## Introduction

Harper College is a comprehensive community college dedicated to providing excellent education at an affordable cost, promoting personal growth, enriching the local community and meeting the challenges of a global society. Harper's vision is to be a leader in teaching and learning, transforming lives by responding to the needs of the individual and the community.

Consistent with Harper's willingness and practice of implementing change in order to respond and grow, it was their desire to assess community needs related to Harper College's mission.

## Purpose and Objectives of Research

The purpose of this research was to gather quantitative information with a minimum 95 percent confidence level to assist Harper in determining the community needs including the following categories of needs: (a) educational needs, (b) workforce training needs and (c) cultural and personal enrichment needs.

Specific objectives for this research were to determine:

1. District residents perceived need for, and scheduling and delivery mode preferences for
a. higher education
i. degree
ii. non-degree
iii. vocational
iv. online degrees and certificates
b. workforce training needs
i. specific job skills and training
ii. transferable skills and training
c. cultural and personal enrichment needs
2. District businesses perceived need for, and scheduling and delivery mode preferences for
a. higher education
i. degree
ii. non-degree
iii. vocational
iv. online degrees and certificates
b. workforce training needs
i. specific job skills and training
ii. transferable skills and training

## Methodology

In order to establish definitive findings with a high degree of statistical confidence the methodology for this research was primarily through telephone surveys and structured interviews.

Telephone surveys were recommended for the district residents to obtain a sufficiently large sample for statistically reliable results.

Structured interviews were recommended for businesses and government/not-for-profit organizations in order to allow for the ability to probe and clarify. Because each structured interview could represent many potential students, understanding their educational needs, both clearly and precisely, was important to creating a comprehensive analysis of the district's needs and preferences.

## Sampling Frame

The sampling frame for this research was limited to (a) residents who are 18 years of age or older within the Harper College district, which has an estimated population of 600,000, (b) businesses within the district that employ a minimum of 20 employees, which is an estimated population of 25,000 and (c) "appropriate" governmental and non-profit organizations.

## Sample Selection and Size

A random sample was selected for the district residents based upon a stratified random sample using established quotas based on age. The stratified sample was proportional to the actual population. The list was purchased from Genesys Sampling Systems, a subsidiary of MSG (Marketing Sampling Group). Genesys compiles this list from U.S. Census data.

The sample size was determined by limiting the study to 95 percent confidence with a sampling error of no more than +/- 5 percentage points. Given the population size of residents, a sample of 500 completed surveys was sufficient, which has a sampling error of +/- 4.38 percentage points.

The sample for area businesses and government/not-for-profit organizations was handselected based upon number of employees and industry. Harper College personnel and The Greystone Group, together, determined the criteria for this specific sample. A total of 40 businesses and 10 government/not-for-profit organizations were interviewed.

## Survey Design

Prior to developing the telephone surveys, The Greystone Group, Inc. (a) reviewed readily available industry and education statistical data on the Harper district, (b) conducted online searches for jobs and want-ads in the Harper district and (d) reviewed national trend analyses for workforce training and education. This background information was used as a guide to develop surveys that would be most appropriate for this specific district.

The surveys were developed collaboratively by The Greystone Group, Inc. and Harper College.

Prior to initiating the phone surveys, The Greystone Group, Inc. obtained final approval of the survey instrument from Harper College, in writing.

## Executive Summary

The conclusions are a summation of the research findings and the recommendations are suggested responses to the conclusions.

## Conclusions

By "conclusions" Greystone means a statement of professional judgment based not only on findings but also on consultant knowledge. These are summaries of what we believe to be the case, built on our knowledge of higher education (general and specific) and findings gleaned from this study. These conclusions are not listed in order of priority.

## Portion of Residents Who Will Enroll in the Future

1. More than one-third (37\%) of the residents say they will "definitely" or "probably" enroll in a certificate or college degree program or college courses within the next five years.
2. Approximately 1 in 4 residents would like to enroll in a course and are not currently enrolled
3. There is some indication that those with less education are slightly more likely to want to enroll in further education, than those with higher levels of education.

## Types of Degrees and Programs They Will Pursue

4. Most of the residents who are interested in courses, are also interested in pursuing a certificate or degree program. The largest number is interested in pursuing a bachelor's (21\%) or master's (28\%) degree. Ten percent (10\%) indicated that they think they might pursue a certificate program and 11\% indicated an associate’s degree.
5. Students interested in pursuing a certificate most want to study education/teaching, business, or healthcare.
6. Students interested in pursuing an associate's degree want to study business and healthcare.
7. Those not pursing a degree, but want to enroll in courses want to study computers/electronics/technology and art/fine arts.

## Interest in Various Types of Modalities

8. For those residents who prefer taking courses in the classroom, they prefer Monday mornings or evenings, Tuesday evenings, and Wednesday evenings.
9. A high interest was indicated for certificate programs through distance learning via the Internet
10. More than half of those who said they would definitely or probably enroll in courses within the next five years are interested in taking courses through distance education via the Internet.

## Programs and Specific Types of Modalities

11. Sciences/engineering, art/fine arts, vocational programs, and history are those areas of study with the highest level of interest for day courses.
12. Languages, accounting/finance/economics, history, education/teaching, computers/electronics/technology are the areas of study with the highest level of interest for evening courses.
13. Languages, education/teaching, computers/electronics/technology, history, accounting/finance/economics, and business are the areas of study with the highest levels of interest for distance education via the Internet.

## Demographic Differences of Those Who Will Enroll

14. There are some differences in interest in pursuing higher education depending upon age.
a. Traditional-age students are most interested in science/engineering, business, education/teaching, and art/fine arts. This group is also most likely to want a traditional college setting - studying in the classroom with courses offered during the days and evenings.
b. The typical adult students (25-54 years of age) are most interested in computers/electronics/technology and business. This group has the highest level of interest in distance education and would prefer courses offered either in the evenings or through distance education.
c. Residents 65 and older are most interested in art/fine arts, computers/electronics/technology, and history. This group would prefer courses offered in the classroom setting during the day, or possibly evening, and are least interested in pursuing a degree.

## Specific Preferences for Distance Education

15. Residents who are interested in taking courses through distance education are most interested in business, computers/electronics/technology, education/teaching, and healthcare.
16. Residents' preference for distance education is either via the Internet only or a combination of video tapes/TV broadcasts and the Internet.
17. For residents who are interested in distance education, 1 out of 4 said they would be much more likely to enroll in a certificate or degree program if it were offered through distance education.
18. For residents who are interested in distance education, they have an interest in all combinations of on-campus requirements - entirely online with no on-campus
requirements; orientation and tests on campus with all coursework online; and orientation, tests, and some coursework on campus and some coursework online.

## What Keeps Residents from Enrolling

19. Time and money are the two greatest reasons that keep residents from enrolling in a course or degree program.

## Job and Workplace Skills Needed

20. Jobs skills that residents believe may be lacking at their organizations are computers/technology, communication/English, and job-specific skills.
21. Specific workplace skills that are most important at residents’ place of employment are: reading comprehension, knowing how to learn, and problem solving.

## Cultural and Personal Enrichment Needs

22. Classes, seminars, or cultural activities that residents enjoy most are: professional seminars/training/trade shows, music concerts, and opera/theatre/plays.
23. What residents wish was more readily available in the area includes: job-specific seminars/training, arts and crafts classes, theatre/ballet, computer science and technology training, self-improvement activities, and concerts/symphony.

## What Residents Say Harper is Best Known For

24. Residents think that Harper College is best known for: quality education, associates/two-year degrees, prep for four-year colleges, low cost/affordability, and a variety of programs/flexible hours.

## Human Resource Professionals' Perception of Education and Skill Needs

[Note: These were qualitative interviews and represent diverse industries and sizes of organizations.]
25. Many of the HR professionals stated that many of their positions do not require any education beyond high school.
26. The HR professionals are anticipating an increase in online education over the next five years.
27. Job skills frequently mentioned by the HR professionals as being most prevalent at their organizations are computer skills and customer service.
28. Many HR professionals do not believe that their employees currently need outsourced training; they feel that their corporate office provides more than adequate training.
29. HR professionals rated the specific transferable skills of knowing how to learn and oral communication/presentation skills as most important at their organizations.

## Recommendations

Greystone recommendations are proposals that we believe should be considered and, if approved, implemented as a means of responding to the findings and conclusions presented in the report.

## Education Modalities

1. In order to meet the needs and requirements of the district, programs must be offered in multiple modalities. Business and education/teaching programs, in particular, are being requested in various modalities. Harper College should move towards providing these certificate and degree programs in a format with courses offered during the day, the evenings and through distance education.
2. Liberal arts areas of study such as art/fine art and history, along with computers/technology courses should be offered during the days or evenings for those residents 65 years of age and older.
3. Harper College should strive to maximize on campus courses on Mondays, Tuesdays and Wednesdays. Specific times would be Monday mornings or evenings, Tuesday evenings, and Wednesday evenings.

## Distance Education

4. Most students who are interested in distance education are interested in completing programs or degrees as opposed to taking a few courses. Any distance education offerings should be part of a certificate or degree program.
5. The Internet should be a component of all distance education courses. Distance education via only videos or TV broadcasts has a low interest.
6. Because the preferences for the inclusion of an on campus component for distance education received mixed responses, Harper College should consider including an on
campus component but making it optional for all distance education courses. For example, register, buy books, etc. online or on campus, or provide an introductory session that could be completed online or on campus.

## Marketing to Residents’ Perceptions

7. Convenience and affordability should be clearly communicated in all marketing efforts given that time and money are the two greatest reasons why students do not enroll in college courses.

## Skills Incorporated into Education

8. The use of computers and technology should be a critical part of the curriculum for each program, not exclusively computer and technology programs. The use of computers and technology has become a transferable skill, not just a specialized degree program.
9. Skills that should permeate throughout all course offerings include: reading comprehension, knowing how to learn, and problem solving.
10. Harper College should research further the possibility of offering certificate programs in: customer service, oral communication, and problem solving/critical thinking.

## Findings

## Phone Survey with District Residents

By "findings," Greystone means exactly that: This is what we have found. It is evidence, not the application of that evidence; these are the facts obtained from the research.

## Higher Education

The phone survey for district residents was completed with predetermined quotas by age in order to insure that the different age groups would be appropriately represented. The following table reports the completed calls by age category, which reflects the age demographics of the Harper District.

Table 1. Age of District Respondents Surveyed

| Age Category | Number of Calls <br> Completed | Percent of <br> Population |
| :--- | :---: | :---: |
| 18 | 5 | $1 \%$ |
| 19 to 24 | 45 | $9 \%$ |
| 25 to 54 | 320 | $63 \%$ |
| 55 to 64 | 62 | $12 \%$ |
| 65 and older | 78 | $15 \%$ |
| TOTAL | 510 |  |

Of those surveyed, 61\% currently hold a bachelor's degree or higher as their highest level of education completed, $16 \%$ hold an associate's degree, and $23 \%$ are high school graduates or less. This compares to $28 \%$ of Cook County residents who are 25 years of age or older holding a bachelor's degree or higher and 26\% for the state of Illinois (2000 Census). Residents holding a bachelor's degree or higher in the cities within the Harper College district range from $28.6 \%$ in Prospect Heights to $67.8 \%$ in Barrington Hills (2000 Census).

Chart 1. Highest Level of Education Completed for District Respondents Surveyed

Twelve percent (12\%) or about 1 in 8 respondents are currently enrolled in college courses.

Chart 2. District Respondents Currently Enrolled in College Courses

Those respondents in the 18 to 24 age category are those most likely to be currently enrolled in a college course - $62 \%$ are currently enrolled in a course at an area college.

Table23. Respondents Currently Enrolled in College Courses by Age and Highest Education Level

| Age | N | Percent Currently <br> Enrolled in College <br> Courses |
| :--- | :---: | :---: |
| 18 to 24 | 50 | $62 \%$ |
| 25 to 54 | 320 | $7 \%$ |
| 55 to 64 | 62 | $3 \%$ |
| 65 and older | 78 | $4 \%$ |

| Highest Level of Education |  |  |
| :--- | :---: | :---: |
| High School Grad or Less | 99 | $18 \%$ |
| Vocational/Technical/Some College | 96 | $16 \%$ |
| Bachelor's Degree | 201 | $7 \%$ |
| Graduate Degree | 113 | $10 \%$ |

Seventeen percent (17\%) of the district respondents indicated that they will "definitely yes" enroll in a certificate or college degree program or college courses within the next five years. Another 20\% indicated "probably yes."

Of the $37 \%$ that will definitely or probably enroll in a college course within the next five years, about $10 \%$ are currently enrolled in a college course; therefore, about $27 \%$ are not currently enrolled in a college course.

Chart 3. Respondents Who Will Enroll in a Certificate or College Degree Program or College Courses Within the Next Five Years

Those respondents without a college degree are only slightly more likely to enroll in college courses within the next five years than those respondents with a college degree.

Table 3. Likelihood to Enroll Within Five Years by Highest Level of Education

|  | High School <br> Graduate or <br> Less | Vocational/ <br> Technical/ <br> Some College | Bachelor's <br> Degree | Graduate <br> Degree |
| :--- | :---: | :---: | :---: | :---: |
| N | 99 | 96 | 201 | 113 |
| Definitely Yes | $20 \%$ | $20 \%$ | $15 \%$ | $16 \%$ |
| Probably Yes | $20 \%$ | $21 \%$ | $20 \%$ | $16 \%$ |
| Not Sure | $7 \%$ | $21 \%$ | $6 \%$ | $8 \%$ |
| Probably Not | $13 \%$ | $36 \%$ | $38 \%$ | $41 \%$ |

Specific program areas generating the highest level of interest from respondents are:
business, education/teaching, computer/electronics/technology, healthcare, and art/fine arts.
Traditional-age students are most interested in science/engineering, business, education/teaching, and art/fine arts. The typical adult students (25-54 years of age) are most interested in computers/electronics/technology and business. The older adult students (5564) are most interested in business, accounting/finance/economics, and computers/electronics/technology. Respondents 65 and older are most interested in art/fine arts, computers/electronics/technology, and history.

Table 4. Courses, Certificate, or Degree Program in Which Respondents Will Definitely or Probably Enroll by Age, Gender, and Highest Level of Education
(Base = only respondents who will "definitely yes" or "probably yes" enroll in a course or degree program within the next five years.)

|  | Total | 18-24 | 25-54 | 55-64 | 65+ | M | F | HS Grad or Less | Voc/Tech/ Some College | Bachelor Degree | Graduate Degree |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |

| Psychology/Sociology | 3\% | 3\% | 3\% | 6\% |  | 1\% | 4\% | 5\% | 3\% | 3\% | 3\% |
| Vocational Courses | 3\% | 3\% | 3\% | 6\% |  | 4\% | 3\% | 5\% | 3\% | 3\% | 3\% |
| Law | 3\% | 5\% | 2\% |  |  | 4\% | 2\% |  | 3\% | 6\% |  |
| Real Estate | 1\% |  | 2\% |  |  | 3\% |  |  |  | 1\% | 3\% |
| Other | 7\% | 13\% | 6\% | 6\% |  | 8\% | 6\% | 8\% | 5\% | 8\% | 6\% |
| Don't Know | 6\% | 15\% | 4\% | 6\% |  | 10\% | 4\% | 13\% | 5\% | 6\% | 3\% |

Respondents were given the opportunity to provide multiple responses so column totals may exceed $100 \%$.

Seventy-five percent (75\%) of those who said they will "definitely yes" or "probably yes" enroll in courses within the next five years will pursue a degree. The greatest number will be pursuing a bachelor's or master's degree. Ten percent (10\%) indicated they think they might pursue a certificate program and 11\% indicated an associate’s degree.

Table 5. Level of Degree Respondents Might Pursue by Age, Gender, and Highest Level of Education
(Base = only respondents who will "definitely yes" or "probably yes" enroll in a course or degree program within the next five years.)

|  | Total | 18-24 | 25-54 | 55-64 | 65+ | M | F | HS Grad or Less | Voc/Tech/ Some College | Bachelor Degree | Graduate Degree |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| N | 187 | 40 | 121 | 16 | 10 | 71 | 116 | 40 | 39 | 71 | 36 |
| Certificate | 10\% | 3\% | 12\% | 13\% |  | 10\% | 9\% | 5\% | 10\% | 14\% | 6\% |
| Associate's | 11\% | 8\% | 14\% | 6\% |  | 8\% | 13\% | 20\% | 26\% | 3\% | 3\% |
| Bachelor's | 24\% | 58\% | 17\% | 6\% | 10\% | 27\% | 22\% | 43\% | 38\% | 17\% | 3\% |
| Master's | 28\% | 38\% | 30\% | 6\% |  | 31\% | 26\% | 18\% | 21\% | 42\% | 19\% |
| PhD/Doctorate | 5\% | 8\% | 5\% | 6\% |  | 8\% | 3\% | 3\% | 5\% | 3\% | 14\% |
| Other | <1\% |  | <1\% |  |  |  | <1\% |  |  |  | 3\% |
| Will Not Pursue a Degree | 25\% |  | 23\% | 63\% | 90\% | 21\% | 28\% | 13\% | 13\% | 27\% | 50\% |
| Don't Know | 3\% | 3\% | 4\% |  |  | 3\% | 3\% | 10\% |  |  | 3\% |

Respondents were given the opportunity to provide multiple responses so column totals may exceed 100\%.

Overall, the respondents indicated that they would prefer courses offered in the evenings, followed by both distance learning and courses during the day.

## Chart 4. Respondents' Best Options for How and When Courses Should be Offered

(Base = only respondents who will "definitely yes" or "probably yes" enroll in a course or degree program within the next five years.)

Respondents were given the opportunity to provide multiple responses so total may exceed $100 \%$.

Younger respondents are those most likely to prefer taking courses during the day and those between 25 and 54 years of age are most likely to prefer evenings and distance learning. Those 65 and older prefer during the day or evenings.

Table 6. Respondents' Best Options for How and When Courses Should be Offered by Age
(Base = only respondents who will "definitely yes" or "probably yes" enroll in a course or degree program within the next five years.)

|  | $\mathbf{1 8 - 2 4}$ | $\mathbf{2 5 - 5 4}$ | $\mathbf{5 5 - 6 4}$ | $\mathbf{6 5 +}$ |
| :--- | :---: | :---: | :---: | :---: |
| N | 40 | 121 | 16 | 10 |
| Days | $75 \%$ | $21 \%$ | $44 \%$ | $60 \%$ |
| Evenings | $28 \%$ | $66 \%$ | $44 \%$ | $40 \%$ |
| Weekends | $15 \%$ | $36 \%$ | $31 \%$ | $10 \%$ |
| Distance Learning | $10 \%$ | $47 \%$ | $44 \%$ | $10 \%$ |
| Other |  |  | $6 \%$ |  |

Respondents were given the opportunity to provide multiple responses so column totals may exceed 100\%.

Mondays, Tuesdays, and Wednesdays are the most preferred days for courses to be offered in the classroom. Times most requested on those days are Monday mornings or evenings, Tuesday evenings, and Wednesday evenings.

Chart 5. Respondents' Preferences for Day of Week and Time of Day
(Base = only respondents who will "definitely yes" or "probably yes" enroll in a course or degree program within the next five years and prefer to take courses in the classroom.)

Respondents were given the opportunity to provide multiple responses so total may exceed $100 \%$.

Table 7 reports the type of degree that respondents might pursue for each of the various areas of study. For example, of those who said they would pursue business, $8 \%$ will pursue a certificate, $19 \%$ an associate's degree, $19 \%$ a bachelor's degree and so on.

Table 7. Desired Degree by Program
(Base = only respondents who will "definitely yes" or "probably yes" enroll in a course or degree program within the next five years.)

|  | Business | Education/ Teaching | Computers/ Electronics/ Technology | Health care | Art/ <br> Fine <br> Arts | Sciences/ Engineering | Languages | Accounting/ Finance/ Econ | History | Psychology/ Sociology | Vocational | Law | Real Estate | Other | Don't <br> Know |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |

| Don't Know | 2\% |  | 2\% |  | 10\% | 3\% | 3\% | 3\% | 3\% |

Most of those who are "extremely interested" in taking courses through distance education are also "extremely interested" in completing a certificate or degree (57\%) through distance education. Another 27\% of those who are "extremely interested" in taking courses through distance education are "somewhat interested" in completing a degree through distance education.

Respondents' preference for distance education is either a combination of video tapes/TV broadcasts and the Internet, or via the Internet only.

Chart 6. Respondents’ Interest in Various Types of Distance Education Courses
(Base = respondents who are "extremely interested" or "somewhat interested" in distance education)

Respondents were given the opportunity to provide multiple responses so totals may exceed $100 \%$.

Regarding the specific online format, respondents were divided. More than one-third (38\%) preferred entirely online, and about $40 \%$ preferred some combination of visits to campus. There is not a statistically significant difference among the three options.

Table 14. Respondents' Preference for Online Formats
(Base = respondents who are "extremely interested" or "somewhat interested" in distance education

| Entirely Online, No Campus Visits | $38 \%$ |
| :--- | :---: |
| Orientation/Tests on Campus, All Coursework Online | $40 \%$ |
| Orientation/Tests/Some Coursework on Campus and Some <br> Coursework Online | $42 \%$ |

Respondents were given the opportunity to provide multiple responses so total may exceed $100 \%$.

Of those respondents who indicated that they had some interest in distance education, 1 out of 4 (25\%) said they would be "much more likely" to enroll in a certificate or college degree program if it were offered through distance education. Another $54 \%$ said they would be "more likely," it would make "no difference" to $14 \%$ and $6 \%$ said they would be "much less likely."

Only one-third (33\%) of respondents said that they had no need or interest in enrolling a course or college program. The most common reasons why others don't enroll are lack of time and cost.

| Psychology/Sociology | $3 \%$ |
| Accounting/Finance/Economics | $2 \%$ |
| Real Estate | $1 \%$ |
| Law | $1 \%$ |
| History | $<1 \%$ |
| Other | $6 \%$ |
| Don’t Know | $18 \%$ |

Respondents were given the opportunity to provide multiple responses so column totals may exceed $100 \%$.

## Workforce Training Needs

Two-thirds (66\%) of the respondents are currently employed. Of those 18-24 years of age $74 \%$ are employed, $82 \%$ for those $25-54$ years of age, $48 \%$ of those $55-64$ and $12 \%$ of those 65 and older.

Currently employed respondents were asked an open-ended question regarding what jobs skills they have noticed at their work that they think people could use more training for.

Table 17 lists those skills categorically.

Table 17. Jobs Skills Respondents Said People They Work with Could Use More Training for by Age and Highest Level of Education

|  | Total | $\begin{gathered} 18- \\ 24 \end{gathered}$ | $\begin{gathered} 25- \\ 54 \end{gathered}$ | $\begin{gathered} 55- \\ 64 \end{gathered}$ | 65+ | HS Grad or Less | Voc/Tech/ Some College | Bachelor Degree | Graduate Degree |

| 1 | Technology (mechanics) |
| 1 | Welding |

Respondents were asked to rate the importance of a number of specific workplace skills regarding how important they believe each is in order to be successful at their organization/place of work. Chart 7 lists those skills in rank order of importance from left to right.

Chart 7. Level of Importance for Each of the Specific Workplace Skills (listed in rank order from left to right by the percent indicating "extremely important")

$$
\rightarrow 7 \text { Extremely Important }-6 \longrightarrow-5 \rightarrow-4 \rightarrow-3 \longrightarrow-2 \longrightarrow 1 \text { Not at All Important }
$$

## Cultural and Personal Enrichment Needs

Respondents were asked in an open-ended question, what types of classes, seminars, or cultural activities that they enjoy most. Chart 8 lists those activities categorically in rank order.

Chart 8. Types of Classes, Seminars, or Cultural Activities that Respondents’ Enjoy Most

Respondents were given the opportunity to provide multiple responses so total may exceed $100 \%$.

A second open-ended question asked what classes, seminars, or cultural activities respondents wish were more readily available in the area and those responses are listed categorically in rank order in Chart 9. Note, the question asked "wish were more readily available" not simply available.

Chart 9. Classes, Seminars, or Cultural Activities that Respondents Wish Were More Readily Available in the Area

Respondents were given the opportunity to provide multiple responses so total may exceed $100 \%$.

One final open-ended question asked respondents what they believe Harper College is best known for. Table 19 lists their responses categorically in rank order.

Table 19. What Respondents Believe Harper College is Best Known For

| Quality Education | $25 \%$ |
| :--- | :---: |
| Associates/Two-Year Degrees | $22 \%$ |
| Prep for Four-Year Colleges | $18 \%$ |
| Low Cost/Affordability | $11 \%$ |
| Variety of Programs/Flexible Hours | $8 \%$ |
| Convenience | $5 \%$ |
| Continuing Education | $5 \%$ |
| Nursing Program | $4 \%$ |

| Beautiful Campus | $1 \%$ |
| Football Team | $1 \%$ |
| Other | $6 \%$ |
| None | $<1 \%$ |
| Don’t Know | $13 \%$ |
| Refused | $<1 \%$ |

Respondents were given the opportunity to provide multiple responses so total may exceed $100 \%$.

## Findings

## Interviews with District HR Professionals from

Business and Not-for-Profit Organizations

## Higher Education

The following tables report the verbatim responses from 50 HR professionals (or possibly business owners for smaller organizations) regarding needs within their organizations for education and workforce training.

Table 20. What types of college degrees would you say are currently most needed at your organization, either by current or new employees?
$\qquad$

| Number | Degrees/Programs |
| :---: | :--- |
| 18 | None |
| 12 | Bachelor's in Business |
| 6 | Bachelor's |
| 5 | Bachelor's in Engineering |
| 4 | Bachelor's in IT/Technology |
| 2 | Bachelor's in Accounting |
| 2 | Bachelor's in Finance |
| 2 | Bachelor's in Marketing |
| 1 | Associate's in Business |
| 1 | Associate's in Inventory Control |
| 1 | Associate's in Material Management |
| 1 | Bachelor's in Communication |
| 1 | Bachelor's in Liberal Arts |
| 1 | Bachelor's in Math |
| 1 | Bachelor's in Science |
| 1 | Master's in Animation |
| 1 | Master's in Digital Media |
| 1 | Master's in Multimedia Web Design |
| 1 | Nursing |
| 1 | Printing |

Table 21. Are there non-degree or vocational programs that are currently needed by employees at your organization?
$\qquad$

| Number | Non-Degree or Vocational Education |
| :---: | :--- |
| 24 | None |
| 7 | ESL |
| 3 | Computers |
| 2 | Keyboarding |
| 2 | People Skills |
| 2 | Supervisor/Manager Training |
| 1 | Bank Teller |
| 1 | Building Trades |
| 1 | Culinary Training |
| 1 | Customer Service |
| 1 | Excel |
| 1 | Math |
| 1 | Medical Billing |
| 1 | Word |
| 1 | Working From a Home Office |

Table 22. What methods of delivering education are your employees currently participating in? Are they attending classes at night, online, weekends or any other options?
$\qquad$

| Number | Modalities Used |
| :---: | :--- |
|  |  |
| 22 | Nights/Evenings |
| 11 | Online |
| 10 | Weekends |
| 4 | All |
| 1 | CD-ROM |
| 1 | Days |

Table 23. What method of delivering education do you think your employees would prefer?

| Number | Modalities Preferred |
| :---: | :--- |
|  |  |
| 22 | Nights/Evenings |
| 22 | On-site at work site |
| 12 | Online |
| 10 | Early Mornings |
| 8 | Online/in class |
| 6 | Weekends |
| 4 | All |

Table 24. If I were to ask you these same questions [all of the previous questions] again five years from now, how do you think your answers will have changed?

| Number | What Might Change |
| :---: | :--- |
| 21 | Don't Know/Nothing |
| 5 | More Online Education |
| 3 | People Will Need More Education |
| 2 | More Master-Degree Employees |
| 1 | Greater Business Acumen |
| 1 | Industry-Specific Degrees |
| 1 | Less "Urgent" Training Needs |
| 1 | More Challenged with Cash Flow |
| 1 | More Computer Skills |
| 1 | More Culinary Grads |
| 1 | More People Working From Home |
| 1 | More Personal Growth Classes |
| 1 | More Technical Base for Graduates |
| 1 | More Training |
| 1 | New Modalities |

## Workforce Training Needs

Table 25. What specific job skills are most prevalent at your organization?

| Number | Prevalent Job Skills |
| :---: | :--- |
