Ms. Jane Smith  
Human Resource Manager  
ABC Electronics  
1200 West Algonquin Road  
Palatine, IL 60067

Dear Ms. Smith:

I am interested in applying for the position of **Electronics Engineering Technician** at ABC Electronics, which was posted on your company's website. I would welcome the opportunity to utilize my skills and experience to contribute to the growth of a national leader in electronic components whose values include quality and innovation.

As you can see from my attached resume, I have recently completed an Associate in Applied Science in Electronics Engineering Technology Degree from Harper College. I have had the opportunity to apply the skills that I was learning as an Electronic Technician during my internship. I have gained experience in testing, debugging and installing electrical components, as well as providing customer training. In addition, I possess excellent documentation skills and can work both independently and on a team to complete assigned projects.

I look forward to an opportunity to discuss this position with you in person. Please contact me at your convenience if I can provide further information about my qualifications or to answer any questions. Thank you for your time and consideration.

Kindest Regards,

Thomas R. Bright
