generation immigrants account for an estimated 25.6% of the Harper district population, much greater than the statewide proportion of 14.3%.
- Commuters: "About 27% of the 335,725 jobs in the Harper district are filled by residents with the remainder filled by commuters into the district." 61

 $^{^{58} \,} http://www.theatlantic.com/business/archive/2011/09/old-school-colleges-most-important-trend-is-on-the-rise-of-the-adult-student/245823$

⁶¹ Harper College *Environmental Scan*, 2014, p. 10

Opportunity 4: Responding to the Region's Skills Gap

<u>Item Description</u>:

Many employers in Harper's region are unable to find skilled workers to fill open positions. Although the College offers degrees and certificates in many high-growth occupations, there may be opportunities to expand programming by increasing capacity, developing new programs, and partnering with other post-secondary institutions.

Supporting Comments:

According to the Center on Education and the Workforce, "The United States has been underproducing college-going workers since 1980. Supply has failed to keep pace with growing demand, and as a result, income inequality has grown precipitously." Over the next decade, U.S. jobs requiring some level of postsecondary education are expected to grow to 63%. By 2018, the United States is projected to need 22 million new college degrees and over 4.7 million additional workers with postsecondary certificates, but will fall short of these needs by over 3 million post-secondary credentials. 63

The Bureau of Labor Statistics predicts that 60% of the top 10 fastest-growing occupations between 2004 and 2014 will require at least a completed certificate. ⁶⁴ Community colleges must develop new and strengthen existing career programs to meet the growing industry need.

- Although total employment in the Chicago metropolitan area shrank by 4% from 2007 to 2012, some industries have experienced shortages of qualified workers. ⁶⁵ Many of these areas are expected to grow in the next three to five years, providing opportunities in health care, social assistance and management.
- The table below displays the occupations for which at least some college is required and are predicted to realize the greatest rate of growth in Illinois by 2020. 66

| Occupation | 2010 | 2020 | Change | #Change |
|---|--------|--------|--------|---------|
| Registered Nurses* | 124100 | 140750 | 13% | 16650 |
| Nursing Aides, Orderlies, and Attendants | 60470 | 65430 | 8% | 4960 |
| Computer Support Specialists | 22890 | 25890 | 13% | 3000 |
| Emergency Medical Technicians and Paramedics | 12860 | 15610 | 21% | 2750 |
| Licensed Practical and Licensed Vocational Nurses | 23410 | 25630 | 10% | 2220 |
| Paralegals and Legal Assistants | 10000 | 12170 | 22% | 2170 |
| Dental Assistants | 12430 | 14300 | 15% | 1870 |
| Dental Hygienists | 8670 | 10500 | 21% | 1830 |
| Preschool Teachers, Except Special Education | 13720 | 15340 | 12% | 1620 |
| Heating, Air Conditioning, and Refrigeration Mechanics and Installers | 6850 | 8180 | 20% | 1330 |
| Radiologic Technologists and Technicians | 8460 | 9630 | 14% | 1170 |
| Firefighters | 15970 | 17020 | 7% | 1050 |

Note: *Registered Nurses include Nurse Anesthetists, Nurse Midwives, and Nurse Practitioners.

⁶⁵ Harper College Environmental Scan, 2014, p. 6

⁶⁶ Career One-Stop Database (February, 2014)

Partnerships with other post-secondary institutions could provide the additional credentials needed to meet the job market demands. According to the Career One Stop database, which is sponsored by the U.S. Department of Labor, there are a number of fast growing occupations in Illinois for which a bachelor's degree is required.

The table below displays the occupations for which at least a bachelor's degree is required and are predicted to realize high demand in Illinois by 2020. 67

| Occupation | 2010 | 2020 | Change | #Change |
|--|-------|--------|--------|---------|
| General and Operations Managers | 91660 | 100910 | 10% | 9250 |
| Management Analysts | 31220 | 38030 | 22% | 6810 |
| Software Developers, Applications | 25460 | 31860 | 25% | 6400 |
| Accountants and Auditors | 48010 | 53620 | 12% | 5610 |
| Computer Systems Analysts | 18090 | 22860 | 26% | 4770 |
| Market Research Analysts and Marketing Specialists | 15090 | 19730 | 31% | 4640 |
| Software Developers, Systems Software | 15230 | 18860 | 24% | 3630 |
| Computer Programmers | 21640 | 24560 | 14% | 2920 |
| Personal Financial Advisors | 11140 | 13750 | 23% | 2610 |
| Human Resources Specialists | 15370 | 17500 | 14% | 2130 |
| Computer and Information Systems Managers | 13730 | 15810 | 15% | 2080 |

Current partnerships with Eastern Illinois University, DePaul University, Governors State University, Rasmussen College, and Roosevelt University could be used as models for additional partnerships or for expansion of current offerings.

⁶⁷ Career One-Stop Database (February, 2014)

THREATS

(A threat is an external situation outside of Harper's control that has a possible negative impact if not acted upon.)

Threat 1: Response to District Demographic Changes

Item Description:

Significant demographic changes require a response from the College to examine and address the needs and desires of the changing district population. District changes include declining enrollments in elementary schools, increasing racial and ethnic diversity, and decreases in household income. As the college of the community, Harper has a responsibility to respond to these changes and attend to the needs of the changing district population.

Supporting Comments:

The Harper College district population is becoming more diverse in race, ethnicity, primary language spoken in the home, and birth place. ⁶⁸ The Hispanic population is the largest minority in Harper's district at 16.3%. ⁶⁹ Along with these district demographic changes, lower birth rates and an aging population have caused a decrease in primary school enrollments; there were nearly 1,200 fewer kindergarten than 12th grade enrollments in the Harper region in 2013. However, increases in district immigration have led to an increase in the number of Hispanic and Asian students in district schools. ⁷⁰

Median household income is decreasing and low income populations are increasing within the district and across Illinois. Within the district, 91% of communities saw a decrease in median household income between 2008 and 2013. According to the fall 2013 enrollment counts, approximately 25% of schools in the Harper district had percentages of low income students that were higher than the statewide average of 49.9%.

Despite these changes, the student population enrolled at Harper from fall 2009 to fall 2013 has remained consistent across race/ethnicity, gender, and age groups. The district has shifted, but those shifts have not been reflected in the Harper student body. Thus, Harper should adapt its policies and practices to better meet the needs of changing district demographics.

The American Association of Community Colleges (AACC) has shared several challenges regarding the conditions that current community college policies and practices place on students—conditions which disproportionally affect Hispanic, black, Native American, and low-income students.⁷¹ These conditions include credits that do not lead to completion or transfer, students who do not have goals or an understanding of how to reach their goals, students with difficulties completing developmental sequences, a lack of coherence across student services, and difficulty transitioning from high school to college or college to the workforce. Thus, the AACC argues that colleges should redefine policies and practices that are barriers to success and completion. Colleges should also improve services to help students successfully transition from

⁶⁸ Harper College Environmental Scan, 2014, p. 10

⁶⁹ Harper College *Fact Book*, 2013, Exhibit 1.3

⁷⁰ Harper College *Environmental Scan*, 2014, p. 26

⁷¹ American Association of Community Colleges. (2012). *Reclaiming the American Dream: A report from the 21st-Century Commission on the Future of Community Colleges.* Washington, DC. Available at www.aacc21stcenturycenter.org

high school to college and from college to the workforce as well as increase faculty engagement in the development of "experiences that lead to improved learning outcomes and success for a student population that is increasingly diverse in terms of race and ethnicity, learning styles, level of academic preparedness, and life experiences."⁷² Attention to the changes in district demographics through a redesign of Harper's policies and practices will be vital for Harper's ability to effectively serve its student and district populations.

Colleges that have devoted significant attention to designing services for underrepresented and low-income students have enabled important improvements in student access and success. Walla Walla Community College has implemented enrollment and retention efforts that include required visits to academic advisors. In 2011, new graduates earned \$41,548 on average—nearly twice the amount of other new hires in the region. ⁷³ At Kingsborough Community College, 61% of students receive Pell Grants, and 47% of students are from underrepresented minority groups. Kingsborough has adopted a variety of approaches that address the developmental and financial needs of students, including a center to provide students with services such as transportation assistance and welfare applications. Kingsborough achieves a transfer rate to four-year institutions of 60%.⁷⁴

Threat 2: Higher Education in an Increasingly Competitive Environment

Item Description:

The public increasingly sees education as a competitive commodity. To remain competitive in this landscape, Harper must be able to adopt new pedagogical models and new technologies to meeting the demands and learning styles of modern students.

Supporting Comments:

Harper College's 2014 Environmental Scan points to over 100 education providers within 25 miles of Harper's main campus, offering over 1,000 degree, certificate, or other training programs. 75 Additionally, because of the availability of websites such as the College Navigator, provided by the National Center for Educational Statistics, students can more easily compare educational institutions.

Additional evidence of the need to attend to new technologies and related pedagogical models includes:

- The Society for College and University Planning (SCUP) estimates 30% of all enrollments are in online courses an increase from only 10% in 2002. SCUP expects the global e-learning market to reach \$107 billion by 2015.⁷⁶
- Harper's distance education credit hours and credit sections both rank below the 25th percentile as reported by the 2013 National Community College Benchmark Project (NCCBP) Aggregate Report. Blue shading in the following table indicates areas where Harper is at or below the 25th percentile. A low percentile ranking indicates that the

⁷⁵ Harper College *Environmental Scan*, 2014, p. 94

⁷⁶ Harper College *Environmental Scan*, 2014, p. 39

College offers fewer distance education opportunities when compared to the other community colleges that reported this measure to NCCBP.⁷⁷

| Distance Learning | 201 | 10 | 201 | Change | |
|-----------------------|-------|------|-------|--------|---------|
| Distance Learning | % | Rank | % | Rank | in Rank |
| Credit Hours | 5.36% | 19% | 7.43% | 17% | -2% |
| Total Credit Sections | 9.13% | 40% | 8.00% | 20% | -20% |

- Faculty will be challenged to stay ahead of students in use of technology in the classroom. In a 2012 survey conducted by CDW-G approximately half of faculty reported a transformation away from the traditional lecture. Additionally, students reported a preference for hands-on, independent study, distance or virtual learning and individual tutoring as opposed to traditional lecture.
- Increasingly, students are using, and expecting to use, new technologies such as mobile apps in the classroom, ⁷⁹ and colleges are beginning to respond with new technologies to promote students success. ⁸⁰
- The College serves a community with diverse backgrounds and ages, and these differences may be reflected in individual communication and learning styles as well as comfort with technology in and out of the classroom.⁸¹
- Additional use of online technology will also present data security as an increasing liability for higher education. 82
- Massive Open Online Courses (MOOCs) may change the way students earn a degree. In the future, it is expected that entirely free MOOC-based programs of study will lead to degrees from accredited institutions. These changes have the potential to undermine or completely replace college and universities' traditional business models.
- The University of Denver Strategic Issues Panel on Higher Education noted that"...disruptive technologies and pedagogical innovation can create alternatives to traditional models of education. The combination of these conditions...has the potential to redefine the landscape of higher education and expand the number and nature of the educational competitors."

University of Denver Strategic Issues Panel on Higher Education, September 2014

Threat 3: Educational Funding

<u>Item Description</u>:

Funding for the financing of postsecondary education is inadequate to meet the need, increasing pressure to identify alternative revenue sources. These funding challenges impact both the institutions that provide education and the individuals seeking postsecondary education opportunities.

Supporting Comments:

State support for community colleges has been reduced over time, and local tax revenue cannot completely close the resulting gap. As tax supports decrease, Harper College must increase its reliance on other funding sources such as tuition.

- Across the country state support for higher education dropped 7.6% in FY2012.
- Illinois funding for community colleges has not kept pace with inflation and is lower in FY2015 at \$345 million than it was in FY2002 at \$368 million. FY2015 state funding for the College is \$1.1 million lower than in FY2002.
- Federal support for Adult Education and Career and Technical Education remains lower than FY2002 levels.
- Property taxes, which are Harper's primary source of local funding, are limited by the tax-cap laws. In addition, tax appeals have resulted in an \$18.3 million loss since FY2002.
- Unfunded state mandates for veterans' programs cost the College close to \$0.5 million per year. 86
- In Illinois, the gap is widening between those who are eligible for grants and those who receive grant funding. ⁸⁷ Household incomes are declining, resulting in increased eligibility for grants at the same time as the number of available grants is decreasing.
- State-level cutbacks in financial aid are occurring at the same time tuition and fees are increasing to make up for shortfalls in institutional revenues. The result is increased cost of higher education for students.
- Lower levels of state support have resulted in a strain on campus infrastructure. In order
 to complete renovations according to the Campus Master Plan, the College will need to
 pursue alternate funding sources such as a building referendum and partnerships with
 community businesses and other organizations.

 $^{^{85}}$ Society for College and University Planning, Planning for Higher Education Journal, 2012&2013

⁸⁶ Received from Laurie Dietz, at the direction of Bret Bonnstetter, in an email dated August 15, 2014

⁸⁷ Illinois Student Assistance Commission, Table 2.4c of the 2012 ISAC Data Book for Public 2-Year Institutions

Threat 4: Pension Liability

Item Description:

The lack of a long-term solution for the underfunding of the Illinois pension systems has affected higher education and resulted in the downgrading of the Illinois bond ratings. Additionally, the implementation of the most recent pension legislation has been postponed due to litigation regarding Public Act 98-599, the pension reform law passed December 5, 2013. Although the overall impact of the pension issue is unclear, increased borrowing costs and pension liabilities divert both funding and attention away from higher education priorities.

Supporting Comments:

- Although Illinois increased support for higher education 15.6% from 2007 to 2012, the increase was in pension payments not educational services. 90
- In 2012, Illinois had the 11th highest tax burden of all states in the United States, translating to fewer discretionary funds to pay for higher education. ⁹¹
- Forty-seven percent of Harper College SURS eligible employees participate in the Self-Managed Plan (SMP) which has been offered since 1998. In recent years, an increasing number of new employees who do not have previous SURS credit have selected the SMP, which is partially attributed to the addition of a "Tier II" SURS-annuitant designation.
- Pensions vs. schools: Higher education which examines pension costs compared to higher education spending, states that:
 - o Higher education retirement costs will continue to increase.
 - o The jump in pension payments will continue to cause higher education retirement expenditures to eclipse other state support.
 - o In the five-year period from 2005 to 2010, approximately 80% of all new state funding for higher education has gone toward retirement expenditures. ⁹³

⁹³ Illinois Policy Institute, http://www.illinoispolicy.org/simplereport/pensions-vs-schools-chicago-public-schools/

Threat 5: Increasing Call for Accountability

<u>Item Description</u>:

Harper College engages in mandatory reporting to several oversight organizations, including the U.S. Department of Education (through the Integrated Postsecondary Education Data System, or IPEDS), the Illinois Community College Board (ICCB) and the Higher Learning Commission (HLC). The amount of mandatory reporting to each of these organizations has increased in recent years, in part due to state and national budget constraints that have resulted in additional pressure to ensure the production of quality education with fewer resources. ⁹⁴ National discussions around education reform consistently reference the need for greater transparency and accountability, improved student achievement and better use of public funds.

Supporting Comments:

Accountability requirements for Harper College include:

- To ensure Harper College continues to receive Tile IV funds (federal financial aid) for its students information is submitted to state and federal governmental agencies. Over the past five years, these reporting requirements have increased in both the types of information and the amount of information required on an annual basis.
 - o ICCB requires multiple submissions of student's unit record data, as well as information about employees and facilities on an annual basis.
 - National Center for Educational Statistics (NCES) through IPEDS requires annual summary submissions about student demographics, credit hour production, and student success indicators.
 - o U.S. Department of Education requires annual submission about program completion and post-graduation outcomes for many of Harper College's career programs.
- Many states, including Illinois, have legislated performance-based funding in higher education
 that would grant funds based on completion and other student success factors rather than
 enrollment.
- Beginning in 2011, the U.S. Department of Education began requiring colleges to disclose certain information for any financial aid eligible program that "prepare[s] students for gainful employment in a recognized occupation." These requirements include program costs; completion rates, debt to income ratio, occupational profiles and job placement data.
- The College's regional accreditor, the Higher Learning Commission, has endorsed the New Leadership Alliance for Student Learning and Accountability's quality guidelines for both assessment and accountability, published by the New Leadership Alliance for Student Learning and Accountability. The guidelines help colleges and universities improve the quality of a college degree by asking them to set clear goals for student achievement, regularly gather and use evidence that measures performance against those goals, report evidence of student learning, and continuously work to improve results.
- The U.S. Department of Education requires accrediting bodies to assure that all its member institutions comply with the expectations of specific regulations. HLC must enforce these regulations as a part of their federal recognition. HLC is also required to review the

⁹⁴ Zarkesh, M., & Beas, A.M. (2004). UCLA Community College Review: Performance indicators and performance based-funding in community colleges. Community College Review, 31 (4), 62-76.

⁹⁵ Hamilton, J. (2011). Obama Administration Announces New Steps to Protect Students from Ineffective Career College Programs. http://www.ed.gov/news/press-releases/gainful-employment-regulations

- institution's compliance with Title IV program responsibilities.⁹⁶
- The Higher Education Opportunity Act of 2008 increased the amount of statutory requirements that HLC must ensure its accredited institutions meet. The Department of Education defines and implements these requirements through regulations that are frequently updated. Such requirements have increased the compliance reporting required by the institution. 97
- The College's governing board, as well as members of the local and state community, has expectations for transparency and accountability. Data detailing the effective use of tax dollars for educational programs, the quality of those programs, and overall student outcomes are accountability requests of the public.
- Although not mandated, the College can improve its position for funding and grant opportunities through participation in certain voluntary accountability initiatives. For example, Harper's status as an Achieving the Dream Leader College demonstrates sustained student success improvement that may open additional grant opportunities for the institution.

Threat 6: Lack of Employment Data

Item Description:

Community colleges are increasingly held accountable for post-graduate employment outcomes. Although employment and wages information is collected via graduates self-report, access to federal and state employment record databases is very limited in scope. Harper College's ability to remain competitive and be accountable to its students is dependent on reliable access to employment data.

Supporting Comments:

Access to employment data that is linked directly with students in specific programs is critical if Harper expects to be accountable at multiple levels—at the College and in the community, as well as statewide and nationally.

- Employment data is needed to ensure that current programing at Harper is current and relevant. The College needs to confirm that career graduates are employable and that jobs exist in each field. This information is currently collected using alumni surveys. Although these self-reported data provide some information, it is not enough to meet our accountability needs.
- Federal financial aid regulations require disclosure of placement data to continue to secure Title IV aid for our career and technical certificate programs.
- The Aspen Prize for Community College Excellence includes employment and earnings as one of its four success measures: "Labor Market Outcomes: Institutional practices and policies aligned with labor market needs and student labor market success, resulting in high rates of employment and earnings for graduates." Additionally, the Governing Institute on Student Success, in which our Board was trained, advises that colleges "ensure that metrics for institutional performance and student success incorporate employment and wage data for college graduates."

⁹⁸ http://www.aspeninstitute.org/policy-work/college-excellence/selection/selection-criteria

⁹⁹ http://www.governance-institute.org/policy-agenda-a-call-to-action

- Future participation in the Voluntary Framework of Accountability will require us to report:
 - The percentage of Career and Technical Education (CTE) students that complete program (both credit and noncredit) or earned 90 contact hours and are employed with a livable wage.
 - o The median wage growth of CTE students. 100

Despite efforts made in recent years, Harper College has not been able to secure access to consistent employment data about its graduates at the level of individual programs and across various student demographics.

- The Illinois Community College Board and the Center for Governmental Studies at Northern Illinois University partnered in the fall of 2013 to develop the Career Tech Education Analysis Portal. The portal provides employment and retention data for all public two-year colleges in Illinois. While this is a valuable resource there are a number of limitations.
 - o The information is dated (approximately 2-year time lag) and the update cycle has not been defined.
 - o Full-time versus part-time employment is not differentiated.
 - Employment in general rather than employment in the student's field of study is reported.

Illinois Department of Employment Security reports various statistics, but these data are based on communities rather than linked to Harper College's graduates.

ADOPTION OF BUDGET RESOLUTION

Member Mundt moved, seconded by Member Stack

WHEREAS, the Board of Trustees of William Rainey Harper College, Community College District No. 512, Counties of Cook, Kane, Lake and McHenry, State of Illinois, caused to be prepared in tentative form a budget for the fiscal year July 1, 2017 to June 30, 2018, and the Secretary of this Board has made the same conveniently available for public inspection for at least thirty (30) days prior to final action thereon:

AND WHEREAS, a public hearing was held as to such budget on the 16th day of August, 2017, notice of said hearing being published in the Arlington Heights Herald, Barrington Herald, Buffalo Grove Herald, Daily Courier News, Des Plaines Herald, Elk Grove Herald, Hanover Park Herald, Hoffman Estates Herald, Mount Prospect Herald, Palatine Herald, Rolling Meadows Herald, Schaumburg Herald, Streamwood Herald, and Wheeling Herald, newspapers published or distributed in this College district, at least thirty (30) days prior thereto as required by law, and all other legal requirements having been complied with:

NOW THEREFORE, BE IT RESOLVED by the Board of Trustees of Community College District No. 512, Counties of Cook, Kane, Lake and McHenry, State of Illinois, as follows:

Section 1. That the fiscal year of the College district be and the same is hereby fixed and declared to begin on the 1st day of July, 2017 and end on the 30th day of June, 2018.

Section 2. That the following budget containing an estimate of amounts available in the Education; Operations and Maintenance; Restricted Purposes; Audit; Liability, Protection and Settlement; Bond and Interest; Operations and Maintenance Restricted; Auxiliary Enterprises; and Working Cash Funds, each separately, and of expenditures from each of the aforementioned funds, be and the same is hereby adopted as the budget of this community college district for the said fiscal year.

CERTIFICATION

THE UNDERSIGNED DO HEREBY CERTIFY that they are

respectively, the Secretary of the Board of Trustees of Community College

District No. 512, Counties of Cook, Kane, Lake, and McHenry, State of Illinois,

and the Chief Fiscal Officer thereof.

IT IS HEREBY CERTIFIED that attached hereto is a true, correct,

complete and certified copy of the budget resolution as adopted on August 16,

2017 by the Board of Trustees of said Community College District for the fiscal

year beginning July 1, 2017 and ending June 30, 2018, and an estimate of

revenues, by source, anticipated to be received by the College in the 2017-18

fiscal year, which estimate of revenue is hereby certified as being true and

correct by the Chief Fiscal Officer of said College District.

IN WITNESS WHEREOF, we have affixed our official signatures

to this Certification as of August 16, 2017.

Glossary of Terms

Abatement

A complete or partial cancellation of a tax levy imposed by a government.

Academic Support (see Program)

Accrual Basis of Accounting

An accounting system that records revenues when earned and expenditures when a liability is created, regardless of the accounting period in which cash payment is actually made. An encumbrance system can be used in conjunction with an accrual basis accounting system.

Assessed Valuation

The valuation set upon real estate and certain personal property by the Assessor as a basis for levying property taxes.

Auxiliary Services (see Program)

Bond

A long-term I.O.U. or promise to pay. It is a promise to repay a specified amount of money (the face amount of the bond) on a particular date (the maturity date), along with periodic interest payments at a rate specified in the bond. Bonds are primarily used to finance capital projects. In the budget document, the payments are listed on the Schedule of Debt Maturities located in the Appendix.

General Obligation (G.O.) Bond – This type of bond is backed by the full faith, credit and taxing power of the government.

Revenue Bond – This type of bond is backed only by the revenues from a specific enterprise or project.

Limited Tax Bond – This type of bond is a form of non-referendum bonding authority granted by Illinois PA 89-385 allowing the College to issue additional debt for projects initiated after October 1, 1991. Limited Tax Bonds can be issued to the extent that the total debt service requirements of any new debt, when combined with existing debt service, do not exceed the debt service extension base established by the Act.

Budget

A plan of financial activity for a specified period of time indicating all planned revenues and expenditures for the budget period.

Budget Calendar

A schedule of key dates which a government follows in the preparation and adoption of the budget.

Capital Outlay (see Object)

Capital Project

Major construction, acquisition, or renovation activities which add value to a government's physical assets or significantly increase their useful life. Also called capital improvements.

Chargeback

Resident students desiring to pursue a certificate or degree program not available through the College may apply for chargeback tuition if they attend another public community college in Illinois which offers that program. Students approved for chargeback will pay the resident tuition of the receiving institution; the College will reimburse the receiving institution for the remainder of the non-district tuition cost.

Consumer Price Index (CPI)

A statistical description of price levels provided by the U.S. Department of Labor. The index is used as a measure of the increase in the cost of living (i.e., economic inflation).

Contractual Services (see Object)

Cost Center

A fiscal and accounting entity which is segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions or limitations.

Credit Hour

One contact hour (50 minutes) per week based on a 16-week term or a total of 800 minutes per semester.

Debt Service

The cost of paying principal and interest on borrowed money according to a predetermined payment schedule.

Distinguished Budget Presentation Awards Program

A voluntary awards program administered by the Government Finance Officers Association to encourage governments to prepare effective budget documents.

Employee Benefits (See Object)

Expenditure

The outflow of cash, a promise to pay, or other financial resources in return for goods and services that have been received.

Federal Government (see Revenues)

Fiscal Year

A twelve-month period designated as the operating year for accounting and budgeting purposes in an organization. The fiscal year at William Rainey Harper College is July 1 to June 30.

Foundation

The William Rainey Harper College Educational Foundation is a nonprofit, tax-exempt educational corporation organized under Illinois law to receive gifts, grants, loans, bequests and scholarships on behalf of the students, staff or the institution. Gifts received through the Foundation are tax deductible for the donor.

Full Time Equivalent (FTE)

Number of credit hours generated in a semester divided by 15.

Fund

A fiscal and accounting entity with revenues and expenses which are segregated for the purpose of carrying out a specific purpose or activity.

Fund Balance

That which is left in a fund at the end of a fiscal year that may be expressed with a negative or a positive figure.

General Materials and Supplies (see Object)

Gifts

Money received by the College generally from private and/or corporate sources. Used primarily for student financial aid and/or special programs and equipment.

Grant

Money awarded to the College in response to a proposal for specific purposes. Money is generally from state or federal sources.

Institutional Support (see Program)

Instruction (see Program)

Investment Income

Income to the College derived from the investment of current funds.

Levy

To impose taxes for the support of government activities.

Local Government (see Revenues)

Object

A term used in connection with the classification of expenditures. The materials purchased or the service obtained, rather than the purpose for which the materials or service was purchased or obtained.

Capital Outlay

Capital outlay includes all expenses associated with site acquisition or improvement, construction of new facilities, major repairs or renovations to existing facilities, and fixed and moveable equipment.

Contractual Services

Charges for services rendered by firms or individuals not employed by the College.

Employee Benefits

The College's cost to provide comprehensive benefits to full-time employees which currently include: health insurance, short and long term disability insurance, dental, life insurance, earned vacation days, earned sick and personal leave, bereavement or emergency leaves and professional development monies. The specific fringes depend upon the employee group and union contract.

Fixed Charges

Charges include rentals of facilities and equipment, debt principal and interest, and general insurance.

General Materials and Supplies

Expendable materials and operating supplies necessary to conduct College operations, including office and instructional supplies, printing, and maintenance supplies.

Other Expenditures

Includes expenditures unrelated to any other category. Examples include student grants and scholarships, tuition chargebacks, and financial charges and adjustments.

Provision for Contingency

A budgetary reserve set aside for emergencies or unforeseen expenditures not otherwise budgeted.

Salaries

Salaries and wages paid to an employee, before any deductions, for personal services rendered to the College.

Transfers

Amounts transferred from one fund to another to assist in financing the services for the recipient fund.

Travel and Meeting

Includes expenses associated with conference registration fees, costs for hosting or attending meetings, and travel costs related to College business/activities.

Utilities

Includes all utility costs necessary to operate the physical plant and other ongoing services, including gas, electricity, water, telephone, and refuse disposal.

Operation and Maintenance (see Program)

Other Revenue Sources (see Revenues)

Program

A level in the program classification structure hierarchy representing the collection of program elements serving a common set of objectives that reflect the major institutional missions and related support objectives. This structure, established by the ICCB, is a means of grouping related activities performed by the College for the purpose of accomplishing a function for which the College is responsible.

Academic Support

Academic support includes the operation of the library, instructional materials center, and communication systems used in the learning process. It also includes all equipment, materials, supplies and costs that are necessary to support this function.

Auxiliary Services

Provides for the operation of the cafeteria, bookstore, student organizations, athletics, and other related activities. It also includes all equipment, materials, supplies, and costs that are necessary to support this function.

Institutional Support

Institutional support consists of those costs that benefit the entire College and are not readily assignable to a particular cost center. Appropriate cost allocations will be made at the end of the fiscal year. The President's Office, Business Office, Information Systems and Personnel Services are included in this function. It also includes all equipment, materials, supplies and costs that are necessary to support this function.

Instruction

Instruction consists of those activities dealing directly with or aiding in the teaching of students. It includes the activities of the faculty in the baccalaureate-oriented transfer-occupational technical careers, general studies, and remedial and ABEIASE programs (associate degree credit and certificate credit). It also includes all equipment, materials, supplies, and costs that are necessary to implement the instructional.

Operation & Maintenance of Plant

Consists of housekeeping activities necessary in order to keep the physical facilities open and ready to use. Maintenance of plant consists of those activities necessary to keep the grounds, buildings, and equipment operating efficiently. This function also provides for campus security and plant utilities as well as equipment, materials, supplies, and costs that are necessary to support this function.

Public Service

The public service function includes the services provided to the general community, governmental agencies, and business and industry for non-credit community education and community service activities. Community education focuses on the individual participant and, thus, requires an individual registration and class completion record-keeping procedure. Community education includes non-credit short courses, professional review classes, workshops, and seminars that provide an educational service to the residents of the community. Community service is a structured activity that provides a beneficial service to the public. Community service focuses on group participation and, thus, does not require an individual

registration and completion record-keeping procedure. Community service includes college-sponsored seminars, workshops, forums, lecture series, cultural exhibits and events and consulting services provided through college-operated institutes and centers. (See ICCB Rule 1501.301.)

Scholarships, Student Grants, and Waivers

This category includes activities in the form of grants to students, prizes and awards, chargebacks, and aid to students in the form of state-mandated and institutional tuition and fee waivers. Employees/family tuition waivers are not included in this category.

Student Services

The student services function provides assistance in the areas of financial aid, admissions and records, health, placement, testing, counseling, and student activities. It includes all equipment, materials, supplies and costs that are necessary to support this function.

Professional Development

Monies budgeted and set aside to promote the professional development of individual staff and faculty members. Included within the scope of this allowance are travel, professional dues, course work, conferences, seminars, developmental materials and equipment.

Property Tax

Compulsory charges levied on real property by the College district for the purpose of funding College operation.

Provision for Contingency (see Object)

Public Service (see Program)

Revenues

Sources of income financing the operations of the College.

Federal Government – Revenues from all agencies of the federal government and pass-through agencies including Department of Education grants and certain grants administered by ISBE and IDHS as a pass-through agencies.

Local Government – Revenues from district taxes (property taxes), chargebacks, and from all governmental agencies below the state level.

Other Sources – Revenues include sales and services fees from cafeteria, bookstore, customized training; investment revenue; facilities revenue, and miscellaneous.

State Government – Revenues from all state governmental agencies, including ICCB operating and other restricted grants, ISBE grants, Department of Veterans Affairs, and Illinois Student Assistance Commission.

Transfers - Amounts transferred from one fund to another to assist in financing the services for the recipient fund.

Tuition and Fees - Revenues to the College assessed against students for educational and general purposes. Tuition may be charged on a per course or per credit hour basis. Fees include those costs not covered by tuition, such as activity fees, application fees, registration fees, and laboratory fees.

Salaries (see Object)

State Appropriations (include supplemental appropriations)

Revenue to the College derived from a formula established by the State of Illinois.

State Government (see Revenues)

Student Services (see Program)

Target budget

Desirable expenditure levels provided to departments in developing the coming year's budget.

Tax Increment Financing (TIF) Illinois

A governmental body established by the State of Illinois to receive and disburse tax dollars generated as a result of the increase in valuation caused by property improvement and rehabilitation within the College district.

Transfers (see Object)

Travel and Meeting (see Object)

Tuition and Fees (see Revenue)

Utilities (see Object)
